The Book Nobody Read - Owen Gingerich 2009-05-26

After three decades of investigation, and after traveling hundreds of thousands of miles across the globe--from Melbourne to Moscow, Boston to Beijing--Gingerich has written an utterly original book built on his experience and the remarkable insights gleaned from examining some 600 copies of De revolutionibus. He found the books owned and annotated by Galileo, Kepler and many other lesser-known astronomers whom he brings back to life, which illuminate the long, reluctant process of accepting the Sun-centered cosmos and highlight the historic tensions between science and the Catholic Church. He traced the ownership of individual copies through the hands of saints, heretics, scalawags, and bibliomaniacs. He was called as the expert witness in the theft of one copy, witnessed the dramatic auction of another, and proves conclusively that De revolutionibus was as inspirational as it was revolutionary. Part biography of a book, part scientific exploration, part bibliographic detective story, *The Book Nobody Read* recolors the history of cosmology and offers new appreciation of the enduring power of an extraordinary book and its ideas.

Subtitled *The Pillow Book of Cordelia Kenn* this is the story of Cordelia from the time she is 15 until she is 20. She is pregnant and plans to give this account to her daughter on her 16th birthday so that they can share their youth together. She chooses the old and famous Japanese book, 'The Pillow Book' by Sei Shonagon, as a model in order to include all kinds of things she has already written as well as the episodes and thoughts she has now as she compiles her book. She tells of her mother (who died when Cordelia was 5) of her father and her aunt Doris (who marry when she is 16), of her love for William Blacklin, the boy with whom she chooses to have her first sex - and with whom she falls deeply in love. She writes about Julie Martin her teacher who helps her spiritually, describes her love affair with an older married man and her terrifying sexual experience with an unbalanced young man who is obsessed with her. The book includes thoughts on being a woman, on poetry, music, reading and writing, on being pregnant and finally of her marriage to William. *This Is All* is an anthology, written in six 'books' of Cordelia's adolescent life, by turns funny, poignant, sad, exciting, fascinating ironic and truthful about topics that parents often do not tell their children. It is a richly entertaining and challenging read.

Publisher's description: In this original book, B. Kumaravadivelu presents a macrostrategic framework designed to help both beginning and experienced teachers develop a systematic, coherent, and personal theory of practice. His book provides the tools a teacher needs in order to self-observe, self-analyze, and self-evaluate his or her own teaching acts. The framework consists of ten macrostrategies based on current theoretical, empirical, and experiential knowledge of second language and foreign language teaching. With checklists, surveys, projects, and reflective tasks to encourage critical thinking, the book is both practical and accessible. Teachers and future teachers, researchers, and teacher educators will find the volume indispensable.

Fatty Legs - Christy Jordan-Fenton 2010-09-01

Eight-year-old Margaret Pokiak has set her sights on learning to read, even though it means leaving her village in the high Arctic. Faced with unceasing pressure, her father finally agrees to let her make the five-day journey to attend school, but he warns Margaret of the terrors of residential schools. At school Margaret soon encounters the Raven, a black-cloaked nun with a hooked nose and bony fingers that resemble claws. She immediately dislikes the strong-willed young Margaret. Intending to humiliate her, the heartless Raven gives gray stockings to all the girls — all except Margaret, who gets red ones. In an instant Margaret is the laughingstock of the entire school. In the face of such cruelty, Margaret refuses to be intimidated and bravely gets rid of the stockings. Although a sympathetic nun stands up for Margaret, in the end it is this brave young girl who gives the Raven a lesson in the power of human dignity.

Collectors and Curiosities - Krzysztof Pomian 1991-01-15

This outstanding and highly original study examines the history of collecting in early modern Europe, and describes the myriad treasures, from paintings and antiques to religious relics, that found their way into the private collections and public museums of the time. The author looks at the types of people who formed collections, from the harmless eccentrics to the wily speculators, and examines what they collected and why. He develops a historical anthropology of collecting and sheds new light upon the genesis of the modern museum. Pomian charts the changes in fashion which characterised the world of collecting, arguing that such shifts can be seen as a sign of wider and more profound changes in mentality and can be analysed in terms of a conflict between aesthetic and historical sensibilities.
