administrators, supervisors, and staff, as well as to the consultants working with them in assessing the economic development impacts of existing or proposed transportation investments. Metropolitan Planning Organization regional and local staffs might also find it informative. It is intended to help practicing planners become aware of the range of methods and analysis techniques available, organized by the different categories of agency needs, to address different types of planning, policy, and research needs. This synthesis summarizes the current state of the practice by means of a survey of transportation planning agencies in the United States, Canada, and the United Kingdom. This report provides reviews of the analysis methods used in recent project and program evaluation reports of these agencies, in addition to a bibliography of economic literature and guides.

**Maryland Aviation** - John R. Breihan 2009

Maryland is home to a number of aviation firsts: the first manned balloon ascent in the Western Hemisphere in 1784, the first aircraft carrier during the Civil War, the first airport and flight school at College Park, and the first commuter airline. The state has also been home to a number of aircraft manufacturers. These include Glenn L. Martin in Baltimore and Kreider-Reisner, later Fairchild, in Hagerstown, as well as Ercoupe, Berliner-Joyce, North American, and Curtiss-Caproni. Numerous civilian airfields and military air bases dot the Old Line State from the mountains in the west across the Chesapeake Bay to the Eastern Shore. This collection of historic photographs from a number of sources depicts Maryland's aviation pioneers, the manufacturing companies and the famous airplanes they built, and the state's airports and bases.

### **Washington Information Directory**

**2017-2018** - CQ Press, 2017-07-15

The Washington Information Directory is the

essential one-stop source for information on U.S. governmental and nongovernmental agencies and organizations. This thoroughly researched guide provides capsule descriptions that help users quickly and easily find the right person at the right organization. The Washington Information Directory offers three easy ways to find information: by name, by organization, and through detailed subject indexes. The volume is topically organized, and within the taxonomic structure the relevant organizations are listed not only with contact information but with a brief paragraph describing what the organization (whether government or nongovernmental) does related to that topic. It is focused on Washington—an organization must have an office in Washington to be listed. It also includes dozens of resource boxes on particular topics and organization charts for federal agencies and NGOs. With more than 10,000 listing sand coverage of the new presidential administration, the 2017-2018 Edition features
