Let's Get This Straight - Tina Fakhrid-Deen 2010-09-28

Let's Get This Straight reaches out to young people with one or more gay, lesbian, bi, or trans parents to provide them with the tools to combat homophobia, take pride in their alternative family structures, and speak out against injustice. This short but thorough book profiles forty-five diverse youth and young adults, all of whom voice their opinions and provide advice for other youth living in LGBTQ households. Let's Get This Straight also includes probing questions, fun activities, engaging quizzes, and reflective journal sections for youth to share their feelings and experiences about having a gay parent. By reading this book, readers will learn how to: identify and overcome barriers to having a gay parent; address discrimination and heterosexism; build a strong self-esteem and sense of belonging; communicate effectively with their parents and individuals outside of the LGBTQ community; access resources and support for their families; respond effectively when challenged about being in a sexual minority family; and reduce the isolation, fear, shame, and confusion that can be associated with having gay parents. As the media brings ever-increasing exposure to gay-headed households, this book is more important than ever. Let's Get This Straight is the perfect blend of wit, sharing of experiences, and "expert" advice that children with LGBTQ parents need to become more self-aware and affirming, and to maintain healthy relationships with their parents.

**Social Postmodernism** - Linda Nicholson 1995-09-14

Social Postmodernism defends a postmodern perspective anchored in the politics of the new social movements. The volume preserves the focus on the politics of the body, race, gender, and sexuality as elaborated in postmodern approaches. But these essays push postmodern analysis in a particular direction: toward a social postmodernism which integrates the micro-social concerns of the new social movements with an institutional and cultural analysis in the service of a transformative political vision.

The essays in this volume bring together scholars of postcolonial and lesbian and gay studies in order to examine, from multiple perspectives, the narratives that have sought to define globalization.

**The Gender Line** - Nancy Levit 1998-04

With its focus particularly on men, The Gender Line offers an insightful overview of the construction of gender and the damaging effects of its stereotypes. Levit analyzes the ways in which law legitimizes the social segregation of the sexes through legal decisions regarding custody, employment, education, sexual harassment, and criminal law. In so doing, she illustrates the ways in which men's and women's oppressions are intertwined and how law molds the very definition of masculinity.

*Tensions in the Struggle for Sexual Minority Rights in Europe* - Nicole J. Beger 2004

Que(e)rying political practices in Europe is the first queer and poststructuralist reading of political rights concepts in the specific European transnational context. In the last thirty years Europe has seen the rise of gay, lesbian, bisexual, and transgender movements fighting nationally and transnationally for participation rights in society. In addition academic theorists have increasingly paid attention to the epistemological and ontological roles gender and sexuality play in modern politics. However, in the political process of arguing for rights

the centrality of those roles is mostly hidden from view in official institutional and movement discourses. This book investigates the conceptual themes of lesbian, gay, and transgender rights and lobby politics in Europe and their open and hidden relations to binary and hierarchical orders of dominance. It contributes to an understanding of the conditions upon which politics of inclusion, participation, social justice, and equality rest and why struggles for sexual minority rights have been so difficult and slow. The book illuminates how the paradigms of political discourses constitute, consolidate, and contest the meaning and culture

Politics of Sexuality - Terrell Carver 2013-03-07

This book recognises sexuality as a mainstream concept in political analysis and explores issues in the politics of sexuality that are highly salient and controversial today. These include conceptions of citizenship and nationality linked to gender and sexuality, the legislation about the age of consent, prostitution and 'trafficking in women', the international politics of population control, abortion, sexual harassment, and sexuality in the military. The international team of contributors provide a wide range of perspectives in a variety of contexts. On a national level they offer illustrative case studies from the UK, Ireland, the Netherlands, Spain and Israel among others, and on an international plane they cover the European Union, the UN Conference on Population and Development and the role of the Vatican as international arbiter. Moreover, the volume addresses the interaction between political discourse and the work of major theorists such as Weber, Freud, Foucault, Irigaray and Butler.

Our Lives Before the Law - Judith A. Baer 1999-08-16

According to Judith Baer, feminist legal scholarship today does not effectively address the harsh realities of women's lives. Feminists have marginalized themselves, she argues, by withdrawing from mainstream intellectual discourse. In Our Lives Before the Law, Baer thus presents the framework for a new feminist jurisprudence--one that would return feminism to relevance by connecting it in fresh and creative ways with liberalism. Baer starts from the traditional feminist premise that the legal system has a male bias and must do more to help women combat

