Franco-America in the Making - Jonathan K. Gosnell 2018-07

Every June the city of Lowell, Massachusetts, celebrates Franco-American Day, raising the Franco-American flag and hosting events designed to commemorate French culture in the

Americas. Though there are twenty million French speakers and people of French or francophone descent in North America, making them the fifth-largest ethnic group in the United States, their cultural legacy has remained nearly invisible. Events like Franco-American Day,

however, attest to French ethnic permanence on the American topography. In *Franco-America in the Making*, Jonathan K. Gosnell examines the manifestation and persistence of hybrid Franco-American literary, musical, culinary, and media cultures in North America, especially New England and southern Louisiana. To shed light on the French cultural legacy in North America long after the formal end of the French empire in the mid-eighteenth century, Gosnell seeks out hidden French or "Franco" identities and sites of memory in the United States and Canada that quietly proclaim an intercontinental French presence, examining institutions of higher learning, literature, folklore, newspapers, women's organizations, and churches. This study situates Franco-American cultures within the new and evolving field of postcolonial Francophone studies by exploring the story of the peoples and ideas contributing to the evolution and articulation of a Franco-American cultural identity in the New World. Gosnell asks

what it means to be French, not simply in America but of America.

Operative Obstetrics - John Patrick O'Grady
2008-08-04

The ten years since the first edition of *Operative Obstetrics* have witnessed considerable changes in obstetric practice. There has been a continued increase in the rate of cesarean delivery, and the use of minimally-invasive surgery has rapidly gained popularity. Social changes affecting practice have also been significant, prompting a reevaluation of the appropriateness of certain types of operations during pregnancy. This fully-

updated edition includes chapters on cesarean delivery, birth injury, ectopic pregnancy, and common surgical complications. It features a new discussion of surgical procedures performed by non-physicians and an updated treatment of fetal surgery. The text also considers complicated and controversial subjects such as cervical insufficiency, pregnancy termination, instrumental delivery, and shoulder dystocia. Each of the four sections includes an in-depth analysis of the important ethical and legal issues underlying practice for the area in question. An expanded appendix reviews legal concepts pertinent to practitioners in the field of obstetrics.

Creoles in Education - Bettina Migge 2010

This volume offers a first survey of projects from around the world that seek to implement Creole languages in education. In contrast to previous works, this volume takes a holistic approach. Chapters discuss the sociolinguistic, educational and ideological context of projects, policy

developments and project implementation, development and evaluation. It compares different kinds of educational activities focusing on Creoles and discusses a list of procedures that are necessary for successfully developing, evaluating and reforming educational activities that aim to integrate Creole languages in a viable and sustainable manner into formal education. The chapters are written by practitioners and academics involved in educational projects. They serve as a resource for practitioners, academics and persons wishing to devise or adapt educational initiatives. It is suitable for use in upper level undergraduate and post-graduate modules dealing with language and education with a focus on lesser used languages.

The Carrot Seed 60th Anniversary Edition -

Ruth Krauss 1989-03-24

When a little boy plants a carrot seed, everyone tells him it won't grow. But when you are very young, there are some things that you just know, and the little boy knows that one day a carrot will come up. So he waters his seed, and pulls the weeds, and he waits ... First published in 1945 and never out of print, this timeless combination of Ruth Krauss's simple text and Crockett Johnson's eloquent illustrations creates a triumphant and deeply satisfying story for readers of all ages.

Variation and Gradience in Phonetics and Phonology - Frank Kügler 2009-08-17

This book provides an overview of current issues in variation and gradience in phonetics, phonology and sociolinguistics. It contributes to the growing interest in gradience and variation in theoretical phonology by combining research on the factors underlying variability and systematic quantitative results with theoretical phonological considerations. Variation is inherent to language, and one of the aims of phonological theory is to describe and explain the mechanisms underlying variation at every level of phonological representation. Variation below the segment concerns articulatory, acoustic and perceptual cues that contribute to the formation of natural classes of sounds. At the segmental level there are grammatical differences in the production and perception of contextual variation of segments and in the syntagmatic constraints on the combination of segments. At the suprasegmental level the

mapping of tones to grammatical functions and vice versa is discussed. Further aspects addressed in this book are factors outside of language: Variation that arises as a result of a particular dialect or of belonging to a certain age group, or variation that is the consequence of language change. Gradience and variation have always been a central issue in phonetic and sociolinguistic research. Gradience introduces variation in phonology as well. If a phonetic entity can be pronounced in different ways, depending on the environment, prosodic factors or dialectal influences, this 'gradience' may introduce 'variation', which we understand as a stable state of grammar.

