*Schmidt - Theyer* - Walther Killy 2011-11-30

The "Dictionary of German National Biography" is unique, complete and comprehensive with biographies of 60,000 people from the German-speaking world. It covers not only individuals from Germany but also from Austria, Switzerland and other countries where German is or used to be spoken. Coverage stretches all the way from the time of Charlemagne to the present day and includes lesser-known as well as world-famous Germans. In order to ensure that entries were as objective as possible, only individuals whose life and works have come to

an end were included.

**The Hibbert Journal** - Lawrence Pearsall Jacks 1903

A quarterly review of religion, theology, and philosophy.

**Unifying Humanity Spiritually** - Rudolf Steiner 2014-09-04

Fundamentally, all of spiritual science ultimately aims to understand human beings in their essence, in their tasks and endeavours - in their necessary endeavours in the course of development.' - Rudolf Steiner. In the midst of the division and destruction of the Great War, Rudolf Steiner speaks of the spiritual unification of all human beings. Rather than preaching a traditional morality, however, he states esoteric facts as he perceives them, based on spiritual-scientific research. These observations relate to the powerful universal impulse of Christ - a healing spiritual force that works through the various nations and races, irrespective of creed or colour - as a source of potential unity. Rudolf

Steiner describes this impulse as the central core of human evolution. It allows for a conscious and newly-acquired connection between all human beings, in the context of the continuing diversification and fragmentation of the human race. The central motif in these lectures relates to the appearance of Christ on earth - knowledge of his historical incarnation, as well as Christ's manifestation in the present and future periods of human development. Rudolf Steiner creates an arc from the pre-Christian mysteries through Gnosticism and the older studies of the early Church Fathers, to Scholasticism and neo-Scholasticism. After ancient faculties of clairvoyance had begun to fade, he explains, human beings could no longer see beyond the world of outer appearances, and direct perceptions of Christ were therefore no longer possible. And so the question arose as to how limitations on human knowledge could be overcome - a question which remains pertinent in our time. Steiner asserts that only a

transformation of thinking, enabling a living and conscious inner conceptual life, can allow for a true understanding of the relationship between the earthly Jesus and the cosmic Christ. Such living thinking leads in turn to direct experience. Other topics in this volume include the birth date of the 'two Jesus children'; the wisdom of Gnostic teachings; the provenance of the Cross; the mysteries of the Christmas festival; insights into ancient Christmas plays, and reflections on individual consciousness of karma in the future. *The Gnostic World* - Garry W. Trompf  
2018-10-03

The Gnostic World is an outstanding guide to Gnosticism, written by a distinguished international team of experts to explore Gnostic movements from the distant past until today. These themes are examined across sixty-seven chapters in a variety of contexts, from the ancient pre-Christian to the contemporary. The

volume considers the intersection of Gnosticism with Jewish, Christian, Islamic and Indic practices and beliefs, and also with new religious movements, such as Theosophy, Scientology, Western Sufism, and the Nation of Islam. This comprehensive handbook will be an invaluable resource for religious studies students, scholars, and researchers of Gnostic doctrine and history.

students of Yoga and meditation. Crowley mastered the practices of Yoga during his studies in the East and writes about them lucidly, without recourse to the imprecise language of mysticism. Beginning with a discussion of the universal origin of world religions in mystical revelation, 'Magick' then explores the theory and practice of mysticism and magick in the light of modern scientific thought.

**Arborele gnozei** - Ioan Petru Culianu 2016-06-14

Lucrarea de față este ultima pe care Ioan Petru Culianu a pregătit-o pentru tipar (a apărut postum, în 1992) și avea să devină nu doar "o versiune integral revizuită" a Gnozelor dualiste..., ci o carte nouă și revoluționară, în care apare conturată metoda lui numită morfodinamica. Analizînd un material istoric uriaș, acela al curențelor religioase dualiste, de la gnosticism la catharism, Culianu descoperă postulatele comune ale doctrinelor lor și definește aceste curente drept "obiecte ideale". Teoretic, în lumina morfodinamicii, orice alcătuire a minții umane este predictibilă,

inclusiv mecanismele de funcționare ale minții înseși. Temporalitatea și jocurile de putere ale istoriei aparțin unor dimensiuni diferite ale realității - dar jocurile de putere pot interveni oricând brutal, tragic, în jocurile minții. Din cuprins: Dualismul: o cronologie • Mituri despre gnosticism: o introducere • Mitul gnostic 1: Înțelepciunea căzută • Mitul gnostic 2: Demiurgul ignorant • Abolirea Legii și a Tatălui real: Marcion din Sinope • Mitul maniheist • Paulicianismul sau marcionismul popular • Bogomilismul: un pseudodualism • Cele două religii ale catharilor • Arborele Gnozei • Nihilismul modern

Die Archetypentheorie von C.G. Jung - Heinrich H. Balmer 2013-03-12

Es rallt bei der Lektüre immer wieder auf, daß die Archetypen von vielen Autoren - beileibe nicht nur von Jung - sozusagen dogmatisch

abgehandelt werden. Ich habe mich nun der Mühsal unterzogen, JUNGS ganzes Werk durchzu arbeiten, um seine Archetypen-Theorie im Systemzusammenhang darstellen zu können. Aus dieser Arbeit entsprang für mich einerseits eine Kritik an JUNG, wie sie in ähnlicher Form meines Wissens noch nicht vorgebracht worden ist. Andererseits gewährte ich plötzlich Zusammenhänge zwischen JUNGS Werk und seinem Leben, die auch für mich selbst überraschend waren. Meine Arbeit wurde durch Diskussionen mit den Herren Prof. HANS KUNZ, Prof. HANSJORG A. SALMONY und Dr. med. HEINRICH ZWEIFEL sehr gefördert. Zu Dank verpflichtet bin ich auch Herrn HEUBERGER von der Universitätsbibliothek Basel, der mich bei der Beschaffung des Schrifttums unterstützte. Fraulein KARIN SCHWARZ und meine Frau haben mich bei der Herstellung der Manuskripte von allen Schreibarbeiten entlastet, wofür ihnen besonderer Dank gebührt. Reinach, 1. Dezember 1971 HEINRICH

*Reforming the Moral Subject* - Tracie Matysik  
2018-07-05

*Reforming the Moral Subject* explores a movement known as "ethics reform" that flourished in Central Europe between 1890 and 1930. Tracie Matysik examines the works of German-speaking intellectuals and activists-moral philosophers, sociologists, legal theorists, pedagogy specialists, psychoanalysts, sexual liberationists, and others-who discovered in the language of ethics a means to revitalize the public sphere. Ethics reformers used the academic field of moral philosophy to contest public- and state-sponsored rhetoric that they thought equated "morality" with national loyalty, religious tradition, and repressive sexual mores. They founded organizations and periodicals, circulated brochures, and hosted lectures and conferences, all aimed at rethinking ethics for a secular modernity. Arising in a context sharply influenced by materialism, Darwinism, and the advent of sexology, ethics debates gradually focused not surprisingly on the role of sexuality in definitions of ethics and of the moral subject.

Intellectuals and activists came to agree that sexuality was central to the formation of the moral subject. Some viewed the moral subject as that individual who had learned to suppress sexual drives, while others saw sexual drives and sexual autonomy as the source of moral energy and sentiment. The association of sexuality with a wide and variegated discussion of ethics made the sexualized moral subject an open concept that could not be fully regulated, confined, or conflated with national identities. Matysik's compelling intellectual and cultural history of ethics and moral subjectivity reframes the nature of German liberalism and intellectual activism from the end of the nineteenth century until the interwar period.
