**Making Lahore Modern** - William J. Glover 2008

Fifty years after the British annexed the Punjab and made Lahore its provincial capital, the city—once a prosperous Mughal center that had long since fallen into ruin—was transformed. British and Indian officials had designed a modern, architecturally distinct city center adjacent to the old walled city, administered under new methods of urban governance. In *Making Lahore Modern*, William J. Glover investigates the traditions that shaped colonial Lahore. In particular, he focuses on the conviction that both British and Indian actors who implemented urbanization came to share: that the material fabric of the city could lead to social and moral improvement. This belief in the power of the physical environment to shape individual and collective sentiments, he argues, links the colonial history of Lahore to nineteenth-century urbanization around the world. Glover highlights three aspects of Lahore's history that show this process unfolding. First, he examines the concepts through which the British understood the Indian city and envisioned its transformation. Second, through a detailed study of new buildings and the adaptation of existing structures, he explores the role of planning, design, and reuse. Finally, he analyzes the changes in urban imagination as evidenced in Indian writings on the city in this period. Throughout,

Glover emphasizes that colonial urbanism was not simply imposed; it was a collaborative project between Indian citizens and the British. Offering an in-depth study of a single provincial city, Glover reveals that urban change in colonial India was not a monolithic process and establishes Lahore as a key site for understanding the genealogy of modern global urbanism. William J. Glover is associate professor of architecture at the University of Michigan.

*Violence Against Women and Girls* - Jennifer L. Solotaroff 2014-09-04

This report documents the dynamics of violence against women in South Asia across the life cycle, from early childhood to old age. It explores the different types of violence that women may face throughout their lives, as well as the associated perpetrators (male and female), risk and protective factors for both victims and perpetrators, and interventions to address violence across all life cycle stages. The report also analyzes the societal factors that drive the primarily male — but also female — perpetrators to commit violence against women in the region. For each stage and type of violence, the report critically reviews existing research from Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka, supplemented by original analysis and select literature from outside the region. Policies and programs that address violence against women and girls are analyzed in order to highlight key actors and promising interventions. Finally, the report identifies critical gaps in research, program evaluations, and interventions in order to provide strategic recommendations for policy makers, civil society, and other stakeholders working to mitigate violence against women in South Asia.

**Directorate S** - Steve Coll 2019-02-05

Winner of the 2018 National Book Critics Circle Award for Nonfiction Longlisted for the 2018 National Book Award for Nonfiction From the Pulitzer Prize-winning author of *Ghost Wars*, the epic and enthralling story of America's intelligence, military, and diplomatic efforts to defeat Al Qaeda and the Taliban in Afghanistan and Pakistan since 9/11 Prior to 9/11, the United States had been carrying out small-scale covert operations in Afghanistan, ostensibly in cooperation, although often in direct opposition, with I.S.I., the Pakistani intelligence agency. While the US was trying to quell extremists, a highly secretive and compartmentalized wing of I.S.I., known as "Directorate S," was covertly training, arming, and seeking to legitimize the Taliban, in order to enlarge Pakistan's sphere of influence. After 9/11, when fifty-nine countries, led by the U. S., deployed troops or provided aid to Afghanistan in an effort to flush out the Taliban and Al Qaeda, the U.S. was set on an invisible slow-motion collision course with Pakistan. Today we know that the war in Afghanistan would falter badly because of military hubris at the highest levels of the Pentagon, the drain on resources and provocation in the Muslim world caused by the U.S.-led invasion of Iraq, and corruption. But more than anything, as Coll makes painfully clear, the war in Afghanistan was doomed because of the failure of the United States to apprehend the motivations and intentions of I.S.I.'s "Directorate S". This was a swirling and shadowy struggle of historic proportions, which endured over a decade and across both the Bush and Obama administrations, involving multiple secret intelligence agencies, a litany of incongruous strategies and tactics, and dozens of players, including some of the most prominent military and political figures. A sprawling American tragedy, the war was an open clash of

arms but also a covert melee of ideas, secrets, and subterranean violence. Coll excavates this grand battle, which took place away from the gaze of the American public. With unsurpassed expertise, original research, and attention to detail, he brings to life a narrative at once vast and intricate, local and global, propulsive and painstaking. This is the definitive explanation of how America came to be so badly ensnared in an elaborate, factional, and seemingly interminable conflict in South Asia. Nothing less than a forensic examination of the personal and political forces that shape world history, Directorate S is a complete masterpiece of both investigative and narrative journalism.