Le Quartier du Musée - Michelle Guitard
2018-03-14

Le Quartier du Musée, situé en face du Musée canadien de l'histoire dans le secteur Hull de la Ville de Gatineau, est le lieu d'origine identitaire des francophones de l'Outaouais. Première paroisse catholique française de Hull avec ses bâtiments institutionnels, résidentiels et commerciaux, le Quartier du Musée regroupe un ensemble de références socioéconomiques et historiques, plus particulièrement pour la société catholique et canadienne-française de la région. Un des rares témoins de la Ville de Hull d'avant 1900, son patrimoine bâti ancien reflète l'adaptation des divers courants architecturaux de la région de la capitale nationale du Canada : 53 des bâtiments de ce quartier datent d'avant 1910, alors que 44 précèdent l'incendie de 1900. Les brèves histoires des propriétaires et occupants révèlent l'évolution de l'histoire sociale, économique et culturelle de l'Outaouais. Les activités socioéconomiques des habitants, propriétaires et locataires permettent de mieux connaître les nombreuses personnalités qui ont

joué un rôle de grande importance dans l'histoire de la ville et de la région. Ce livre est publié en français. - In Gatineau, the Quartier du Musée heritage neighbourhood regularly makes the news as it has been earmarked for large-scale development that would modernize the downtown area. Discover the 65 early-20th century buildings and their history. The Quartier du Musée is located in front of the Canadian Museum of History in the Hull sector of the City of Gatineau. It is at the heart of the the Outaouais Francophones' identity. As the founding French-Catholic parish, with its institutional, residential and commercial buildings, the Quartier du Musée represents an ensemble of historical and socio-economical references, in particular for the Catholic and French-Canadian communities of the area. It is one of the rare neighborhoods still bearing witness to the City of Hull as it stood prior to 1900; as such, its built heritage reflects the way various architectural styles were adapted in the

National Capital area: 53 of the buildings were built prior to 1910, and 44 were built prior to the Great Fire of 1900. The stories of the owners and occupants reveal the evolution of the social, economic and cultural history of the Outaouais. The socio-economic activities of the buildings' inhabitants—whether owners or tenants— shed light on the key individuals who played an important role in the history of the city and of the greater area. This book is published in French.

Sustainable Community Health - Elias Mpofu
2021-01-21

Applying a trans-disciplinary approach, this book provides a comprehensive, research-based guide to understanding, implementing, and strengthening sustainable community health in

diverse international settings. By examining the interdependence of environmental, economic, public health, community wellbeing and development factors, the authors address the systemic factors impacting health disparities, inequality and social justice issues. The book analyzes strategies based on a partnership view of health, in which communities determine their health and wellness working alongside local, state and federal health agencies. Crucially, it demonstrates that communities are themselves health systems and their wellbeing capabilities affect the health of individuals and the collective alike. It identifies health indicators and tools that communities and policy makers can utilize to sustain truly inclusive health systems. This book offers a unique resource for researchers and practitioners working across psychology, mental health, rehabilitation, public health, epidemiology, social policy, healthcare and allied health.

A Reader on the Sanskrit Grammarians - J. F. Staal 2003-01-01

The achievements of Pānini and the Indian grammarians, beginning nearly 2500 years ago, have never been fully appreciated by Western scholars—partly because of the great technical difficulties presented by such an inquiry, and partly because relevant tutorial articles have been confined to obscure and inaccessible publications. This book makes available to linguists and Sanskritists a collection of the most important articles on the Sanskrit grammarians, and provides a connected historical outline of their activities. It covers studies and fragments ranging from early 7th-century accounts of the grammarians—recorded by Buddhist pilgrims from China and Tibet, by Muslim travelers from the Near East, and by Christian missionaries—to some of the best articles that have appeared

