Finding the Lost Battalion: Beyond the Rumors, Myths and Legends of America's Famous WW1 Epic - Hardcover - Robert Laplander 2017-01-13
Since its release in 2006, 'Finding the Lost Battalion' by Robert J. Laplander has become the

benchmark work against which all things Lost Battalion related have been measured. Now, in this updated 3rd edition released to coincide with the centennial of America's entry into WW1, Mr. Laplander again takes us to the Charlevaux Ravine to delve deeper into the story than ever before! Meticulously chronicling what would become arguably the most famous event of America's part in the war, we find the truths behind the legend. Spanning twenty years of research and hundreds of sources (most never before seen), the reader is led through the Argonne Forest during September and October, 1918 virtually hour by hour. The result is the single most factual accounting of the Lost Battalion story and their leader, Charles W. Whittlesey, to date. Told in an entertaining, fast moving style, the book has become a favorite the world over! With new Forward by Major-General William Terpeluk, US Army (Ret).

France's cultural and historical legacies are numerous and diverse. It has long played a dominant role on the world stage, and as one of the largest countries of the European Union, its global influence shows no signs of dying down. But despite its cultural, economic, governmental, and historical achievements, France has experienced trials and tribulations, perhaps most memorably during the French Revolution, but throughout history as well. This comprehensive volume surveys France's assorted regions, its renowned traditions, the individuals and peoples that have led it to greatness, and the struggles and successes of its past and present.

Retour d'Ulysse de Troie vers Ithaque - René Peyrous 2015-10-09

Texte majeur, voire fondateur, de la littérature occidentale, qui a suscité tellement de vocations

Downloaded from
omahafoodtruckassociation.org on by
guest

d'écrivain et permis à nombre d'entre nous de rêver, L'Odyssée est encore à l'origine d'une immense exégèse. Exerçant son pouvoir jusqu'à aujourd'hui, elle a même incité certains à reconstituer – par la projection ou dans la réalité – le parcours chaotique de celui qui mit plusieurs années à retrouver sa patrie. Néanmoins, entre les variations dans les traductions, la nature initialement orale du texte et les approches irréconciliables, les avis divergent par trop. Mais dans le même temps, c'est un espace de remise à plat et de réévaluation des données scientifiques, archéologiques ou encore linguistiques qui s'ouvre à René Peyrous pour élaborer et soutenir sa propre vision du voyage odysseén. À l'instar de l'oeuvre littéraire à partir de laquelle il travaille, l'ouvrage de René Peyrous, mis à jour et enrichi dans cette nouvelle édition, se fait plus que jamais colossal: impressionnant d'érudition, nourri par un appareil critique riche et éclairant, enthousiasmant... Abondamment documenté,

convoquant à lui le texte en ses versions françaises, mais aussi les sciences de la mer, la géographie et l'histoire, ce "Retour d'Ulysse de Troie vers Ithaque" rapproche un peu plus le mythique du possible!
