**The Saffron Kitchen** - Yasmin Crowther  
2007-08-28

In a powerful debut novel that moves between the crowded streets of London and the desolate mountains of Iran, Yasmin Crowther paints a stirring portrait of a family shaken by events from decades ago and worlds away. On a rainy day in London the dark secrets and troubled past of Maryam Mazar surface violently, with tragic consequences for her daughter, Sara, and her newly orphaned nephew. Maryam leaves her English husband and family and returns to the

remote Iranian village where her story began. In a quest to piece their life back together, Sara follows her mother and finally learns the terrible price Maryam once had to pay for her freedom, and of the love she left behind. Set against the breathtaking beauty of two very different places, this stunning family drama transcends culture and is, at its core, a rich and haunting narrative about mothers and daughters.

Accounting for Capitalism - Michael Zakim 2018-04-24

The clerk attended his desk and counter at the intersection of two great themes of modern historical experience: the development of a market economy and of a society governed from below. Who better illustrates the daily practice and production of this modernity than someone of no particular account assigned with overseeing all the new buying and selling? In *Accounting for Capitalism*, Michael Zakim has written their story, a social history of capital that seeks to explain how the “bottom line” became a synonym for truth in an age shorn of absolutes, grafted onto our very sense of reason and trust. This is a big story, told through an ostensibly marginal event: the birth of a class of “merchant clerks” in the United States in the middle of the

nineteenth century. The personal trajectory of these young men from farm to metropolis, homestead to boarding house, and, most significantly, from growing things to selling them exemplified the enormous social effort required to domesticate the profit motive and turn it into the practical foundation of civic life. As Zakim reveals in his highly original study, there was nothing natural or preordained about the stunning ascendance of this capitalism and its radical transformation of the relationship between "Man and Mammon."
