BIM for Construction Health and Safety - Stefan Mordue 2019-08-13

What is BIM and how does it affect the health and safety professional? How are BIM technologies used on a practical level? What opportunities are there for the use of BIM in the health and safety arena? This concise and practical guide aims to answer all these questions and more. The health and safety role is evolving towards collaboration, structured data and sharing of information as BIM – the incarnation of these sensibilities - increasingly underpins construction practice. As the industry begins to see how these two topics can and should intersect this guide provides context and practical advice by explaining the basic principles of BIM, how it will shape the health and safety professional's role and what tools and processes will need to be embedded in the future. It also highlights the wealth of opportunities that BIM provides to improve health and safety standards and effective coordination – the means to exploit the potential of BIM.

The Elements of Persuasion - Richard Maxwell 2009-10-13

"Every great leader is a great storyteller," says Harvard University psychologist Howard Gardner. According to master storytellers Richard Maxwell and Robert Dickman, storytelling is a lot like running. Everyone knows how to do it, but few of us ever break the four-minute mile. What separates the great runners from the rest? The greats know not only how to hit every stride, but how every muscle fits together in that stride so that no effort is wasted and their goals are achieved. World-class runners know how to run from the inside out. World-class leaders know how to tell a story from the inside out. In *The Elements of Persuasion*, Maxwell and Dickman teach you how to tell stories too. They show you how storytelling relates to every industry and how anyone can benefit from its power. Maxwell and Dickman use their experiences—both in the entertainment industry and as corporate consultants—to deliver a formula for winning stories. All successful stories have five basic components: the passion with which the story is told, a hero who leads us through the story and allows us to see it through his or her eyes, an antagonist or obstacle that the hero must overcome, a moment of awareness that allows the hero to prevail, and the transformation in the hero and in the world that naturally results. Let's face it: leading is a lot more fun than following. Even if you never want to be a CEO or to change the world, you do want to have control over your own work and your own ideas. Ultimately, that is what the power of storytelling can give you.

Tiny Crimes - Lincoln Michel 2018-06-05

Forty very short stories that reimagine the genre of crime writing from some of today's most imaginative and thrilling writers "An intriguing take on crime/noir writing, this collection of 40 very short stories by leading and emerging literary voices—Amelia Gray, Brian Evenson, Elizabeth Hand, Carmen Maria Machado, Benjamin Percy, Laura van den Berg and more—investigates crimes both real and imagined. Despite their diminutive size, these tales promise to pack a punch." —Chicago Tribune, 1 of 25 Hot Books for Summer Tiny Crimes gathers leading and emerging literary voices to tell tales of villainy and intrigue in only a few hundred words. From the most hard-boiled of noirs to the coziest of mysteries, with diminutive double crosses, miniature murders, and crimes both real and imagined, Tiny Crimes rounds up all the usual suspects, and some unusual suspects, too. With illustrations by Wesley Allsbrook and flash fiction by Carmen Maria Machado, Benjamin Percy, Amelia Gray, Adam Sternbergh, Yuri Herrera, Julia Elliott, Elizabeth Hand, Brian Evenson, Charles Yu, Laura van den Berg, and more, Tiny Crimes scours the underbelly of modern life to expose the criminal, the illegal, and the depraved.

Official Highway Code 2015 - Great Britain: Department For Transport 2015

When did you last read yours? For over 80 years The Highway Code has been the official guide to using the roads safely and legally. It has contributed enormously to road safety and reliable road transport. However, every day, on average five people are killed and just over 60 people are seriously injured in road collisions. So it is as important as ever that all road users, including drivers, motorcyclists, cyclists, horse riders and pedestrians, should update their knowledge of The Highway Code. The Highway Code - for life, not just for learners.
