Federalism and the Response to COVID-19 - Rupak Chattopadhyay 2021-11-25

The COVID-19 pandemic bared the inadequacies in existing structures of public health and governance in most countries. This book provides a comparative analysis of policy approaches and planning adopted by federal governments across the globe to battle and adequately respond to the health emergency as well as the socio-economic fallouts of the pandemic. With twenty-four case studies from across the globe, the book critically analyzes responses to the public health crisis, its fiscal impact and management, as well as decision-making and collaboration between different levels of government of countries worldwide. It explores measures taken to contain the pandemic and to responsibly regulate and manage the health, socio-economic welfare, employment, and education of its people. The authors highlight the deficiencies in planning, tensions between state and local governments, politicization of the crisis, and the challenges of generating political consensus. They also examine effective approaches used to foster greater cooperation and learning for multi-level, polycentric innovation in pandemic governance. One of the first books on federalism and approaches to the COVID-19 pandemic, this volume is an indispensable reference for scholars and researchers of comparative federalism, comparative politics, development studies, political science, public policy and governance, health and wellbeing, and political sociology.

The Origins of Modern Humans - Fred H. Smith 2013-07-09

This update to the award-winning *The Origins of Modern Humans: A World Survey of the Fossil Evidence* covers the most accepted common theories concerning the emergence of modern *Homo sapiens*—adding fresh insight from top young scholars on the key new discoveries of the past 25 years. *The Origins of Modern Humans: Biology Reconsidered* allows field leaders to discuss and assess the assemblage of

hominid fossil material in each region of the world during the Pleistocene epoch. It features new fossil and molecular evidence, such as the evolutionary inferences drawn from assessments of modern humans and large segments of the Neandertal genome. It also addresses the impact of digital imagery and the more sophisticated morphometric methods that have entered the analytical fray since 1984. Beginning with a thoughtful introduction by the authors on modern human origins, the book offers such insightful chapter contributions as: Africa: The Cradle of Modern People Crossroads of the Old World: Late Hominin Evolution in Western Asia A River Runs through It: Modern Human Origins in East Asia Perspectives on the Origins of Modern Australians Modern Human Origins in Central Europe The Makers of the Early Upper Paleolithic in Western Eurasia Neandertal Craniofacial Growth and Development and Its Relevance for Modern Human Origins Energetics and the Origin of Modern Humans Understanding Human Cranial Variation in Light of Modern Human Origins The Relevance of Archaic Genomes to Modern Human Origins The Process of Modern Human Origins: The Evolutionary and Demographic Changes Giving Rise to Modern Humans The Paleobiology of Modern Human Emergence Elegant and thought provoking, *The Origins of Modern Humans: Biology Reconsidered* is an ideal read for students, grad students, and professionals in human evolution and paleoanthropology.

Power Maths Year 3 Teacher Guide 3A - Josh Lury 2018-07-23

The whole-class mastery approach that works for every child. Underpinned by the most effective teaching practices, and created by a team of mastery experts led by Series Editor Tony Staneff, Power Maths is designed to make the whole-class mastery teaching approach work for you, your children and your school. The Power Maths Teacher Guides provide expert support for your day-to-day teaching, and offer opportunities for reflection and continual professional development. Provides guidance on using the Textbooks and Practice Books, explaining how they support a mastery approach. Support with key strategies such as modelling a growth mindset, assessing mastery, speedy same-day intervention, C-P-A approaches and using key mathematical structures and representations. Focused unit-level support for each mathematical concept within the Power Maths progression, including important structures and representations, key language, common misconceptions and intervention strategies. Specific advice and commentary for each pupil book page - including insight into why tasks and exercises have been selected, and how to strengthen and deepen learning. Templates for teacher reflection, lesson study, and tracking pupil progress.

Present: Progressive & Simple. Englisch 5. Klasse - Ludwig Waas 2021-11-30

Von Lernschritt zu Lernschritt gelangen die Schüler:innen zu mehr Erfolg. In diesem Heft werden die Gegenwartsformen Present Progressive und Simple Present eingeübt. Zunächst werden die beiden Zeiten gegenübergestellt und unterschieden. Danach werden die Zeiten einzeln geübt. Dabei wird auf viele Besonderheiten eingegangen, die Schüler:innen häufig Schwierigkeiten bereiten. Ein Abschlusstest ermöglicht nochmals eine Kontrolle des Gelernten. Das Heft ist lehrbuchunabhängig und eignet sich daher gut, um das in der Schule Gelernte zu wiederholen und aufzufrischen. Eine englisch-deutsche Wörterliste erleichtert dabei die Arbeit.

