[Return to Glory](#) - Matthew DeBord 2017-06-06

"This page-turning combination of business book and adventure saga tells the tale of the Ford Motor Company's" 2016 triumph at Le Mans (The New York Times, "10 New Books We Recommend This Week"). At the 2015 Detroit Auto Show, Ford unveiled a new car—and the automotive world lost its collective mind. This wasn't some new Explorer or Focus. Onto the stage rolled a carbon-fiber GT powered by a six-cylinder Ecoboost engine that churned out over 600 horsepower. It was sexy and jaw dropping, but, more than that, it was a callback to the legendary Ford GT40 Mk IIs that stuck it to Ferrari and finished 1-2-3 at Le Mans in 1966. Detroit was back, and Ford was going back to Le Mans. Matthew DeBord, a veteran auto industry journalist, tells the incredible story of Ford's resurgence in *Return to Glory*. A decade ago, CEO Alan Mulally took over the iconic company and, thanks to his "One Ford" plan, helped it weather the financial crisis without a government bailout. DeBord revisits the story of the 1960s, details the creation of the new GT, and follows the team through the racing season—from Daytona to Sebring and Laguna Seca in Monterey. Finally, DeBord joins the Ford team in Le Mans in June 2016. This fabled twenty-four-hour endurance race is designed to break cars and drivers, and it was at Le Mans, fifty years after the company's greatest triumph, that Ford's comeback was put to the ultimate test.

[When The Green Flag Drops](#) - Rod Koch 2011-01-31

Ride once again with the author, Rod Koch, and share his adventures as he struggles to gain another victory in the epic Baja 1000. His first autobiography, *7 Years from Start to Finish*, covered the early years of the Baja races from 1968-1975, up to the moment when the author became a first place winner in that incredible endurance race down and around the Baja California peninsula. When *The Green Flag Drops* continues those adventures in off-road racing through the 1980s not just in Baja, but back in the U. S. A. with events like the Parker 400, Casinos 350, Mint 400 and the Riverside Off-Road Championships. The author then makes the transition into the intensity of the Pro-Rally race scene, bringing the reader along with him as he takes on some of the best and fastest off-road and performance rally drivers in North America. The action streaks across the High Sierras from San Francisco to Reno, from Las Vegas to Laughlin, Nevada, from Carson City to Virginia City to Yerington, through the rain, mud, snow, even the heat of the Mojave Desert near Palm Springs and east of Indio, wherever the dirt mountain and desert roads of the performance and Pro-Rally circuit goes. You are there with the author in the co-driver's seat for what may be the ride of your life—if you dare.

The Daily Mirror World Cup Rally 40 - Graham Robson 2010-04-08

Lasting six weeks, and covering 16,000 miles from London to Mexico City via some of the most varying, tortuous and difficult terrain on three continents, the 1970 World Cup Rally was a unique high-speed event, attracting many serious works teams such as Ford and British Leyland. Despite the tremendous amounts of money spent choosing and developing new cars, completing months-long route surveys, and analysing every detail of diets, oxygen provision, and the number of crew members, out of an entry of more than 100 cars, only 23 cars made it to the finish. It was then, and remains now, the toughest rally of all time.
