*House of Leaves* - Mark Z. Danielewski  
2000-03-07

"A novelistic mosaic that simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious." —The New York Times Years ago, when *House of Leaves* was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth -- musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies -- the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of

their estranged children. Now this astonishing novel is made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices. The story remains unchanged, focusing on a young family that moves into a small home on Ash Tree Lane where they discover something is terribly wrong: their house is bigger on the inside than it is on the outside. Of course, neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of that impossibility, until the day their two little children wandered off and their voices eerily began to return another story -- of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.

his life. Semyon Dukach was known as the Darling of Las Vegas. A legend at age twenty-one, this cocky hotshot was the biggest high roller to appear in Sin City in decades, a mathematical genius with a system the casinos had never seen before and couldn't stop — a system that has never been revealed until now; that has nothing to do with card counting, wasn't illegal, and was more powerful than anything that had been tried before. Las Vegas. Atlantic City. Aruba. Barcelona. London. And the jewel of the gambling crown — Monte Carlo. Dukach and his fellow MIT students hit them all and made millions. They came in hard, with stacks of cash; big, seemingly insane bets; women hanging on their arms; and fake identities. Although they were taking classes and studying for exams during the week, over the weekends they stormed the blackjack tables only to be harassed, banned from casinos, threatened at gunpoint, and beaten in Vegas's notorious back rooms. The stakes were high, the dangers very

real, but the players were up to the challenges, consequences be damned. There was Semyon Dukach himself, bored with school and broke; Victor Cassius, the slick, brilliant MIT grad student who galvanized the team; Owen Keller, with stunning ability but a dark past that would catch up to him; and Allie Simpson, bright, clever, and a feast for the eyes. In the classroom, they were geeks. On the casino floor, they were unstoppable. Busting Vegas is Dukach's unbelievably true story; a riveting account of monumental greed, excess, hubris, sex, love, violence, fear, and statistics that is high-stakes entertainment at its best.

what cards remain in the deck - is not. But casinos understandably dislike the practice and make every effort to keep card-counters out of their premises. *Bringing Down the House* tells the true story of the most successful scam ever, in which teams of brilliant young mathematicians and physicists won millions of dollars from the casinos of Las Vegas, being drawn in the process into the high-life of drugs, high-spending and sex. *Bringing Down the House* is as readable and as fascinating as *Liar's Poker* or *Barbarians At the Gate*, an insight into a closed, excessive and utterly corrupt world.

and a bold dissection of the mechanisms and cultural representations of psychological abuse. Tracing the full arc of a harrowing relationship with a charismatic but volatile woman, Machado struggles to make sense of how what happened to her shaped the person she was becoming. And it's that struggle that gives the book its original structure: each chapter is driven by its own narrative trope—the haunted house, erotica, the bildungsroman—through which Machado holds the events up to the light and examines them from different angles. She looks back at her religious adolescence, unpacks the stereotype of lesbian relationships as safe and utopian, and widens the view with essayistic explorations of the history and reality of abuse in queer relationships. Machado's dire narrative is leavened with her characteristic wit, playfulness, and openness to inquiry. She casts a critical eye over legal proceedings, fairy tales, Star Trek, and Disney villains, as well as iconic works of film and fiction. The result is a wrenching,

called WallStreetBets took down one of the biggest hedge funds on Wall Street, firing the first shot in a revolution that threatens to upend the establishment. It's the story of financial titans like Gabe Plotkin of hedge fund Melvin Capital, one of the most respected and staid funds on the Street, billionaires like Elon Musk, Steve Cohen, Mark Cuban, Robinhood co-CEOs Vlad Tenev and Baiju Bhatt, and Ken Griffin of Citadel Securities. Over the course of four incredible days, each in their own way must reckon with a formidable force they barely understand, let alone saw coming: everyday men and women on WallStreetBets like nurse Kim Campbell, college student Jeremy Poe, and the enigmatic Keith "RoaringKitty" Gill, whose unfiltered livestream videos captivated a new generation of stock market enthusiasts. The unlikely focus of the battle: GameStop, a flailing brick-and-mortar dinosaur catering to teenagers and outsiders that had somehow held on as the world rapidly moved online. At first,

WallStreetBets was a joke—a meme-filled, freewheeling place to share shoot-the-moon investment tips, laugh about big losses, and post diamond hand emojis. Until some members noticed an opportunity in GameStop—and rode a rocket ship to tens of millions of dollars in earnings overnight. In thrilling, pulse-pounding prose, *THE ANTISOCIAL NETWORK* offers a fascinating, never-before-seen glimpse at the outsize personalities, dizzying swings, corporate drama, and underestimated American heroes and heroines who captivated the nation during one of the most volatile weeks in financial history. It's the amazing story of what just happened—and where we go from here.