Kompetenztraining Oberstufe - Listening - Sheila Thorn 2017-02-20

Beyond the Blue Border - Dorit Linke 2021-09-07

Hanna and Andreas will do anything to leave oppressive East Germany behind. There's one escape route open to them, but can they survive it? Hanna and Andreas have always been friends. When they're expelled from school for activism directly challenging the socialist state in East Germany, they end up doing factory work. But what kind of life do they have to look forward to without education or opportunity? Especially when they aren't allowed a voice? The choice to risk imprisonment or death by escaping to the democratic West seems like a risk worth taking. They set out to swim twenty-five hours across the choppy waters of the Baltic Sea. Linke's storytelling achieves a delicate balance between heightened moments of danger--searchlights, jellyfish, a Russian helicopter, a violent summer storm--and the monotony, ineffable fatigue, physical pain, cramping, fear, and hope that fill the rest of the journey. A memorable tale of two people risking all for a chance at freedom.

Dictionary of World Biography - Barry Jones 2021-09-16

Jones, Barry Owen (1932-). Australian politician, writer and lawyer, born in Geelong. Educated at Melbourne University, he was a public servant, high school teacher, television and radio performer, university lecturer and lawyer before serving as a Labor MP in the Victorian Parliament 1972-77 and the Australian House of Representatives 1977-98. He took a leading role in reviving the Australian film industry, abolishing the death penalty in Australia, and was the first politician to raise public awareness of global warming, the 'post-industrial' society, the IT revolution, biotechnology, the rise of 'the Third Age' and the need to preserve Antarctica as a wilderness. In the Hawke Government, he was Minister for Science 1983-90, Prices and Consumer Affairs 1987, Small Business 1987-90 and Customs 1988-90. He became a member of the Executive Board of UNESCO, Paris 1991-95 and National President of the Australian Labor Party 1992-2000, 2005-06. He was Deputy Chairman of the Constitutional Convention 1998. His books include *Decades of Decision 1860- (1965)*, *Joseph II (1968)*, *Age of Apocalypse (1975)*, and he edited *The Penalty is Death (1968)*. *Sleepers, Wake!: Technology and the Future of Work* was published by Oxford University Press in 1982, became a bestseller and has been translated into Chinese, Japanese, Korean, Swedish and braille. The fourth edition was published in 1995. *Knowledge Courage Leadership*, a collection of speeches and essays, appeared in 2016. He received a DSc for his services to science in 1988 and a DLitt in 1993 for his work on information theory. Elected FTSE (1992), FAHA (1993), FAA (1996) and FASSA (2003), he is the only person to have become a Fellow of four of Australia's five learned Academies. Awarded an AO in 1993, named as one of Australia's 100 'living national treasures' in 1997, he was elected a Visiting Fellow Commoner of Trinity College, Cambridge in 1999. His autobiography, *A Thinking Reed*, was published in 2006 and *The Shock of Recognition*, about music and literature, in 2016. In 2014 he received an AC for services 'as a leading intellectual in Australian public life'. *What Is to Be Done* was published by Scribe in 2020.

Shadow Education and Social Inequalities in Japan - Steve R. Entrich 2017-12-07

This book examines why Japan has one of the highest enrolment rates in cram schools and private tutoring worldwide. It sheds light on the causes of this high dependence on 'shadow education' and its implications for social inequalities. The book provides a deep and extensive understanding of the role of this kind of education in Japan. It shows new ways to theoretically and empirically address this issue, and offers a comprehensive perspective on the impact of shadow education on social inequality formation that is based on reliable and convincing empirical analyses. Contrary to earlier studies, the book shows that shadow education does not inevitably result in increasing or persisting inequalities, but also inherits the potential to let students overcome their status-specific disadvantages and contributes to more opportunities in education. Against the background of the continuous expansion and the convergence of shadow education systems across the globe, the findings of this book call for similar works in other national contexts, particularly Western societies without traditional large-scale shadow education markets. The book emphasizes the importance and urgency to deal with the modern excesses of educational expansion and education as an institution, in which the shadow education industry has made itself (seemingly) indispensable.