during the last century and a half. Chapters in the book cover the foundation of Sanskrit studies in the West laid by British scholars working in India and including the detailed and accurate information provided by Henry Thomas Colebrooke; the linguistic evaluations of Pānini by von Schlegel and von Humboldt; the work of Bhandarkar and of Kielhorn; William Dwight Whitney's low evaluation of the "native" grammarians; and the philological work of modern Western, Indian, and Japanese scholars. The editor observes that materials in the Reader reveal problems tackled by the Sanskrit grammarians which closely parallel developments in contemporary linguistics. He has provided historical and linguistic commentary and bibliographic data in the introductions and notes that accompany each selection. Articles are in their original English, German, and French. Texts or passages in Chinese, Tibetan, Arabic, Sanskrit, Latin, and Greek have, for the most part, been translated

into English, and all Sanskrit passages have been translated into the Latin alphabet. *Dictionary of Canadian Biography* - Frances G. Halpenny 1966

Movies on Our Minds - James E. Cutting
2021-08-10

This book traces the development of popular cinema from its inception to the present day to understand why humankind has expanded its viewing of popular movies over the last century. Drawing from his extensive work as a psychologist studying artistic canons, James E. Cutting presents hundreds of films across a wide range of genres and eras, considers the structure of frame content, shots, scenes, and larger narrational elements defined by color, brightness, motion, clutter, and range of other variables. He examines the effects of camera lenses, image layout, transitions, and historical functions to classify different kinds of shots. He explains the arcs of scenes, the larger structure of sequences, and the scene- and sequence-like units that have become increasingly prevalent in recent years. The book then breaks movies into larger, roughly half-hour parts and espouses the psychological evidence behind each device's

intended effect, ultimately exploring the rhythms of whole movies, the flow of physical changes, and the cinematic polyrhythms that have come to match aspects those in the human body. Along the way, the book considers cultural and technological evolutions that have contributed to shifts in viewers' engagement by sustaining attention, promoting understanding of the narrative, heightening emotional commitment, and fostering felt presence in the story. *Movies on Our Minds* asks critical questions about how our emotional processes and the way our experiences of movies have changed over the course of cinematic history, for a cutting-edge look at what makes popular movies enjoyable. *Grand Dictionnaire Universel [du XIXe Siecle] Francais: A-Z 1805-76* - Pierre Larousse 1870

Promoting School Readiness and Early Learning
- Michel Boivin 2013-09-26
Grounded in cutting-edge developmental research, this book examines what school

readiness entails and how it can be improved. Compelling longitudinal findings are presented on the benefits of early intervention for preschoolers at risk due to poverty and other factors. The volume identifies the cognitive, language, behavioral, motor, and socioemotional skills that enable young children to function successfully in school contexts. It explores specific ways in which school- and family-based interventions--including programs that target reading and language, math, self-regulation, and social-emotional development--can contribute to school readiness. The book also addresses challenges in the large-scale dissemination of evidence-based practices.

Audrey Foster 1998

This single-volume resource offers comprehensive coverage of women directors and their films as well as producers, writers and production artists. General information on the filmmaker or film is followed, where applicable, by more detailed biography, filmography, comprehensive credits, production information, awards and bibliography. The core of the entry consists of a signed, 800- to 1,000-word critical essay written by a film critic or scholar.

Following introductory essays on the evolution and status of women filmmakers, 190 alphabetically arranged entries discuss women directors, producers, animators, art directors, editors, writers, and costume designers. Each entry contains a brief biography, a complete filmography, a selected bibliography of works on and by the entrant, and an expository essay by a specialist in the field. The remaining entries (approximately 60) concern films in which women filmmakers have had a major role. They

include production information, lists of cast and crew, a selected bibliography of works about the film, and an essay. Contains many b & w portraits and stills.

The Cambridge Handbook of African Linguistics - H. Ekkehard Wolff 2021-10-28

This book provides an in-depth and comprehensive state-of-the-art study of 'African languages' and 'language in Africa' since its beginnings as a 'colonial science' at the turn of the twentieth century in Europe. Compiled by 56 internationally renowned scholars, this ground breaking study looks at past and current research on 'African languages' and 'language in Africa' under the impact of paradigmatic changes from 'colonial' to 'postcolonial' perspectives. It addresses current trends in the study of the role and functions of language, African and other, in pre- and postcolonial African societies. Highlighting the central role that the 'language factor' plays in postcolonial transformation processes of sociocultural
