Jews, Race, and Environment - Maurice Fishberg
2017-07-05

Originally published in 1911, *Jews, Race, and Environment* presents the results of anthropological, demographic, pathological, and sociological investigations of people who identify themselves as Jews. At the time Fishberg wrote this book, there was widespread interest in the idea of Jews as a race and in the ethnic relationship of Jews to each other. The early twentieth century was a period of heavy Eastern European immigration to the United States.

Many questioned if it were possible for Jews to assimilate into American culture, particularly into what was termed the body politic of Anglo-Saxon communities. Fishberg addresses these questions in this classic study.

A Nervous State - Nancy Rose Hunt 2015-12-18
In *A Nervous State*, Nancy Rose Hunt considers the afterlives of violence and harm in King Leopold's Congo Free State. Discarding catastrophe as narrative form, she instead brings alive a history of colonial nervousness. This mood suffused medical investigations, security operations, and vernacular healing

movements. With a heuristic of two colonial states—one "nervous," one biopolitical—the analysis alternates between medical research into birthrates, gonorrhea, and childlessness and the securitization of subaltern "therapeutic insurgencies." By the time of Belgian Congo's famed postwar developmentalist schemes, a shining infertility clinic stood near a bleak penal colony, both sited where a notorious Leopoldian rubber company once enabled rape and mutilation. Hunt's history bursts with layers of perceptibility and song, conveying everyday surfaces and daydreams of subalterns and colonials alike. Congolese endured and evaded forced labor and medical and security screening. Quick-witted, they stirred unease through healing, wonder, memory, and dance. This capacious medical history sheds light on Congolese sexual and musical economies, on practices of distraction, urbanity, and hedonism. Drawing on theoretical concepts from Georges Canguilhem, Georges Balandier, and Gaston

Bachelard, Hunt provides a bold new framework for teasing out the complexities of colonial history.