Geography and Religious Knowledge in the Medieval World - Christoph Mauntel 2021-06-08

In the medieval world, geographical knowledge was influenced by religious ideas and beliefs. Whereas this

point is well analysed for the Latin-Christian world, the religious character of the Arabic-Islamic geographic tradition has not yet been scrutinised in detail. This volume addresses this desideratum and combines case studies from both traditions of geographic thinking. The contributions comprise in-depth analyses of individual geographical works as for example those of al-Idrisi or Lambert of Saint-Omer, different forms of presenting geographical knowledge such as TO-diagrams or globes as well as performative aspects of studying and meditating geographical knowledge. Focussing on texts as well as on maps, the contributions open up a comparative perspective on how religious knowledge influenced the way the world and its geography were perceived and described in the medieval world.

This Book Loves You - PewDiePie 2015-10-20

This Book Loves You by PewDiePie is a collection of beautifully illustrated inspirational sayings by which you should live your life. If you follow each and every one, your life will become easier, more fabulous, more rewarding. Imagine what a chilled-out and wonderful human being people would think you were if you lived by the simple principle "You can never fail if you never try." Your wasted life would be an inspiration to others. Think of all the pointless, unhappy striving you could simply give up. Throw away that guitar! Give up on your dreams! Embrace your astounding mediocrity. This Book Loves You has something for everyone--or at least everyone willing to give up and stop caring. If all else fails, remember: "Don't be yourself. Be a pizza. Everyone loves pizza."

Comparative Approaches to Informal Housing Around the Globe - Udo Grashoff 2020-02-06

Comparative Approaches to Informal Housing Around the Globe brings together historians, anthropologists, political scientists, sociologists, urban planners and political activists to break new ground in the globalisation of knowledge about informal housing. Providing both methodological reflections and practical examples, they compare informal settlements, unauthorised occupation of flats, illegal housing construction and political squatting in different regions of the world. Subjects covered include squatter settlements in Kyrgyzstan and Kazakhstan, squatting activism in Brazil and Spain, right-wing squatting in Germany, planning laws and informality across countries in the Global North, and squatting in post-Second World War UK and Australia.

Molecular Beams in Physics and Chemistry - Bretislav Friedrich 2021-06-19

This Open Access book gives a comprehensive account of both the history and current achievements of molecular beam research. In 1919, Otto Stern launched the revolutionary molecular beam technique. This technique made it possible to send atoms and molecules with well-defined momentum through vacuum and to measure with high accuracy the deflections they underwent when acted upon by transversal forces. These measurements revealed unforeseen quantum properties of nuclei, atoms, and molecules that became the basis for our current understanding of quantum matter. This volume shows that many key areas of modern physics and chemistry owe their beginnings to the seminal molecular beam work of Otto Stern and his school. Written by internationally recognized experts, the contributions in this volume will help experienced researchers and incoming graduate students alike to keep abreast of current developments in molecular beam research as well as to appreciate the history and evolution of this powerful method and the knowledge it reveals.

Converging Regional Education Policy in France and Germany - Claire Dupuy 2021-04-14

How have regionalization processes across Europe impacted on policy convergence? This book takes as its starting point the curious fact that autonomous regional policymaking may be parallel to regional governments pursuing policy similarity. The author proposes that these observations are paradoxical only if sector-specific policy norms are disregarded and when autonomy is considered as the exclusive goal of regional governments. Focusing on common yet under-studied regional situations where a sense of cultural or historical distinctiveness is not readily apparent, if at all, the book argues that in policy sectors where norms of territorial equality have long been dominant, regional governments endorse them as a way to secure or expand their policy capacity when the central state or other policy entrepreneurs challenge it. This results in converging policies. A textured comparative account of educational policymaking in German Länder and French conseils régionaux over three decades forms the backbone of this analysis of policymaking in ordinary regions.