*Islam and Healing* - S. Alavi 2008-09-02

Traces the Islamic healing tradition's interaction with Indian society and politics as these evolved in tandem from 1600 to 1900, and demonstrates how an in-house struggle for hegemony can be as potent as external power in defining medical, social and national modernity. A pioneering work on the social and medical history of Indian Islam.

*Aerospace Sensors* - Alexander Nebylov 2012-11-20

Modern air and space craft demand a huge variety of sensing elements for detecting and controlling their behavior and operation. These sensors often differ significantly from those designed for applications in automobile, ship, railway, and other forms of transportation, and those used in industrial, chemical, medical, and other areas. This book offers insight into an appropriate selection of these sensors and describes their principles of operation, design, and achievable performance along with particulars of their construction. Drawn from the activities of the International Federation of Automatic Control (IFAC), especially its Aerospace Technical Committee, the book provides details on the majority of sensors for aircraft and many for spacecraft, satellites, and space probes. It is written by an international team of twelve authors representing four countries from Eastern and Western Europe and North America, all with considerable experience in aerospace sensor and systems design. Highlights include: • coverage of aerospace vehicle classification, specific design criteria, and the requirements of onboard systems and sensors; • reviews of airborne flight parameter sensors,

weather sensors and collision avoidance devices; • discussions on the important role of inertial navigation systems (INS) and separate gyroscopic sensors for aerospace vehicle navigation and motion control; • descriptions of engine parameter information collection systems, including fuel quantity and consumption sensors, pressure pick-ups, tachometers, vibration control, and temperature sensors; and • descriptions and examples of sensor integration.

**Makers of Modern India** - Ramachandra Guha 2013-10-14

Modern India is the world's largest democracy, a sprawling, polyglot nation containing one-sixth of all humankind. The existence of such a complex and distinctive democratic regime qualifies as one of the world's bona fide political miracles. Furthermore, India's leading political thinkers have often served as its most influential political actors—think of Gandhi, whose collected works run to more than ninety volumes, or Ambedkar, or Nehru, who recorded their most eloquent theoretical reflections at the same time as they strove to set the delicate machinery of Indian democracy on a coherent and just path. Out of the speeches and writings of these thinker-activists, Ramachandra Guha has built the first major anthology of Indian social and political thought. *Makers of Modern India* collects the work of nineteen of India's foremost generators of political sentiment, from those whose names command instant global recognition to pioneering subaltern and feminist thinkers whose works have until now remained obscure and inaccessible. Ranging across manifold languages and cultures, and addressing every crucial theme of modern Indian history—race, religion, language, caste, gender, colonialism, nationalism, economic development, violence, and nonviolence—*Makers of Modern India* provides an invaluable roadmap to Indian political debate. An extensive introduction, biographical sketches of each figure, and guides to further reading make this work a rich resource for anyone interested in India and the ways its leading political minds have grappled with the problems that have increasingly come to define the modern world.

**India's New Capitalists** - H. Damodaran 2008-06-25

**Secession and Security** - Ahsan I. Butt 2017-11-15

"The book is an excellent addition to the scholarly literature on subnational movements, both past and present, offering a range of insights to policymakers across the globe."—Ayesha Jalal, author of *The Struggle for Pakistan* "With judicious use of empirical evidence and rich case studies, Ahsan I. Butt makes a compelling case that states' responses to secessionist movements turn to a considerable degree on their external security environments."—S. Paul Kapur, author of *Jihad as Grand Strategy In Secession and Security*, Ahsan I. Butt argues that states, rather than separatists, determine whether a secessionist struggle will be peaceful, violent, or genocidal. He investigates the strategies, ranging from negotiated concessions to large-scale repression, adopted by states in response to separatist movements. Variations in the external security environment, Butt argues, influenced the leaders of the Ottoman Empire to use peaceful concessions against Armenians in 1908 but escalated to genocide against the same community in 1915; caused Israel to reject a Palestinian state in the 1990s; and shaped peaceful splits in Czechoslovakia in 1993 and the Norway-Sweden union in 1905. Using more than one hundred interviews and extensive archival data, Butt focuses on two main cases—Pakistani reactions to Bengali and Baloch demands for independence in the 1970s and India's responses to secessionist movements in Kashmir, Punjab, and Assam in the 1980s and 1990s. Butt's deep historical approach to his subject will appeal to policymakers and observers interested in the last five decades of geopolitics in South Asia, the contemporary Israeli-Palestinian conflict, and ethno-national conflict, separatism, and nationalism more generally.

