*Object Fantasies* - Philippe Cordez 2018-09-10  
In the modern lexicon, 'object' refers to an entity that is materially constituted, spatially defined,

and functionally determined. In contrast, the Latin word 'fantasia' has, since antiquity, referred to an apparition or the ability to

imagine something that could be equally an object, an image, or a concept. This tension prompts further inquiry into the interrelations and differences between the experience of tangible objects (their perception and handling) and the creation of new objects (their conception and formation). What correlations exist between object fantasies, the self-consciousness of subjects, and the concrete and imagined conditions of human beings' social lives? By addressing this question, this interdisciplinary book opens new perspectives in the field of object studies.

**La Sorcière** - Jules Michelet 1863

*Sans-Culottes* - Michael Sonenscher 2018-06-12

This is a bold new history of the sans-culottes and the part they played in the French Revolution. It tells for the first time the real story of the name now usually associated with urban violence and popular politics during the revolutionary period. By doing so, it also shows how the politics and economics of the revolution can be combined to form a genuinely historical narrative of its content and course. To explain how an early eighteenth-century salon society joke about breeches and urbanity was

transformed into a republican emblem, Sans-Culottes examines contemporary debates about Ciceronian, Cynic, and Cartesian moral philosophy, as well as subjects ranging from music and the origins of government to property and the nature of the human soul. By piecing together this now forgotten story, Michael Sonenscher opens up new perspectives on the Enlightenment, eighteenth-century moral and political philosophy, the thought of Jean-Jacques Rousseau, and the political history of the French Revolution itself.

**The Work of Fire** - Maurice Blanchot 1995  
Maurice Blanchot is arguably the key figure after Sartre in exploring the relation between literature and philosophy. Blanchot developed a distinctive, limpid form of essay writing; these essays, in form and substance, left their imprint on the work of the most influential French theorists. The writings of Barthes, Foucault, and Derrida are unimaginable without Blanchot. Published in French in 1949, *The Work of Fire* is

a collection of twenty-two essays originally published in literary journals. Certain themes recur repeatedly: the relation of literature and language to death; the significance of repetition; the historical, personal, and social function of literature; and simply the question what is at stake in the fact that something such as art or literature exists? Among the authors discussed are Kafka, Mallarmé, Hölderlin, Baudelaire, Rimbaud, Sartre, Gide, Pascal, Valéry, Hemingway, and Henry Miller.

worldview. Villoldo shares some of their time-honored teachings that emphasize the sacred dream: an ephemeral, yet powerful vision that has the potential to guide us to our purpose and show us our place in the universe. The practices in this book will help you forge a sacred dream for yourself. They will help you craft a destiny infused with courage, and driven by vision. You'll be invited to follow the footsteps of the luminous warrior and learn how to break out of the three nightmares surrounding love, death, and safety that have held you captive, and transform them into the experience of timeless freedom, known as the Primordial Light. This creative power exercised by shamans will lead you to create beauty and healing, and dream a new world into being. When you transform these dreams and accept that life is ever changing, that your mortality is a given and that no one except you can free you from fear—the chaos in your life turns to order, and beauty prevails. “Wake up from the slumber you are living in,

and dream with your eyes open so that all the possibilities of the future are available to you.” *Creativity and Innovation in the Reign of Hatshepsut* - José M. Galán 2014

**Spatial and Temporal Dimensions for Legal History** - Massimo Meccarelli 2016-07-01

<http://dx.doi.org/10.12946/gplh6><http://www.epubli.de/shop/buch/53894>"The spatiotemporal conjunction is a fundamental aspect of the juridical reflection on the historicity of law. Despite the fact that it seems to represent an issue directly connected with the question of where legal history is heading today, it still has

not been the object of a focused inquiry. Against this background, the book's proposal consists in rethinking key confluences related to this problem in order to provide coordinates for a collective understanding and dialogue. The aim of this volume, however, is not to offer abstract methodological considerations, but rather to rely both on concrete studies, out of which a reflection on this conjunction emerges, as well as on the reconstruction of certain research lines featuring a spatiotemporal component. This analytical approach makes a contribution by providing some suggestions for the employment of space and time as coordinates for legal history. Indeed, contrary to those historiographical attitudes reflecting a monistic conception of space and time (as well as a Eurocentric approach), the book emphasises the need for a delocalized global perspective. In general terms, the essays collected in this book intend to take into account the multiplicity of the spatiotemporal confines, the flexibility of those

instruments that serve to create chronologies and scenarios, as well as certain processes of adaptation of law to different times and into different spaces. The spatiotemporal dynamism enables historians not only to detect new perspectives and dimensions in foregone themes, but also to achieve new and compelling interpretations of legal history. As far as the relationship between space and law is concerned, the book analyses experiences in which space operates as a determining factor of law, e.g. in terms of a field of action for law. Moreover, it outlines the attempted scales of spatiality in order to develop legal historical research. With reference to the connection between time and law, the volume sketches the possibility of considering the factor of time, not just as a descriptive tool, but as an ascriptive moment (quasi an inner feature) of a legal problem, thus making it possible to appreciate the synchronic aspects of the 'juridical experience'. As a whole, the volume aims to

present spatiotemporality as a challenge for legal history. Indeed, reassessing the value of the spatiotemporal coordinates for legal history implies thinking through both the thematic and methodological boundaries of the discipline."

