Other workshops explore simple ideas for creating new stories, based around simple familiar patterns. The book also offers advice on how to organize an effective workshop for younger children, and demonstrates how to teach story writing in a dynamic, creative and imaginative way in relationship with the KS1 national literacy framework. Workshops include the story of our lives; stories that make a circle; stories about problems; days of the week tales; humbug, stuff and nonsense stories; quests; repetitive tales; wishing stories; warning stories; and cooking the story soup.

*The Writing Revolution* - Judith C. Hochman 2017-08-07

Why you need a writing revolution in your classroom and how to lead it  
The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities  
The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