*National Talent Search Exam. (For Class X)* - Dr. M.B.Lal & T.S.Jain 2010-09

**Revolutionary Afghanistan** - Beverley Male 2022-02-07

This book, first published in 1982, examines the reality of the so-called revolution in Afghanistan. It focuses on the career of Hafizullah Amin, considered in the West as a near-genocidal mass murderer, intent on establishing a personal fiefdom in Afghanistan. However, this book argues that he was a man struggling against impossible odds to preserve his country's independence and at the same time drag it into the twentieth century. He commanded such loyalty and support within the Afghanistan Communist Party and the armed forces that the Russians had to invade to get rid of him.

*Sorry I Kept You Waiting, Madam* - Vidal Sassoon 1968

God, Freud and Religion - Dianna T. Kenny 2015-03-05

Choice Essential Read Did God create man or did man create God? In this book, Dianna Kenny examines religious belief through a variety of perspectives - psychoanalytic, cognitive, neuropsychological, sociological, historical and psychiatric - to provide a coherent account of why people might believe in God. She argues that psychoanalytic theory provides a fertile and creative approach to the study of religion that attempts to integrate religious belief with our innate human nature and developmental histories that have unfolded in the context of our socialization and cultural experiences. Freud argued that religion is so compelling because it solves the problems of our existence. It explains the origin of the universe, offers solace and protection from evil, and

provides a blueprint about how we should live our lives, with just rewards for the righteous and due punishments for sinners and transgressors. Science, on the other hand, offers no such explanations about the universe or the meaning of our lives and no comfort for the unanswered longings of the human race. Is religion a form of wish-fulfilment, a collective delusion to which we cling as we try to fathom our place and purpose in the drama of cosmology? Can there be morality without faith? Are science and religion radically incompatible? What are the roots of fundamentalism and terror theology? These are some of the questions addressed in *God, Freud and Religion*, a book that will be of interest to psychoanalysts, psychologists and psychotherapists, students of psychology, psychoanalysis, philosophy and theology and all those with an interest in religion and human behaviour. Dianna Kenny is Professor of Psychology at the University of Sydney, Australia. She is the author of over 200 publications, including six books.

**Dr. Babasaheb Ambedkar, Writings and Speeches** - Bhimrao Ramji Ambedkar 1995

**The Children's Story** - James Clavell 2014-11-12

It was a simple incident in the life of James Clavell—a talk with his young daughter just home from school—that inspired this chilling tale of what could happen in twenty-five quietly devastating minutes. He writes, "The Children's Story came into being that day. It was then that I really realized how vulnerable my child's mind was —any mind, for that matter—under controlled circumstances. Normally I write and rewrite and re-rewrite, but this story came quickly—almost by itself. Barely three words were changed. It pleases me greatly because I kept asking the questions... Questions like, What's the use of 'I pledge allegiance' without understanding? Like Why is it so easy to divert thoughts? Like What is freedom? and Why is so hard to explain? The Children's Story keeps asking me all sorts of questions I cannot answer. Perhaps you can—then your child will...."

**Playing It My Way** - Sachin Tendulkar 2014-11-06

The greatest run-scorer in the history of cricket, Sachin Tendulkar retired in 2013 after an astonishing 24 years at the top. The most celebrated Indian cricketer of all time, he received the Bharat Ratna Award - India's highest civilian honour - on the day of his retirement. Now Sachin Tendulkar tells his own remarkable story - from his first Test cap at the age of 16 to his 100th international century and the emotional final farewell that brought his country to a standstill. When a boisterous Mumbai youngster's excess energies were channelled into cricket, the result was record-breaking schoolboy batting exploits that launched the career of a cricketing phenomenon. Before long Sachin Tendulkar was the cornerstone of India's batting line-up, his every move watched by a cricket-mad nation's devoted followers. Never has a cricketer been burdened with so many expectations; never has a cricketer performed at such a high level for so long and with such style - scoring more runs and making more centuries than any other player, in both Tests and one-day games. And perhaps only one cricketer could have brought together a shocked nation by defiantly scoring a Test century shortly after terrorist attacks rocked Mumbai. His many achievements with India include winning the World Cup and topping the world Test rankings. Yet he has also known his fair share of frustration and failure - from injuries and early World Cup exits to stinging criticism from the press, especially during his unhappy tenure as captain. Despite his celebrity status, Sachin Tendulkar has always remained a very private man, devoted to his family and his country. Now, for the first time, he provides a fascinating insight into his personal life and gives a frank and revealing account of a sporting life like no other.