violence and overcome political, economic, and social disadvantages. She argues, however, that feminist scholarship has over-corrected for this bias. By emphasizing the ways in which the system fails women, feminists have lost sight of how it can be used to promote women's interests and have made it easy for conventional scholars to ignore legitimate feminist concerns. In particular, feminists have wrongly linked the genuine flaws of conventional legal theory to its basis in liberalism, arguing that liberalism focuses too heavily on individual freedom and not enough on individual responsibility. In fact, Baer contends, liberalism rests on a presumption of personal responsibility and can be used as a powerful intellectual foundation for holding men and male institutions more accountable for their actions. The traditional feminist approach, Baer writes, has led to endless debates about such abstract matters as character differences between men and women, and has failed to deal sufficiently with concrete problems with the legal system. She thus constructs a new feminist interpretation of three central components of conventional theory--equality, rights, and responsibility--through analysis of such pressing legal issues as constitutional interpretation, reproductive choice, and fetal protection. Baer concludes by presenting the outline of what she calls "feminist post-liberalism": an approach to jurisprudence that not only values individual freedoms but also recognizes our responsibility for addressing individuals' needs, however different those may be for men and women. Powerfully and passionately written, *Our Lives Before the Law* will have a major impact on the future course of feminist legal scholarship.

**Gender Perceptions and the Law** - Christine R. Barker 2018-08-20  
Published in 1998. This collection of papers, written by leading lawyers and sociologists in the UK, focuses on the relationships between gender and the law in the context of three areas of law: family law, criminal law and equal rights. The papers argue that gender roles within society affect the legal rights of individuals and impact on procedures they go through to enforce their rights or to gain redress for wrongs done to them. By failing to recognize the social and economic situations in which men and women are placed, the law perpetuates inequalities in their positions. Where attempts are made to ensure equality between the sexes, the result is often the exact opposite, because the legal system treats individuals as equals operating in a vacuum, ignoring the argument that equal treatment does not necessarily mean the same treatment, but can mean different treatment to ensure equality of result. Topics include:  $\phi$  Disputes in the area of parental child custody rights  $\phi$  The rights of surviving spouses to their deceased partner's estate  $\phi$  Theories for violent behaviour in women as contrasted with men  $\phi$  Gender bias in criminal sentencing  $\phi$  The role of European law in promoting sex equality in the work place  $\phi$  Pornography and free speech  $\phi$  Homosexuality as a civil right of citizenship

*Making Women Count: Integrating Gender into Law and Policy-making* - Kylie Stephen 2018-02-05  
This title was first published in 2000. Drawn from an international research project, this study provides evidence of efforts to make law and policy-making truly inclusive, and discusses whether success or failure depends on the nature of the procedure, or the legal and social context. The book contains six case studies detailing national practice in promoting equality between the sexes and a series of general chapters which evaluate the effectiveness of individual equality strategies and the factors which contribute to their success or failure. The contributors analyze the contribution of the European Union in promoting gender equality in Europe, and particular emphasis is placed on gender mainstreaming and how this strategy might be developed.

**Feminist Legal Theories** - Karen J. Maschke 1997  
Multidisciplinary focus Surveying many disciplines, this anthology brings together an outstanding selection of scholarly articles that examine the profound impact of law on the lives of women in the United States. The themes addressed include the historical, political, and social contexts of legal issues that have affected women's struggles to obtain equal treatment under the law. The articles are drawn from journals in law, political science, history, women's studies, philosophy, and education and represent some of the most interesting writing on the subject. The law in theory and practice Many of the articles bring race, social, and economic factors into their analyses, observing, for example, that black women, poor women, and single mothers are treated by the wielders of the power of the law differently than middle class white women. Other topics covered include the evolution of women's legal status, reproduction rights, sexuality and family issues, equal employment and educational opportunities, domestic violence, pornography and sexual exploitation, hate speech, and feminist legal thought. A valuable research and classroom aid, this series provides in-depth coverage of specific legal issues and takes into account the major legal changes and policies that have had an impact on the lives of American women.

**Gender and Politics** - Christine Bauhardt 1999-01-30  
Die Einsicht, nicht nur das soziale Geschlecht, gender, sei eine soziale Konstruktion, sondern auch das biologische Geschlecht, sex, unterliege weitreichenden kulturellen Voraussetzungen, fordert feministische Politikwissenschaftlerinnen heraus, über die Theorie und Praxis feministischer Politik neu nachzudenken. Zentrales Erkenntnisinteresse ist die Frage nach feministisch-politischem Handeln in vergeschlechtlichten gesellschaftlichen Kontexten: 1. Wer ist das Subjekt feministischer Politik, wenn sich die Kategorie "Frau" als eine Konstruktion erweist? 2. Welche erkenntnistheoretischen Weiterungen erlaubt der dekonstruktive Blick auf die Selbstverständlichkeit des weiblichen Subjekts? 3. Wo und wie wird im politischen Handeln von AkteurInnen und Institutionen "die Frau" (re-)konstruiert? Der Band vereint sowohl handlungstheoretisch als auch strukturtheoretisch argumentierende Ansätze und versteht sich als Beitrag zu einer reflektierten Neubestimmung feministisch-politologischer Theorie und Praxis. Er bietet Anknüpfungspunkte an bereits vorliegende feministische Analysen und Konzepte und weist neue Wege für eine zukunftsgerichtete Auseinandersetzung mit der Kategorie "Geschlecht" in der feministischen Politikwissenschaft.

