Hollister House - Joani Lacy 2011-10
A calm fell over the attic as the invaders left it to its peace. On the window sill a large bird ruffled its feathers and shook its black head. It came back to a restful perch and watched with beady eyes as three ghosts appeared; a grayish apparition leaning into a cane and dragging his

bent body toward a sparkling vision of an ethereal man and woman dancing in the dark. In this second novel of what is to become the Hollister House Trilogy, Eve Hollister and her family and friends settle into the beautifully restored Victorian mansion to celebrate their first Christmas together, confident that the house is no longer haunted. But when Eve and Sippie visit New Orleans that confidence is quickly shattered as lingering ghosts manifest and more of the mysterious Hollister family curse is revealed. By taking the reader on an amazing journey through the romantic French Quarter and colorful carnival season of Mardi Gras, before traveling back to the Deep South of Mississippi with all its gothic imagery, Hollister House {The Banyan Tree Awakens} brings the fantastic fantasy world of Hollister House to a higher, spellbinding level, leaving the traveler begging for more.

Neem - National Research Council 1992-02-01
The neem tree, one of the most promising of all plants, may eventually benefit every person on the planet. Probably no other plant yields as many varied products or has as many exploitable by-products. Indeed, as foreseen by some scientists, this tree may usher in a new era in pest control; provide millions with inexpensive medicines; cut the rate of population growth; and perhaps even reduce erosion, deforestation, and the excessive temperature of an overheated globe. On the other hand, although the enthusiasm may be justified, it is largely founded on exploratory investigations and empirical and anecdotal evidence. The purpose of this book is to marshal the various facts about this little-known species, to help illuminate its future promise, and to speed realization of its potential.

Luckily there are no traffic dense roads. Under the blue sky, the tree with its thickly crowded green leaves stood as green sky beneath the blue sky, stretching like a vast playground. The cluster of thick green leaves provided the children cool shelter. These children were especially fond of that tree. Some refer it as 'loving grandpa' and ask "shall we go to our grandpa?". Some others regard the tree as their friend and say "our friend will be waiting for us there. Come, we will go there fast". Some consider the place under the tree as their palace. The banyan tree was the biggest in that open place. Around that open space there were small and big trees like a fence. Beyond that boundary of tree there was a small pond. And after that at some distance, a small river ran like a silver ribbon. Because of this river, the weather was cool under the banyan tree and its surroundings. Then, Babu carried Mylee in his palm to the pond. "If one goes little down from the sand, pond with clear water can be reached.

Sunlight thrown on water surface will make it glow like diamond powders. People say that if you follow the light into the water, one can see the bottom of the pond and various fish. At the same time they say that the pond is very deep and nobody can say what is there in such depth". A five year old girl was sitting in the steps of the pond, looking in and crying. Babu said "My goodness! She is Little Lallu who came with us. How she came here alone?" Then he went down fast in the steps and knelt before her.

Artie - Dee Maner 2016-08-01

"Artie watched the trees. When they saw children misbehave, a fine mist flowed from their branches. When touched by this mist, children stopped bickering, babies stopped crying, and parents started smiling. "What's that coming from your branches?" asked Artie. "That's Christmas Spirit..." Artie is delighted when a family selects him to be their Christmas tree. But, because he's not a real tree, he doubts he has enough Christmas Spirit to bring the children the hope, joy, love and peace they need. Who can help Artie believe in himself? No one knows more about Christmas Spirit than Santa. That jolly old elf soon sets Artie straight. Any tree--just like any person--has an infinite amount of Christmas Spirit to share, if it comes from the heart. Artie: The First Artificial Christmas Tree shows children how important it is to share Christmas Spirit. Artie's struggle to feel worthy of the special work of the evergreens will encourage young readers facing their own obstacles and help them to understand the importance of developing their own special talents. Timeless watercolors capture the enduring magic of the Christmas season and will inspire readers to spread cheer through the holidays--and beyond. Artie's story shows that with Christmas trees, just like with people, it's what's inside that matters!"

Writing the Past, Inscribing the Future - Nancy K. Florida 1995

Located at the juncture of literature, history, and anthropology, *Writing the Past, Inscribing the Future* charts a strategy of how one might read a traditional text of non-Western historical literature in order to generate, with it, an opening for the future. This book does so by taking seriously a haunting work of historical prophecy inscribed in the nineteenth century by

a royal Javanese exile—working through this writing of a colonized past to suggest the reconfiguration of the postcolonial future that this history itself apparently intends. After introducing the colonial and postcolonial orientalist projects that would fix the meaning of traditional writing in Java, Nancy K. Florida provides a nuanced translation of this particular traditional history, a history composed in poetry as the dream of a mysterious exile. She then undertakes a richly textured reading of the poem that discloses how it manages to escape the fixing of "tradition." Adopting a dialogic strategy of reading, Florida writes to extend—as the work's Javanese author demands—this history's prophetic potential into a more global register. *Babad Jaka Tingkir*, the historical prophecy that *Writing the Past, Inscribing the Future* translates and reads, is uniquely suited for such a study. Composing an engaging history of the emergence of Islamic power in central Java around the turn of the sixteenth century, *Babad Jaka Tingkir* was written from the vantage of colonial exile to contest the more dominant dynastic historical traditions of nineteenth-century court literature. Florida reveals how this history's episodic form and focus on characters at the margins of the social order work to disrupt the genealogical claims of conventional royal historiography—thus prophetically to open the possibility of an alternative future.