**Indian National Congress and the Struggle for Freedom, 1885-1947** - Amales Tripathi 2014-03-03

This volume presents an analytical history of India's struggle for freedom and the role played in it by the Indian National Congress. It provides a comprehensive account of the Independence movement, encompassing events such as the extremist-moderate split in the Congress, Morley-Minto reforms, Round Table Conferences, the Quit India Movement; and the Partition. Drawing on statistical analysis and exhaustive research, it examines the impact of prevailing domestic and international economic conditions on the evolution of the politics of the Congress, the Muslim League, as well as the Indian revolutionary, socialist, and communist parties. The book also throws light on the complex interplay of power politics between the Centre, the States, and the various grass-roots organizations on one hand and the push and pull of Hindu-Muslim communal politics on the other. This is the first English translation of the Bengali classic *Swadhinata Sangrame Bharatiya Jatiya Congress: 1885-1947* (first published in 1990) by the late Professor Amales Tripathi, an eminent scholar and a renowned historian. This translation also carries a foreword by Dr Rudrangshu Mukherjee.

**Philosophy in Pakistan** - Naeem Ahmad 1998

**Intellectuals in the Modern Islamic World** - Stephane A. Dudoignon 2006-09-27

Incorporating a rich series of case-studies covering a range of geographical areas, this collection of essays examines the history of modern intellectuals in the Islamic world throughout the twentieth century. The contributors reassess the typology and history of various scholars, providing significant diachronic analysis of the different forms of communication, learning, and authority. While each chapter presents a separate regional case, with an historically and geographically different background, the volume discloses commonalities, similarities and intellectual echoes through its comparative approach. Consisting of two parts, the volume focuses first on *al-Manar*, the influential journal published between 1898 and 1935 that inspired much imagination and arguments among local intelligentsias all over the Islamic world. The second part discusses the formation, transmission and transformation of

learning and authority, from the Middle East to Central and Southeast Asia. Constituting a milestone in comparative studies of the modern Islamic world, this book highlights the range of and transformation in the role of intellectuals in Islamic societies.

*Wounded Tiger* - Peter Osborne 2015-04-09

THE WISDEN BOOK OF THE YEAR and THE CROSS SPORTS BOOK AWARDS CRICKET BOOK OF THE YEAR. 'The most complete, best researched, roses-and-thorns history of cricket in Pakistan' Independent 'As good as it's likely to get' Guardian The nation of Pakistan was born

out of the trauma of Partition from India in 1947. Its cricket team evolved in the chaotic aftermath. Initially unrecognised, underfunded and weak, Pakistan's team grew to become a major force in world cricket. Since the early days of the Raj, cricket has been entwined with national identity and Pakistan's successes helped to define its status in the world. Defiant in defence, irresistible in attack, players such as A.H.Kardar, Fazal Mahmood, Wasim Akram and Imran Khan awed their contemporaries and inspired their successors. The story of Pakistan cricket is filled with triumph and tragedy. In recent years, it has been threatened by the same problems affecting Pakistan itself: fallout from the 'war on terror', sectarian violence, corruption, crises in health and education, and a shortage of effective leaders. For twenty years, Pakistan cricket has been stained by the scandalous behaviour of the players involved in match-fixing. After 2009, the fear of violence drove Pakistan's international cricket into exile. But Peter Osborne's narrative is also full of hope. For all its troubles, cricket gives all Pakistanis a chance to excel and express themselves, a sense of identity and a cause for pride in their country. Packed with first-hand recollections, and digging deep into political, social and cultural history, *Wounded Tiger* is a major study of sport and nationhood.

[History of Civilizations of Central Asia: Development in contrast : from the sixteenth to the mid-nineteenth century](#) - Ahmad Hasan Dani  
2003-01-01

The period treated in this volume is highlighted by the slow retreat of nomadism and the progressive increase of sedentary polities owing to a fundamental change in military technology: Furthermore, this period certainly saw a growing contrast in the pace of economic and cultural progress between Central Asia and Europe. The internal growth of the European economies and the influx of silver from the New World gave Atlantic Europe an increasingly important position in world trade and caused a major shift in inland Asian trade. Thus, 1850 marks the end of the total sway of pre-modern culture as the extension of colonial dominance was accompanied by the influx of modern ideas.

