The Age of Absolutism (eBook) - Tim McNeese

2000-09-01

"The Age of Absolutism" (1650—1789) covers the final years of the last great European monarchies and the divestiture of monarchical power through reform and revolution. Emphasis is given to the absolute reign of Louis XIV of France, and the growth of constitutional monarchy in late-17th century England. Enlightenment thinkers, such as Voltaire, Rousseau, and Locke, and their theoretical impact on the unraveling of royal power and the revolutions in France and America are discussed.

Challenging map exercises and provocative review questions encourage meaningful reflection and historical analysis. Tests and answer keys included.

York College - Tim McNeese, Bev McNeese, Christi Lones 2014

The dream of York College involved hundreds of people--its reality has touched the lives of thousands. Born in a small town on the rolling plains of Nebraska in 1890, the United Brethren Church and citizens of York established York College on an empty expanse of prairie called East Hill. Its earliest classes, offered in rented rooms above a dry goods store on the town square, established the foundations of a Christian college. The institution grew as buildings arrived with each passing decade. These brick-and-mortar symbols of the college's progress include Old Main, Hulitt Conservatory of Music, Alumni Library, and Middlebrook Hall. When a tragic fire engulfed the school's venerable Old Main in 1951, York College was pulled from the ashes as a second group of believers took the institution's reins. The Churches of Christ

determined to continue the dream, standing on the shoulders of those who had come before them.