**Burning Down the House** - Nell Bernstein

When teenagers scuffle during a basketball game, they are typically benched. But when Will got into it on the court, he and his rival were sprayed in the face at close range by a chemical similar to Mace, denied a shower for twenty-four hours, and then locked in solitary confinement for a month. One in three American children will be arrested by the time they are twenty-three, and many will spend time locked inside horrific

detention centers that defy everything we know about how to rehabilitate young offenders. In a clear-eyed indictment of the juvenile justice system run amok, award-winning journalist Nell Bernstein shows that there is no right way to lock up a child. The very act of isolation denies delinquent children the thing that is most essential to their growth and rehabilitation: positive relationships with caring adults. Bernstein introduces us to youth across the nation who have suffered violence and psychological torture at the hands of the state. She presents these youths all as fully realized people, not victims. As they describe in their own voices their fight to maintain their humanity and protect their individuality in environments that would deny both, these young people offer a hopeful alternative to the doomed effort to reform a system that should only be dismantled. *Burning Down the House* is a clarion call to shut down our nation’s brutal and counterproductive juvenile prisons and bring our children home.

The House Advantage - Jeffrey Ma 2012-02-14  
As part of the notorious MIT Team depicted in Ben Mezrich's now classic Bringing Down the House, Jeff Ma used math and statistics to master the game of blackjack and reap handsome rewards at casinos. Years later, Ma has inspired not only a bestselling novel and hit movie, but has also started three different companies—the latest of which, Citizen Sports, is an innovative marriage of sports, betting, and digital technology—and launched a successful corporate speaking career. The House Advantage reveals Ma's cutting-edge mathematical insights into the world of statistics and makes them applicable to a wide business audience. He argues that numbers are the key to analyzing nearly everything in the world of business, from how to spot and profit from global market inefficiencies to having multiple backup plans in anticipation of every probability.

As her success grew, Demi found herself questioning if she belonged in Hollywood, if she was a good mother, a good actress—and, always, if she was simply good enough. As much as her story is about adversity, it is also about tremendous resilience. In this deeply candid and reflective memoir, Demi pulls back the curtain and opens up about her career and personal life—laying bare her tumultuous relationship with her mother, her marriages, her struggles balancing stardom with raising a family, and her journey toward open heartedness. Inside Out is a story of survival, success, and surrender—a wrenchingly honest portrayal of one woman's at once ordinary and iconic life.

*My Age of Anxiety* - Scott Stossel 2014-01-07

A riveting, revelatory, and moving account of the author's struggles with anxiety, and of the history of efforts by scientists, philosophers, and writers to understand the condition. As recently as thirty-five years ago, anxiety did not exist as a diagnostic category. Today, it is the most common form of officially classified mental

illness. Scott Stossel gracefully guides us across the terrain of an affliction that is pervasive yet too often misunderstood. Drawing on his own long-standing battle with anxiety, Stossel presents an astonishing history, at once intimate and authoritative, of the efforts to understand the condition from medical, cultural, philosophical, and experiential perspectives. He ranges from the earliest medical reports of Galen and Hippocrates, through later observations by Robert Burton and Søren Kierkegaard, to the investigations by great nineteenth-century scientists, such as Charles Darwin, William James, and Sigmund Freud, as they began to explore its sources and causes, to the latest research by neuroscientists and geneticists. Stossel reports on famous individuals who struggled with anxiety, as well as on the afflicted generations of his own family. His portrait of anxiety reveals not only the emotion's myriad manifestations and the anguish anxiety produces but also the countless

psychotherapies, medications, and other (often outlandish) treatments that have been developed to counteract it. Stossel vividly depicts anxiety's human toll—its crippling impact, its devastating power to paralyze—while at the same time exploring how those who suffer from it find ways to manage and control it. *My Age of Anxiety* is learned and empathetic, humorous and inspirational, offering the reader great insight into the biological, cultural, and environmental

factors that contribute to the affliction. *Bringing the House Down* - David Profumo 2007