Education as a Lifelong Process - Hans-Peter Blossfeld 2019-02-18

In modernen Wissensgesellschaften ist Bildung die zentrale Voraussetzung sowohl für die demokratische Teilhabe als auch für wirtschaftliches Wachstum und Wohlstand. Eine sich zunehmend rascher wandelnde, globalisierte Welt erfordert die Bewältigung neuer Anforderungen im privaten Leben und in der Berufs- und Arbeitswelt. Um mehr über den Bildungserwerb und seine Folgen für individuelle Lebensverläufe zu erfahren, um zentrale Bildungsprozesse und -verläufe über die gesamte Lebensspanne zu beschreiben und zu analysieren, wird in Deutschland aktuell das Nationale Bildungspanel aufgebaut.

The Reader - Bernhard Schlink 2001-05-01

Hailed for its coiled eroticism and the moral claims it makes upon the reader, this mesmerizing novel is a story of love and secrets, horror and compassion, unfolding against the haunted landscape of postwar Germany. When he falls ill on his way home from school, fifteen-year-old Michael Berg is rescued by Hanna, a woman twice his age. In time she becomes his lover—then she inexplicably disappears. When Michael next sees her, he is a young law student, and she is on trial for a hideous crime. As he watches her refuse to defend her innocence, Michael gradually realizes that Hanna may be guarding a secret she considers more shameful than murder.

The Compassionate Brain - Gerald Hüther, Ph.D. 2006-06-13

Here is the ultimate explanation of the brain for everyone who thinks: a guide to how the brain works, how our brains came to operate the way they do, and, most important, how to use your precious gray matter to its full capacity. The brain, according to current research, is not some kind of automatic machine that works independently of its user. In fact, the circuitry of the brain actually changes according to how one uses it. Our brains are continuously developing new capacities and refinements—or losing them, depending upon how we use them. Gerald Hüther takes us on a fascinating tour of the brain's development—from one-celled organisms to worms, moles, apes, and on to us humans—showing how we truly are what we think: our behavior directly affects our brain capacity. And the behavior that promotes the fullest development of the brain is behavior that balances emotion and intellect, dependence and autonomy, openness and focus, and ultimately expresses itself in such virtues as truthfulness, considerateness, sincerity, humility, and love. Hüther's user's-manual approach is humorous and engaging, with a minimum of technical language, yet the book's message is profound: the fundamental nature of our brains and nervous systems naturally leads to our continued growth in intelligence and humanity.

The Palgrave Handbook of Populism - Michael Oswald 2021-11-15

This handbook assesses the phenomenon of populism—a concept frequently belabored, but often misunderstood in politics. Rising populism presents one of the great challenges for liberal democracies, but despite the large body of research, the larger picture remains elusive. This volume seeks to understand the causes and workings of modern-day populism, and plumb the depths of the fears and frustrations of people who have forsaken established parties. Although the main focus of this volume is political science, there are more disciplines represented in order to get a whole picture of the debate. It is comprised of strong empirical and theoretical papers that also bear social relevance.

The Planning System and Planning Terms in Germany - Elke Pahl-Weber 2008

At a time when Europe is growing together, cooperation between countries is becoming increasingly necessary. One of the main reasons for pursuing transnational spatial development is to attain a common understanding of the facts of spatial planning. Hence, the INTERREG III B project "COMMIN" sought to establish a common communication basis for the exchange of knowledge and experience in spatial planning

and thus to foster and develop this understanding in the Baltic Sea region. Therefore, on the basis of a standardized structure the COMMIN project partners prepared basic information about institutional settings and spatial planning systems and compiled a glossary of key terminology in spatial planning accompanied by a varying range of fact sheets with respect to planning cases taken as examples. The readers will now find on www.commin.org the whole range of information covering the respective national languages as well as English translations, although in some countries official translations for these issues were lacking. The project partners were aware of the fact that each translation requires a balancing act between legal precision and communicable classification and, at the end, is a question of definition power and of different senses for semantics. The German text on hand (status December 2006) one information package out of eleven was prepared by a team comprising planners, lawyers, economists, and administrative academics. Actually no other publication treating this subject in English exists and it will hopefully contribute not only to understanding planning issues in Europe but also to transferring in this respect information and knowledge within the country. Anyway, being aware of differences between countries is a point of departure for the mutual understanding process.

