Peacebuilding, Intercultural Communication and English Language Teaching - Amy Jo Minett 2022-03-16

This book maps the discursive terrain and potential of person to person peacebuilding as it intersects with, and is embedded in, intercultural communication. It foregrounds the voices and discourses of participants who came together in the virtual intercultural borderlands of online exchange through a service-learning project with a

non-profit organization which focused on peace through education in Afghanistan, primarily through English language tutoring. By analyzing the voices and perspectives of US-based tutors who are pre-service teachers of English as an Additional Language, in equal measure with the voices and perspectives of adult English learners in Afghanistan, the authors examine how intercultural interactants begin to work as peacebuilders. The participants describe the profound transformations they undergo throughout their intercultural tutoring journeys, transformations which evidence three dimensions of person to person peacebuilding: the personal, relational and structural. Inspired by these voices, the book further explores ways teachers and teacher educators of language and intercultural communication can more deliberately leverage the affordance of peacebuilding, whether face to face or in the virtual intercultural

borderlands of online exchange.

One early April morning in 1906, the people of San Francisco were jolted awake by a mammoth earthquake—one that registered 7.8 on the Richter Scale. The Bohemians - Ben Tarnoff 2015-02-24

An extraordinary portrait of a fast-changing America—and the Western writers who gave voice to its emerging identity. At once an intimate portrait of an unforgettable group of writers and a history of a cultural revolution in America, *The Bohemians* reveals how a brief moment on the far western frontier changed our culture forever. Beginning with Mark Twain's arrival in San Francisco in 1863, this group biography introduces readers to the other young eccentric writers seeking to create a new American voice at the country's edge—literary golden boy Bret Harte; struggling gay poet Charles Warren Stoddard; and

beautiful, haunted Ina Coolbrith, poet and protector of the group. Ben Tarnoff's elegant, atmospheric history reveals how these four pioneering writers helped spread the Bohemian movement throughout the world, transforming American literature along the way. "Tarnoff's book sings with the humor and expansiveness of his subjects' prose, capturing the intoxicating atmosphere of possibility that defined, for a time, America's frontier." -- The New Yorker "Rich hauls of historical research, deeply excavated but lightly borne.... Mr. Tarnoff's ultimate thesis is a strong one, strongly expressed: that together these writers 'helped pry American literature away from its provincial origins in New England and push it into a broader current.'" -- Wall Street Journal

Literature A Penguin Classic A much neglected literary figure, Ivan Bunin is one of Russia's major writers and ranks with Tolstoy and Chekhov at the forefront of the Russian Realists. Drawing artistic inspiration from his personal experience, these stories are set in the late nineteenth- and early twentieth-century Russia of his youth, in the countries that he visited and in France, where he spent the last thirty years of his life. In the title story, a family's tour of fashionable European resorts comes to an unexpected end; "Late Hour" describes an old man's return to the little Russian town in the steppes that he has not seen since his early youth; "Mitya's Love" explores the darker emotional reverberations of sexual experience. Throughout his stories, there is a sense of the precariousness of existence, an omnipresent awareness of the impermanence of human aspirations and achievements. For more than seventy years, Penguin has been the leading publisher of classic literature

in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Adventures of an English Gentleman in the Early American West - Philip Becher
2015-06-01

In 1876, Philip Tudor Becher left his wealthy British home in search of adventure. He spent the next several years doing various jobs in San Francisco, Bakersfield, and Chico, California where he found no lack of encounters with dangerous situations. His escapades range from almost getting shot by an angry boss and drunken landlord to falling off a flume while trying to dislodge a log jam and nearly getting killed by a mountain lion. Philip eventually married Ruth Brison and moved his young family to Spokane, Washington where they had run-ins with squatters trying to violently take their land and a criminal gang causing problems. Through it all, Philip and Ruth use their wits,

charisma, and innate strength to survive in the early American West.

