Computer Networking and Scholarly Communication in the Twenty-First-Century University - Teresa M. Harrison  
1996-04-04

This book explores the various ways in which computer networking, and more specifically the Internet, is changing the practices, the structure, and the products of academic scholarship. It considers research, teaching, and dissemination of knowledge across a range of disciplines in the humanities,

sciences, and social sciences in order to identify particular uses of networking that will come to constitute the academic world of the future. The contributors consider such themes as how networking and particular software environments can be used to support inquiry within research specialties and how scholars in diverse disciplines respond to the availability of new networked channels of scholarly communication. In the context of education, they

argue that networking can reconfigure the process of learning, encompassing new audiences, new relationships with teachers, and new learning skills adapted for the network environment. The products of such new configurations are also discussed. The future of electronic journal publication is considered by innovators who have designed some of the first experiments in refereed electronic journal publication. Finally, the new responsibilities and roles of the academic library and academic publishers in a networked environment are debated.

*The End of Poverty* - Jeffrey D. Sachs 2006-02-28

"Book and man are brilliant, passionate, optimistic and impatient . . . Outstanding."  
—The Economist  
The landmark exploration of economic prosperity and how the world can escape from extreme poverty for the world's poorest citizens, from one of the world's most renowned economists Hailed by Time as one of the world's hundred most influential people, Jeffrey D. Sachs is renowned for his work around the globe advising economies in crisis. Now a classic of its genre, *The End of Poverty* distills more than

thirty years of experience to offer a uniquely informed vision of the steps that can transform impoverished countries into prosperous ones. Marrying vivid storytelling with rigorous analysis, Sachs lays out a clear conceptual map of the world economy. Explaining his own work in Bolivia, Russia, India, China, and Africa, he offers an integrated set of solutions to the interwoven economic, political, environmental, and social problems that challenge the world's poorest countries. Ten years after its initial publication, *The End of Poverty* remains an indispensable and influential work. In this 10th anniversary edition, Sachs presents an extensive new foreword assessing the progress of the past decade, the work that remains to be done, and how each of us can help. He also looks ahead across the next fifteen years to 2030, the United Nations' target date for ending extreme poverty, offering new insights and recommendations.

**Much - An Essay Into Felinity** - Robin D. Gill 2010

Imagine a cat who mastered more tricks than a highly trained dog, covered up cans of food he did not want to eat before they were opened and could delicately touch a tiny finger-spun top repeatedly without stopping it. Han-chan was such a cat. His memory, preserved in notes and sketches, inspired an authority on stereotypes of national character and translator of Edo era Japanese poetry to essay out of his fields of expertise and into felinity. Sample chapters: The animal that kneads the world. / Conversing with cats: easier in Japanese? / Smiling with closed eyes, or far from Ecotopia. / Are cats the most or least false animal. / Beauty: Is it relative or . . . is it the cat? / A little red mouse, or are we keeping the right pet? / The third-generation tanuki - a new theory of domestication. Observations are coupled with thought about things such as 1) whether the altered behavior usually explained as saving face or covering up weakness

is not more like improvisation that, retrospectively, makes melodic sense of what would be wrong notes by offsetting or dream-style logic that, ever present, keeps the flow from breaking. 2) Cats, or some cats, may avoid trauma from bad experiences by convincing themselves it was only a nightmare and continuing to hope until they can cope. 3) Cats demonstrate their social nature by showing off their catches, sleeping together in the cold and behaving themselves, but most are, unfortunately, like so-called feral children: because they are separated from their family while too young to have socialized, they re-enforce the stereotype of the independent asocial cat. One can only understand felinity by living with generations of cats under one roof. The author did this. People who liked Barbara Holland's "Secrets of the Cat," the cat chapter in Vicki Hearne's "Adam's Task" and Leonard Michaels' "A Cat" will probably purr while reading this.