The Hybridization of Vocational Training and Higher Education in Austria, Germany, and Switzerland - Lukas Graf 2013

In reforming their often praised systems of collective skill formation, Austria, Germany, and Switzerland have relied on hybridization at the nexus of vocational training and higher education. This historical and organizational study traces institutionalist developments, from the 1960s to today's era of Europeanization - the Bologna and Copenhagen processes. Contents include: Analyzing Hybridization at the Nexus of Vocational Training (VET) and Higher Education (HE) * Germany: The Transformation of the Dual Principle through Dual Study Programs * Comparison: Hybridization at the Nexus of VET and HE in Germany, Austria, and Switzerland.

Why Theatre? - Katje de Geest 2020-09-23

Aufgewachsen in Ost und West - Katrin McClean 2020-10-03

Während der Teilung Deutschlands herrschten im Osten wie im Westen zahlreiche Klischeevorstellungen. Viele DDR-Bürger glaubten, im Westen herrschten paradiesische Zustände. Und nicht wenige BRD-Bürger sahen den Osten ausschließlich als Zone der Unfreiheit und politischen Verfolgung. Doch wie nahmen die Menschen in Ost und West ihre eigenen Lebensrealitäten wahr? Wie wuchsen sie in »ihrem« Teil Deutschlands auf, wie politisierten sie sich dort, wie begehrten sie auf, erlebten Glück und Leid? Was machte und macht ihre Leben aus? Und nicht zuletzt: Wie erlebten sie die Wiedervereinigung und das Danach? Vierzig Autorinnen und Autoren aus allen Teilen Deutschlands schrieben ihre Erinnerungen auf. Nicht aus Gründen der Nostalgie, sondern im Wissen, dass die noch immer vorhandenen Gräben, Missverständnisse und Vorurteile zwischen Ost und West nur überwunden werden können, wenn sich Menschen füreinander öffnen, von sich erzählen, zuhören, nachfragen und dann von eigenen Erfahrungen berichten. Dann kann aus Unkenntnis Verständnis werden. Dies ist das Anliegen von »Aufgewachsen in Ost und West«. Mit Beiträgen von Claudia Dreyer, Gerlinde Ebner, Rosemarie Eidel-Reitze, Charlotte Elisabeth, Emma Eschenbach, Susanna M. Farkas, Norbert Fleischer, Peter Frey, Jenny Friedheim, Torsten Haeffner, Jörg Hampel, Bettina-Maria Henze, Irene, Jara, Antje K., Peter Knauth, Carola Kleinschmidt, Dieter Küchler, Sylvia Lenz, Rainer Lewandowski, Guido Liedtke, Frieda Lowick, Peter Mann, Pauline Max, Katrin

The Palgrave Handbook of Race and Ethnic Inequalities in Education - P. Stevens 2014-01-22

This comprehensive, state-of-the-art reference work provides the first systematic review to date of how sociologists have studied the relationship between race/ethnicity and educational inequality over the last thirty years in eighteen different national contexts.

Felix Klein - Renate Tobies 2021-06-23

About Felix Klein, the famous Greek mathematician Constantin Carathéodory once said: "It is only by illuminating him from all angles that one can come to understand his significance." The author of this biography has done just this. A detailed study of original sources has made it possible to uncover new connections; to create a more precise representation of this important mathematician, scientific organizer, and educational reformer; and to identify misconceptions. Because of his edition of Julius Plücker's work on line geometry and due to his own contributions to non-Euclidean geometry, Klein was already well known abroad before he received his first full professorship at the age of 23. By exchanging ideas with his most important cooperation partner, the Norwegian Sophus Lie, Klein formulated his Erlangen Program. Various other visionary programs followed, in which Klein involved mathematicians from Germany and abroad. Klein was the most active promoter of Riemann's geometric-physical approach to function theory, but he also integrated the analytical approaches of the Weierstrass school into his arsenal of methods. Klein was a citizen of the world who repeatedly travelled to France, Great Britain, Italy, the United States, and elsewhere. Despite what has often been claimed, it must be emphasized that Klein expressly opposed national chauvinism. He promoted mathematically gifted individuals regardless of their nationality, religion, or gender. Many of his works have been translated into English, French, Italian, Russian, and other languages; more than 300 supporters from around the world made it possible for his portrait to be painted by the prominent impressionist Max Liebermann. Inspired by international developments, Klein paved the way for women to work in the field of mathematics. He was instrumental in reforming mathematical education, and he endorsed an understanding of mathematics that affirmed its cultural importance as well as its fundamental significance to scientific and technological progress.