[Queer Families, Queer Politics](#) - Mary Bernstein 2001  
This book addresses the themes of visibility, transgression, and resistance, as well as the intersection between the personal and political in the contexts of relationships, parenthood, and political activism. Giving special attention to families of color, immigrants, and poor families, the authors examine the risks entailed in coming out and the significance of class, race, and sexual and gender identity in this process. Parenting also creates dilemmas of visibility as queer families negotiate malls, schools, and workplaces, as well as the medical, legal, and political institutions that regulate their families.

*Equality for Same-Sex Couples* - Yuval Merin 2010-02-15  
During the past three decades, nations all over the world have been debating whether to allow same-sex couples to marry, or at least grant these couples various rights associated with marriage. In *Equality for Same-Sex Couples*, Yuval Merin presents the first comparative study of the legal regulation of same-sex partnerships worldwide, as well as a

unique survey of the status of same-sex couples in Europe. Merin begins by providing a historical overview of the transformation of marriage from antiquity to the present. He then identifies and critically compares four principal models for the legal regulation and recognition of same-sex partnerships: civil marriage, registered partnership, domestic partnership, and cohabitation. Merin concludes that all of the models except civil marriage discriminate against gays and lesbians just as the "separate but equal" doctrine discriminated against African Americans; thus, so-called alternatives to marriage, even if they provide the same rights and benefits as marriage, are inherently unequal and therefore unconstitutional.

And Then I Met this Woman - Barbee J. Cassingham 1999

These stories are about the transforming commitment made by these women to own the authenticity of their feelings for another woman in order to be congruent in all areas of their lives. Their lives included the realities common to all women that are inherent in loving their children, husbands, parents and friends, as well as struggles with unfulfilling marriages, addictions, and seeking meaningful work. And, for the women in this book, their lives were further complicated by their love for a woman and the issues that are intrinsic to the coming out process.

Breaking the Rules: Women in Prison and Feminist Therapy challenges therapists, public policymakers, voters, and those in the criminal justice system to find treatment options, empowerment strategies, viable resources, community support, and policies that can help women with problems such as drug abuse, domestic violence, poverty, and prostitution rather than perpetually punishing them. **Separate and Unequal** - Huang Hoon Chng 2002-01-01

This book argues for a multidisciplinary approach to the study of the language of judges with respect to the issue of gender discrimination. Drawing its inspiration from Dell Hymes' socially constituted linguistics, the author examines the language of the judicial opinions of four U.S. Supreme Court cases addressing social and legal discrimination against women. Through a linguistic analysis that is informed by a Foucauldian and feminist perspective, this book addresses the complex issues of the power of judges and ideologies, the politics of language use, and feminist contributions to the subject of discrimination and women's rights. This book is most suitable for researchers and students in cultural studies, ethnography, feminist legal studies, forensic linguistics, gender studies, ideology research, pragmatics, semiotics, and social studies.

**Feminism Meets Queer Theory** - Elizabeth Weed 1997-07-22

". . . innovative and important thinking about the various relations between feminist theory, queer theory, and lesbian theory, as well as the possibility that liberation can be mutual rather than mutually exclusive." —Lambda Book Report When feminism meets queer theory, no introductions seem necessary. The two share common political interests—a concern for women's and gay and lesbian rights—and many of the same academic and intellectual roots. And yet, they can also seem like strangers, needing mediation, translation, clarification. This volume focuses on the encounters of feminist and queer theories, on the ways in which basic terms such as "male" and "female," "man" and "woman," "black," "white," "sex," "gender," and "sexuality" change meaning as they move from one body of theory to another. Along with essays by Judith Butler, Evelyn Hammonds, Biddy Martin, Kim Michasiw, Carole-Anne Tyler, and Elizabeth Weed, there are interviews: Judith Butler engages Rosi Braidotti and Gayle Rubin in separate revealing discussions. And there are critical exchanges: Rosi Braidotti and Trevor Hope exchange comments on his reading of her work; and Teresa de Lauretis responds to Elizabeth Grosz's review of her recent book.