**Copy, Copy, Copy** - Mark Earls  
2015-03-23

THE #1 HACK FOR SMARTER MARKETING We all want new answers and new solutions for the very real and pressing challenges that our organizations face. New things to point to and talk about, new ways of working and new ways of thinking that might just be better than the old ways. But rather than this endless search for a brilliant and novel solution, why don't you just copy something that's worked before? Mark Earls, leading expert in marketing and consumer behaviour, quashes the stigma around copying, and

shows that it can help us to rethink how we go about solving problems. By understanding what other people are doing and the choices they make, we can develop strategies to solve the challenges that we face inside and outside the organization. Based on extensive research and proven examples, Copy, Copy, Copy provides over 50 strategies that you can use right away to copy, borrow or steal as the basis for better ideas - faster. If it's good enough for Elvis, Newton, Shakespeare, The British Olympic Cycling Team and Great Ormond Street Hospital, isn't it good enough for you? 'This delightful book argues convincingly that transferring ideas usually produces greater value than cooking them up from scratch. And then shows you how.' — Rory Sutherland, Vice Chairman, Ogilvy London and the Spectator Magazine's Wikiman 'Yet another entertaining handbook from the acclaimed Herdmeister for anyone involved in marketing, behavioural change and

understanding why we all make the choices we make. Earls convincingly disrupts convention about what is innovation - though "praxis". **The Brontës: Veins Running Fire** - Derick Bingham

2018-08-19

The story of the Brontë family is one of incredible romance, immense genius and haunting sadness. From humble beginnings in Ireland the Rev. Patrick Brontë rose to the very heart of the reforming evangelical movement of the 19th century; he was sponsored at Cambridge University in England by its great leader William Wilberforce. Patrick's daughters Emily, Charlotte and Anne came onto the pages of literary history with, amongst other work, their novels *Wuthering Heights*, *Jane Eyre* and *The Tenant of Wildfell Hall* which now grip the imagination of millions of people in the 21st century. Branwell, the most promising of Patrick's children is mourned for the wreck of his talent. All had the fire of deep emotions running in their veins. In this book Derick Bingham seeks to trace the influence of Patrick Brontë's unfaltering evangelical faith on the lives and work of all his children. Here is faith in the face of unremitting tragedy,

imagination soaring out of pitiful sadness and doubt vying with hope for dominance. The world will truly never see such a literary family again whose life story is every bit as fascinating as their fiction.

Voiceless Child - Ann Widick  
Giganti 2017-12-03

True story! "I spoke soothing words and touched her pale fingers. The silent weeping stopped." The baby's chest heaved as she struggled to breathe. Airway scarring rendered spoken language impossible. Heather wasn't my child, but her distress tattered my heart. Fourteen months old, the little one lay swaddled in a blanket, forgotten and lost amongst unchanging hospital routines. "Just be glad she's only abandoned, not abused." The words on the other end of the phone line stung. I wrestled with anger, but instinct quieted any sharp response. A chance meeting turned tragedy to miracle. I wrote the book about our search to give the voiceless child a family, to find a surgeon who could reconstruct her airway. Otherwise she would never speak, never swim. When I met her, she'd never been outside, never seen the sun,

never seen the moon. She could not even move a finger. She'd always lived in a hospital on a breathing machine, fed by a tube in her tummy. No one dared dreamed she might survive and have a family of her own. Might we adopt her? Were the damning prophecies true? Sometimes dreams come true, more fantastic than envisioned. There is a newer subspecialty, pediatric otolaryngology. These ear, nose, and throat surgeons can restore voice and hearing. READ THE BOOK. WRITE A REVIEW. TELL YOUR FRIENDS. Enjoy the adventure of healing Heather and discover the miracle surgery that restores her voice. "This is a true story of hope, unconditional love, faith, as well as an exceptional family who would not take "No" for an answer. Ann writes beautifully with vision and descriptions that take you bedside with Heather, on family outings to the river, or just inside her home filled with laughter, scary moments with how fragile Heather was, the