Portals to the Past and to the Future - Jürgen Seefeldt 2007

The Jazz Republic - Jonathan O. Wipplinger 2017-05-16

The Jazz Republic examines jazz music and the jazz artists who shaped Germany's exposure to this African American art form from 1919 through 1933. Jonathan O. Wipplinger explores the history of jazz in Germany as well as the roles that music, race (especially Blackness), and America played in German culture and follows the debate over jazz through the fourteen years of Germany's first democracy. He explores visiting jazz musicians including the African American Sam Wooding and the white American Paul Whiteman and how their performances were received by German critics and artists. The Jazz Republic also engages with the meaning of jazz in debates over changing gender norms and jazz's status between paradigms of high and low culture. By looking at German translations of Langston Hughes's poetry, as well as Theodor W. Adorno's controversial rejection of jazz in light of racial persecution, Wipplinger examines how jazz came to be part of German cultural production more broadly in both the US and Germany, in the early 1930s. Using a wide array of sources from newspapers, modernist and popular journals, as well as items from the music press, this work intervenes in the debate over the German encounter with jazz by arguing that the music was no mere "symbol" of Weimar's modernism and modernity. Rather than reflecting intra-German and/or European debates, it suggests that jazz and its practitioners, African American, white American, Afro-European, German and otherwise, shaped Weimar culture in a central way.

Teacher Man - Frank McCourt 2005-11-15

The author describes his coming of age as a teacher, storyteller, and writer, a personal journey during which he spent fifteen years finding his voice in the classroom, and came to terms with the undervalued importance of teaching.

Socialism: The Failed Idea That Never Dies - Kristian Niemietz 2019-02-07

Socialism is strangely impervious to refutation by real-world experience. Over the past hundred years, there have been more than two dozen attempts to build a socialist society, from the Soviet Union to Maoist China to Venezuela. All of them have ended in varying degrees of failure. But, according to socialism's adherents, that is only because none of these experiments were "real socialism". This book documents the history of this, by now, standard response. It shows how the claim of fake socialism is only ever made after the event. As long as a socialist project is in its prime, almost nobody claims that it is not real socialism. On the contrary, virtually every socialist project in history has gone through a honeymoon period, during which it was enthusiastically praised by prominent Western intellectuals. It was only when their failures became too obvious to deny that they got retroactively reclassified as "not real socialism".

Youth and Politics in Times of Increasing Inequalities - Marco Giugni 2021-07-22

Young people are very often the driving forces of political participation that aims to change societies and political systems. Rather than being depoliticized, young people in different national contexts are giving rise to alternative politics. Drawing on original survey data collected in 2018, this edited volume provides a detailed analysis of youth participation in nine European countries by focusing on socialization processes, different modes of participation and the mobilization of youth politics. "This volume is an indispensable guide to understanding young European's experience and engagement of politics, the inequalities that shape young people's political engagement and are sometimes replicated through them, and young people's commitment to saving the environment and spreading democratic ideals. Based on compelling and extensive research across nine nations, this volume makes important advances in key debates on youth politics and provides critical empirical insights into which young people engage, influences on young people's politics, how young people engage, why some young people don't engage, and trends across nations. The volume succeeds in the herculean task of focusing on specific national contexts while also rendering a comprehensive picture of youth politics and inequality in Europe today." —Jennifer Earl, Professor of Sociology, University of Arizona, USA "Forecasts by social scientists of young people's increasingly apathetic stance towards political participation appear to have been misplaced. This text, drawing data and analysis across and between nine European countries, captures the changing nature of political 'activism' by young people. It indicates how this is strongly nuanced by factors such as social class and gender identity. It also highlights important distinctions between young people's approaches towards more traditional (electoral) and more contemporary (non-institutional) forms of participation. Critically, it illuminates the many ways in which youth political participation has evolved and transformed in recent years. Wider social circumstances and experiences are identified as highly significant in preparing young people for, and influencing their levels of participation in, both protest-oriented action and electoral politics." —Howard Williamson, Professor of European Youth Policy, University of South Wales, UK "This book is an incredible guide to understanding the role and sources of inequalities on young people's political involvement. Country specific chapters allow the authors to integrate a large number of the key and most pressing issues regarding young people's relationship to politics in a single volume. Topics range from social mobility and the influence of socioeconomic (parental) resources and class; young people's practice in the social sphere; the intersection of gender with other sources of inequalities; online participation and its relationship with social inequalities; the impact of harsh economic conditions; the mobilization potential of the environmental cause; to the role of political organizations. Integrating all these pressing dimensions in a common framework and accompanying it with extensive novel empirical evidence is a great achievement and the result is a must read piece for researchers and practitioners aiming to understand the challenges young people face in developing their relationship to politics." —Gema García-Albacete, Associate Professor of Political Science, University Carlos III Madrid, Spain