[Dreaming of Hope Street](#) - Eder Holguin 2013-11-19

From *Living On The Street To Becoming A Successful Entrepreneur* Today, nearing forty, Eder is a successful New York entrepreneur in the online media industry and CEO of a digital marketing company. However, as a kid in the mid '80s, he fled a frightening home life and wound up living for years on the streets of Medellin, Colombia. It was a dicey existence, in what was described during this era as the 'most dangerous place on earth'. where international drug lords like Pablo Escobar ruled, where you could be shot for looking at the wrong guy the wrong way. *Dreaming of Hope Street* is the story of how he went from living in the streets to become a successful entrepreneur. The book is in the classic Coming-of-Age tradition, and proves that, though life can be ugly and brutal, even the most disadvantaged can overcome the odds and find happiness, their own Hope Street. The narrative steps along and rings with authenticity; it's often sad, shocking, but ultimately uplifting and motivational. Scroll up and grab a copy today.

**The Future of Pakistan** - Stephen P. Cohen 2011-10-01

With each passing day, Pakistan becomes an even more crucial player in world affairs. Home of the world's second-largest Muslim population, epicenter of the global jihad, location of perhaps the planet's most dangerous borderlands, and armed with nuclear weapons, this South Asian nation will go a long way toward determining what the world looks like ten years from now. The Future of Pakistan presents and evaluates several scenarios for how the country will develop, evolve, and act in the near future, as well as the geopolitical implications of each. Led by renowned South Asia expert Stephen P. Cohen, a team of authoritative contributors looks at several pieces of the Pakistan puzzle. The book begins with Cohen's broad yet detailed overview of Pakistan, placing it within the context of current-day geopolitics and international economics. Cohen's piece is then followed by a number of shorter, more tightly focused essays addressing more specific issues of concern. Cohen's fellow contributors hail from America, Europe, India, and Pakistan itself, giving the book a uniquely international and comparative perspective. They address critical factors such as the role and impact of radical groups and militants, developments in specific key regions such as Punjab and the rugged frontier with Afghanistan, and the influence of—and interactions with—India, Pakistan's archrival since birth. The book also breaks down relations with other international powers such as China and the United States. The all-important military and internal security apparatus come under scrutiny, as do rapidly morphing social and gender issues. Political and party developments are examined along with the often amorphous division of power between Islamabad and the nation's regions and local powers. Uncertainty about Pakistan's trajectory persists. The Future of Pakistan helps us understand the current circumstances, the relevant actors and their motivation, the critical issues at hand, the different outcomes they might produce, and what it all means for Pakistanis, Indians, the United States, and the

entire world. Praise for the work of Stephen P. Cohen The Idea of Pakistan: "The intellectual power and rare insight with which Cohen breaks through the complexity of the subject rivals that of classics that have explained other societies posing a comparable challenge to understanding."— Middle East Journal India: Emerging Power: "In light of the events of September 11, 2001, Cohen's perceptive, insightful, and balanced account of emergent India will be essential reading for U.S. foreign policymakers, scholars, and informed citizens."— Choice

**The Individual and Society in Islam** - Abdelwahab Bouhdiba 1998-01-01

This volume, the first of six to be published, studies fundamental values of Islam, along with the nature of rights and the responsibilities in a general context. The authors analyse the development of social thought and morality in Islam, and ways in which they are enforced through the family and education. Particular attention is paid to the status of women, children, youth and the socially excluded. Several chapters broach specially Islamic approaches to economics, government and justice. A world religion since its inception in the seventh century A.D., Islam is today seeking vigorous answers to contemporary problems through its multi-faceted history. Issues of poverty and wealth, inequality and demands for political expression, and respect for diversity in a difficult world of conformity are dealt with in this series. The study is organized along thematic rather than chronological lines and thus it is not necessary to read the volumes in order. Volume II is in fact the first to have been published. Volume IV is forthcoming end 2002, volume V mid 2003 and volumes III and VI in 2004. This volume, the first of six to be published, studies fundamental values of Islam, along with the nature of rights and the responsibilities in a general context. The authors analyse the development of social thought and morality in Islam, and ways in which they are enforced through the family and education. Particular attention is paid to the status of women, children, youth and the socially excluded. Several chapters broach specially Islamic approaches to economics, government and justice.