exhausting routine of life at that time, and finally the miracle of seeing Heather grow up." Kathy, Reader \*\*\* My part in this story is that of a surgeon, one person on the team that cared for Heather. Voiceless Child kindles the fragile pilot-lights of other searching families and those of the tireless professionals striving to discover solutions to the unresolved puzzles of the many debilitating illnesses. -- Dr. Bruce Maddern, pediatric otolaryngologist Heather's story is heartwrenching, captivating, frustrating. I was impelled to read on to discover who would help or hinder her recovery. What I learned applauds the magical minds and hands of innovative surgeons. The inspiring story of perseverance is relevant to anyone who is facing a challenging obstacle. --Dar Walks Out, Lakota Sioux, Pine Ridge, South Dakota Voiceless Child is a thoughtful exploration of the grace and imperfections inherent in medical care systems and individual providers. Heather

epitomizes the motivation for devising surgical procedures that eliminate a parent's constant worry of death associated with airway disorders. -- Dr. Robin Cotton, director of pediatric otolaryngology, Cincinnati Children's Hospital Medical Center A good read. As close friends, we walked along with every step of this amazing true story. The dance began before we consciously heard its soft music. --Mark Hoffenberg, Gainesville, Florida Before the events evolved to the point whose impact could only be conveyed through a book, I published it as an article, "The Child No One Wanted" in Woman's Day. "We've had a terrific reaction to it. Our readers really loved the story." --Jane Chesnutt, then editor-in-chief of Woman's Day. Beautiful. Well written. When I read about the little child, my heart broke. I cried, and then I rejoiced. The whole world will want to read it. They will cry tears of sorrow and joy and celebrate the wonder of Heather. --Sudarshan Gandotra

research on the relationship between teacher leadership and power, agency and school culture has the potential to contribute to a deeper understanding of the teaching profession in diverse geographical and social contexts. A Cross-Cultural Consideration of Teacher Leaders' Narratives of Power, Agency and School Culture presents groundbreaking work that expands discussions of teachers' work to highlight the struggles of a profession in three different countries: England, Jamaica and the United States. This research provides examples of teacher leaders' narratives about power, agency and school culture, presenting the voices of teacher leaders across diverse contexts. It identifies the "lessons" that transcend culture and speaks to the importance of understanding how teachers' work (and teacher leadership) functions within complex school cultures. This work has profound implications for teaching, learning and leading in a 21st

**The Slavonic Languages** -  
Professor Greville Corbett

This book provides a chapter-

length description of each of the modern Slavonic languages and the attested extinct Slavonic languages. Individual chapters discuss the various alphabets that have been used to write Slavonic languages, in particular the Roman, Cyrillic and Glagolitic alphabets; the relationship of the Slavonic languages to other Indo-European languages; their relationship to one another through their common ancestor, Proto-Slavonic; and the extent to what various Slavonic languages have survived in emigration. Each chapter on an individual language is written according to the same general scheme and incorporates the following elements: an introductory section describing the language's social context and, appropriate, the development of the standard language; a discussion of the phonology of the language, including a phonemic inventory and morphophonemic alterations from both synchronic and diachronic perspectives; a detailed presentation of the

«relinquish the authority of truth providers»? Ninth grader Sasha Pringle, one of the student voices in Classroom Calypso, asserts that such a self-effacing posture empowers students by «releasing the writer within, » thereby fostering a critical, creative, and reflective disposition. Winthrop R. Holder re-represents students not as marginalized beings merely absorbing information but as subjects taking center stage and inscribing themselves into history. On their literary pilgrimage seeking self-knowledge, students, employing tale-telling, recast their classroom as a symposium - a place where popular culture orchestrates the discourse. This is an invaluable book for educators, parents, and anyone interested in understanding and facilitating the voices of urban youth.

The accumulated findings provide a treasure-trove of information about the Shelley's lives: their writings and readings, and echoes of classical and later authors; the people they met, corresponded with, rented houses from, or saw perform; the towns they visited, the very houses in which they lived, the lakes and rivers they sailed and the mountains they climbed. The intellectual and physical data of these manuscripts will help open new vistas for students of their lives, thought and creative writing.