The Unity of Plutarch's Work - Anastasios Nikolaidis 2008-12-10

This volume of collected essays explores the premise that Plutarch's work, notwithstanding

its amazing thematic multifariousness, constantly pivots on certain ideological pillars which secure its unity and coherence. So, unlike other similar books which, more or less, concentrate on either the Lives or the Moralia or on some particular aspect(s) of Plutarch's oeuvre, the articles of the present volume observe Plutarch at work in both Lives and Moralia, thus bringing forward and illustrating the inner unity of his varied literary production. The subject-matter of the volume is uncommonly wide-ranging and the studies collected here inquire into many important issues of Plutarchean scholarship: the conditions under which Plutarch's writings were separated into two distinct corpora, his methods of work and the various authorial techniques employed, the interplay between Lives and Moralia, Plutarch and politics, Plutarch and philosophy, literary aspects of Plutarch's oeuvre, Plutarch on women, Plutarch in his epistemological and socio-historical context. In sum, this book brings

Plutarchean scholarship to date by revisiting and discussing older and recent problematization concerning Plutarch, in an attempt to further illuminate his personality and work.

Twelve Years a Slave - Solomon Northup

**Travel and Ethnology in the Renaissance** -

Joan-Pau Rubiés 2002-09-05

This book, first published in 2000, offers a wide-ranging and ambitious analysis of how European travellers in India developed their perceptions of ethnic, political and religious diversity over three hundred years. It analyses the growth of

novel historical and philosophical concerns, from the early and rare examples of medieval travellers such as Marco Polo, through to the more sophisticated narratives of seventeenth-century observers - religious writers such as Jesuit missionaries, or independent antiquarians such as Pietro della Valle. The book's approach combines the detailed contextual analysis of individual narratives with an original long-term interpretation of the role of cross-cultural encounters in the European Renaissance. An extremely wide range of European sources is discussed, including the often neglected but extremely important Iberian and Italian sources. However, the book also discusses a number of non-European sources, Muslim and Hindu, thereby challenging simplistic interpretations of western 'orientalism'.

that seems increasingly familiar, putatively marked by a spreading sameness, anthropology must re-envision itself. The emergence of diverse national traditions in the discipline offers one intriguing path. This volume, the product of a novel encounter of American anthropologists of France and French anthropologists of the United States, explores the possibilities of that path through an experiment in the reciprocal production of knowledge. Simultaneously native subjects, foreign experts, and colleagues, these scholars offer novel insights into each other's societies, juxtaposing glimpses of ourselves and a familiar "others" to productively unsettle and enrich our understanding of both.

**Dans l'existence de cette vie-là** - Caroline Hoctan 2016-08-24

Et si notre existence n'était pas déterminée par nos origines sociales ou familiales mais par l'influence des livres ? Et si le sens de notre existence n'était pas le fruit du hasard et de la contingence mais celui de la cosmogonie et de l'organisation des étoiles ? Tout quitter, partir au bout du monde, est-ce mourir un peu ou bien, au contraire, vivre plus intensément ? Existe-t-il un algorithme commun entre l'économie et la littérature ? La crise financière a-t-elle à voir avec la crise du roman ? Nos secrets de famille entretiennent-ils un rapport avec le secret de la littérature ? Qu'est-ce que les personnages fictionnels nous disent de la réalité ? Commence alors pour le personnage - dont on ignore s'il est un homme ou une femme - une quête obstinée. Muni seulement d'une liasse de billets verts et d'une carte de visite portant un nom inconnu et une adresse, celui-ci entreprend un voyage de l'autre côté de l'océan, dans ce pays où l'on dit volontiers que tout est possible, afin d'y trouver des réponses. Dans cet ambitieux deuxième roman, Caroline Hoctan interroge les liens cachés qu'entretiennent la littérature et l'accomplissement de soi dans un monde toujours plus déchiré par la vitesse du métal et des flux.

Savoirs et pouvoirs thérapeutiques kanaks -  
Christine Salomon 2000

Quelle perception des faits de maladie les gens de la Grande Terre ont-ils de nos jours, quelles explications en donnent-ils, quels modes de résolution en ont-ils élaboré ? Pourquoi le discours sur la maladie et le malheur tient-il une

si large place dans la vie quotidienne en Nouvelle-Calédonie, pourquoi le prestige des médicaments kanaks demeure-t-il si fort face au système de soin occidental ? Répondre à ces questions, c'est donner à voir un univers moral résolument non chrétien, un système social marqué par le conflit : ici la victoire du plus fort est toujours mieux vue que le ressentiment des vaincus, ici la santé et la fécondité témoignent d'une réussite qui s'obtient au détriment des ennemis, affaiblis méthodiquement. Certes, en pays kanak, les ancêtres sont considérés comme les auteurs de maladie et les véritables soignants, les guérisseurs et leurs plantes médicinales n'étant que des vecteurs de la force ancestrale. Mais, au-delà, le champ de la maladie constitue le lieu d'interprétations et de pratiques beaucoup plus larges que les seules affections physiques et mentales. Il s'agit tout à la fois de corps social, de religion, de métaphysique. Et c'est pourquoi rendre intelligibles les théories explicatives du malheur

et les mécanismes de la relation thérapeutique propres aux Kanaks contribue à la compréhension de l'ensemble de la société aujourd'hui. Tous ceux qu'intéresse la vie

politique et sociale en Nouvelle-Calédonie, mais aussi les médecins et les travailleurs sociaux concernés par l'anthropologie médicale, trouveront dans ces pages matière à enrichir leur réflexion.