History and Religion - Bernd-Christian Otto 2015-08-31

History is one of the most important cultural tools to make sense of one's situation, to establish identity, define otherness, and explain change. This is the first systematic scholarly study that analyses the complex relationship between history and religion, taking into account religious groups both as producers of historical narratives as well as distinct topics of historiography. Coming from different disciplines, the authors of this volume ask under which conditions and with what consequences religions are historicised. How do religious groups employ historical narratives in the construction of their identities? What are the

biases and elisions of current analytical and descriptive frames in the History of Religion? The volume aims at initiating a comparative historiography of religion and combines disciplinary competences of Religious Studies and the History of Religion, Confessional Theologies, History, History of Science, and Literary Studies. By applying literary comparison and historical contextualization to those texts that have been used as central documents for histories of individual religions, their historiographic themes, tools and strategies are analysed. The comparative approach addresses circum-Mediterranean and European as well as Asian religious traditions from the first millennium BCE to the present and deals with topics such as the origins of religious historiography, the practices of writing and the transformation of narratives.

In the fall of 2007, Jende can hardly believe his luck when he lands a job as a chauffeur for Clark Edwards, a senior executive at Lehman Brothers. Clark demands punctuality, discretion, and loyalty—and Jende is eager to please. Clark’s wife, Cindy, even offers

Neni temporary work at the Edwardses’ summer home in the Hamptons. With these opportunities, Jende and Neni can at last gain a foothold in America and imagine a brighter future. However, the world of great power and privilege conceals troubling secrets, and soon Jende and Neni notice cracks in their employers’ façades. When the financial world is rocked by the collapse of Lehman Brothers, the Jongas are desperate to keep Jende’s job—even as their marriage threatens to fall apart. As all four lives are dramatically upended, Jende and Neni are forced to make an impossible choice. Praise for *Behold the Dreamers* “A debut novel by a young woman from Cameroon that illuminates the immigrant experience in America with the tenderhearted wisdom so lacking in our political discourse . . . Mbue is a bright and captivating storyteller.”—The Washington Post “A capacious, big-hearted novel.”—The New York Times Book Review “Behold the Dreamers’ heart . . . belongs to the struggles and small triumphs of the Jongas, which Mbue traces in clean, quick-moving paragraphs.”—Entertainment Weekly “Mbue’s writing is warm and captivating.”—People (book of the week) “[Mbue’s] book isn’t the first work of fiction to grapple with the global financial crisis of 2007–2008, but it’s surely one of the best. . . . It’s a novel that depicts a country both blessed and doomed, on top of the world, but always at risk of losing its balance. It is, in other words, quintessentially American.”—NPR “This story is one that needs to be told.”—Bust “Behold the Dreamers challenges us all to consider what it takes to make us genuinely content, and how long is too long to live with our dreams deferred.”—O: The Oprah Magazine “[A] beautiful, empathetic novel.”—The Boston Globe “A witty, compassionate, swiftly paced novel that takes on race, immigration, family and the dangers of capitalist excess.”—St. Louis Post-Dispatch “Mbue [is] a deft, often lyrical observer. . . . [Her] meticulous storytelling announces a writer in command of her gifts.”—Minneapolis Star Tribune
