**The Heritage of Our Times** - Ernst Bloch  
2018-03-15

Heritage of Our Times is a brilliant examination of modern culture and its legacy by one of the most important and deeply influential thinkers of the 20th century. Bloch argues that the key elements of a genuine cultural tradition are not just to be found in the conveniently closed and neatly labeled ages of the past, but also in the open and experimental cultural process of our time. One of the most compelling aspects of this work is a contemporary analysis of the rise of Nazism. It probes its bogus roots in German history and mythology at the very moment when the ideologies of Blood and Soil and the Blond Beast were actually taking hold of the German people. The breadth and depth of Bloch's vision, together with the rich diversity of his interest, ensure this work a place as one of the key books of the 20th century.

*Pop Music for Violin and Piano* - Manfred Schmitz  
2000-04

"Children and young musicians today are interested in playing the popular music that surrounds them daily on their own instrument. As the offerings of original compositions for violin and piano in this genre are few and far between and the legitimate demand for such pieces is so high, these three new compositions

for advanced violin students have been created. Regardless of where these pieces have been performed, the attractive, "different" sound has been well received and sparked interest among students, teachers and professors alike. The musical and technical demands created by a successful synthesis of the broad spectrum of traditional violin compositional techniques and modern pop music stylings contribute greatly to the special appeal of these pieces. In these pieces, the student benefits from the combination of various modern music styles and traditional playing technique. These compositions represent a colorful addition to the educational and concert literature library for violin."
