## African Americans and College Choice - Kassie Freeman

2012-02-01

Assesses the influence of family and school on African American students' college decision-making processes.

Acknowledging the disparity between the number of African American high school students who aspire toward higher education and the number who actually attend, this book uncovers factors that influence African American students' decisions regarding college.

Kassie Freeman brings new

insights to the current body of research on African Americans and higher education by examining the impact that family, school, community, and home have in the decision-making process. She explores specific factors that contribute to a student's predisposition toward higher education, including gender, economics, and high school curriculum, and seeks to bridge the gap in understanding why aspiration does not immediately translate into participation. Educators and policy makers interested in

increasing African American students' participation in higher education will benefit from the exploration of this paradox. Kassie Freeman is Dean and Professor of Education at Dillard University. She is the editor of African American Culture and Heritage in Higher Education Research and Practice.

**Icebergs, Zombies, and the Ultra-Thin** - Matthew Soules 2021-05-04

"Soules's excellent book makes sense of the capitalist forces we all feel but cannot always name... Icebergs, Zombies, and the Ultra Thin arms architects and the general public with an essential understanding of how capitalism makes property. Required reading for those who think tomorrow can be different from today."— Jack Self, coeditor of Real Estates: Life Without Debt In Icebergs, Zombies, and the Ultra Thin, Matthew Soules issues an indictment of how finance capitalism dramatically alters not only architectural forms but also the very nature of our cities and societies. We rarely consider architecture to be an important factor in contemporary economic and political debates, yet sparsely occupied ultra-thin "pencil towers" develop in our cities,

functioning as speculative wealth storage for the superrich, and cavernous "iceberg" homes extend architectural assets many stories below street level. Meanwhile, communities around the globe are blighted by zombie and ghost urbanism, marked by unoccupied neighborhoods and abandoned housing developments. Learn how the use of architecture as an investment tool has accelerated in recent years, heightening inequality and contributing to worldwide financial instability: • See how investment imperatives shape what and how we build, changing the very structure of our communities • Delve into high-profile projects, like the luxury apartments of architect Rafael Viñoly's 432 Park Avenue • Understand the convergence of technology, finance, and spirituality, which together are configuring the financialized walls within which we eat, sleep, and work Includes dozens of photos and drawings of architectural phenomena that have changed

the way we live. Essential reading for anyone interested in architecture, design, economics, and understanding the way our world is formed.

“practitioner-scholars,” is an exploration and identification of the knowledge, skills, and dispositions that are central to supporting effective community engagement practices between higher education and communities. The discussion and review of these core competencies are framed within a broader context of the changing landscape of institutional community engagement and the emergence of the Community Engagement Professional as a facilitator of engaged teaching, research, and institutional partnerships distinct from other academic professionals. This research, conducted as part of Campus Compact’s Project on the Community Engagement Professional, seeks to identify the shared knowledge and practices of Community Engagement Professionals by looking to empirical practice literature. Chapters include an exploration of competencies applicable to those in Community Engagement Professional roles generally,

and also to those specializing in specific areas such as faculty development, partnership facilitation, and other areas of responsibility. The authors trace the evolution of engagement administration over time and the role of those facilitating community-campus engagement toward a “Second Generation” professional who is at once a “tempered radical, transformational leader, and social entrepreneur.” Central to the work is a presentation of the core competency findings, along with suggestions for continued exploration. Dostilio and her colleagues argue that Community Engagement Professionals should claim a professional identity grounded in a set of core competencies, values, and knowledge, and through association with a community of scholar practitioners similarly dedicated. Additional work to understand and empower Community Engagement Professionals in their role as distinct from other higher education professional types will enable both broader

impact for institutions and communities now with a view to prepare those coming to the role for a dynamic and demanding environment without distinct boundaries.

### **Creativity & Innovation -**

Ashwini Kumar Singh

2021-03-17

“Creativity and innovation are to events, what the heart and soul are to the living.” The book aims at encouraging readers to capture the traits and develop skills for enhancing their creative and innovative capabilities, cultivating the culture of creativity and innovation.

Creativity is inventiveness with new ideas; critical thinking is generating and selecting ideas; and innovation turns creativity into products, processes and services. Creativity + Critical thinking + Innovation = Path of Desired Change. The primary difference between creativity and innovation is that the former refers to conceiving a

new idea while the latter involves converting that idea into a marketable commodity. Creativity and innovation are an attempt to gain a competitive advantage. Organizations are now focusing on enhancing their employees' creativity and not merely developing their technical competencies and skills. Undoubtedly, creativity is the most important human resource of all without which there would be no progress, and we would be forever repeating the same patterns. Innovation is at the heart of all successful companies.

**Tomorrow Is The Last Day** - Keith Kelly 2021-09-09

Tomorrow is never promised. For years, Chad Owens has given everything within himself to help those in need. His career has had its ups and downs, many of which he could have done without. Despite this fact, he's lived the best life possible. Looking forward to his upcoming retirement, he soon finds himself reminiscing about the life he's led. His stroll down memory lane is a tumultuous one, reminding him of an imperfect past. One he often wishes he could change in the blink of an eye.

Determined in embracing who and what he is, he realizes he'll need to accept every aspect of the life he's built for himself and his beloved family. The pain, heartache, and numerous disappointments are often hard to let go. Most especially when they cross paths with his hopes

and dreams. Nevertheless, he'll do his best to do so if he's to succeed in moving toward the next phase of his current existence.

Kerjaya Sebagai Saintis Industri Sawit - Rashidah Mat Nor 2006

**KADS** - Guus Schreiber  
1993-05-05  
KADS is a structured methodology for the development of knowledge based systems which has been adopted throughout the world by academic and industrial professionals alike. KADS approaches development as a modeling activity. Two key characteristics of KADS are the use of multiple models to cope with the complexity of knowledge engineering and the use of knowledge-level descriptions as an immediate model between system design

and expertise data. The result is that KADS enables effective KBS construction by building a computational model of desired behavior for a particular problem domain. KADS contains three section: the Theoretical Basis of KADS, Languages and Tools, and Applications. Together they form a comprehensive sourcebook of the how and why of the KADS methodology. KADS will be required reading for all academic and industrial professionals concerned with building knowledge-based systems. It will also be a valuable source for students of knowledge acquisition and KBS. \* SPECIAL FEATURES: \* KADS is the most widely used commercial structured methodology for KBS development in Europe and is becoming one of the few significant AI exports to the US. \* Describes KADS from its Theoretical Basis, through Language and Tool Developments, to real Applications.

**Bila Pintu Hati Terbuka** - Dr.  
Ridzwan Bakar 2010

Hati milik ALLAH dan  
dipamanahkan buat kita. DIA  
akan memberi cahaya kepada  
hati kita jika kita  
memeliharanya. Hati perlu

sentiasa digilap agar bersih  
dan bercahaya. Andai kita  
cetek ilmu, maka belajarlah  
dan hadiri majlis ilmu.  
Mengapa dibiarkan hidup  
dalam kejahilan dan serik  
dengan kegagalan? Bawalah  
semangat ombak dalam diri;  
setiap kali jatuh, akan bangkit  
kembali tanpa jemu. Ketahuilah  
bahawa tika jendela hati  
terbuka, tiada tembok konkrit  
yang mampu menghalang  
kejayaan. Kita ada senjata  
hebat; antaranya solat, puasa,  
sedekah, zikir dan doa.  
Yakinlah bahawa pergantungan  
kepada-NYA mampu  
mencairkan hati yang sekeras  
kerikil malah doa merupakan  
kunci kekuatan dalaman setiap  
insan.