Creating Belonging in San Francisco Chinatown's Diasporic Community - Adina

Staicov 2019-08-20

This book presents a much-needed discussion on ethnic identification and morphosyntactic variation in San Francisco Chinatown—a community that has received very little attention in linguistic research. An investigation of original, interactive speech data sheds light on how first- and second-generation Chinese Americans signal (ethnic) identity through morphosyntactic variation in English and on how they co-construct identity discursively. After an introduction to the community's history, the book provides background

information on ethnic varieties in North America. This discussion grounds the present book within existing research and illustrates how studies on ethnic varieties of English have evolved. The book then proceeds with a description of quantitative and qualitative results on linguistic variation and ethnic identity. These analyses show how linguistic variation is only one way of signalling belonging to a community and highlight that Chinese Americans draw on a variety of sources, most notably the heritage language, to construct and negotiate (ethnic) identity. This book will be of particular interest to linguists - particularly academics working in sociolinguistics, language and identity, and language variation - but also to scholars interested in related issues such as migration, discrimination, and ethnicity.

Theater of the Word - Julie Paulson 2019

"Paulson highlights a paradox of scholarship on medieval concepts of the self: The concept of an 'interior' self that is to some extent hidden from an 'external' world is uniquely modern, and hence alien to the medieval period; nevertheless, studies of the medieval idea of the self still privilege this modern binary in the language they use. What is needed,

Paulson argues, is a new way of speaking about the medieval self that does not privilege anachronistic terms and concepts. To provide this, Paulson turns to the medieval morality plays--performances which depict selves being created through performative acts--to construct a more appropriate form of discourse"-

Dmitri Shostakovich (1906-75) was one of the greatest composers of the 20th century, as well as the first major Soviet composer. In the fourth edition of Dmitri Shostakovich Catalogue: The First Hundred Years and Beyond, Derek C. Hulme names and describes all known musical compositions of the Russian composer. More than 175 major works are annotated and discussed, including such comprehensive details as titles and subtitles, dates of composition, instrumentation, and duration; information on dedications and premieres; arrangements by the composer and others; publication details; notes on bibliographical references and the location of the autograph score; and comprehensive chronological lists of vinyl, compact disc, and visual recordings. The entries are presented chronologically and by opus number, while indexes of names and compositions provide full accessibility. Several appendixes supplement the volume, guiding readers to further information in

published sources and providing information on the composer's film, radio, television, and theatre productions; his abandoned projects and obscure works; and his recordings, including box sets and special USSR recordings. An appendix also discusses the monogram DSCH, a musical motif based on his name that permeates his compositions. This new edition also includes a comprehensive chronological chart of Shostakovich's works and historical events and several plates of memorabilia.

Grid meets the hills - Florence Lipsky 1999

A San Francisco, on alterne les montées et les descentes pour finalement buter contre un mur qui barre la rue. Là il faut abandonner la machine pour retrouver le pas. Seuls des escaliers permettent de suivre la pente et raccorder deux tronçons de la même rue. Tout au long de ce trajet on enchaîne une vue de la rue montant vers le ciel dans un cadre de tours d'appartements, un panoramique de la ville dans son site, une descente vertigineuse entre des maisons en bois, une autre montée vers le ciel encadrée de maisonnettes décorées, puis un plan rapproché de jardins exubérants sur lesquels s'ouvrent des entrées privées avant de fi sur une vue saisissante de la baie et de l'Oakland Bay Bridge. A chaque sommet, la baie apparaît et souligne les limites du territoire. De colline en colline la cité se regarde dans un

incessant jeu de miroir. Dans un paysage grandiose où ponts et autoroutes marient la mer et la terre et où chaque colline est un quartier, Nature et Architecture s'entremêlent pour composer une ville tour à tour triomphante, modeste et familière. Comme la plupart des villes américaines, San Francisco s'est développée suivant un système de grille orthogonale. Son site présentait pourtant une topographie mouvementée ne

comptant pas moins de quarante-deux collines. La grille habituellement utilisée en terrain plat rencontre ici une nature rebelle et insoumise. Il en résulte un phénomène peu commun : les rues rectilignes jouent aux montagnes russes car ici l'outil du colonisateur et les reliefs sont entrés en guerre au mépris d'une rationalité évidente. Pourquoi la ville ne s'est-elle pas adaptée à son site comme le laissait prévoir le bon sens usuel ?
