La Citadelle intérieure - Pierre Hadot 2014-04-01

En écrivant ses Pensées, Marc Aurèle bâtit en lui-même une citadelle inaccessible aux troubles des passions. Mais cette citadelle, où règne la sérénité, n'est pas une tour d'ivoire dans laquelle il se réfugierait en un égoïsme transcendant; elle est bien plutôt à la fois le haut lieu, d'où l'on accède à un immense champ de vision, et la base d'opérations qui permet d'agir au loin. Autrement dit, les Pensées sont le livre d'un homme d'action, qui cherche la sérénité, parce qu'elle est la condition indispensable de l'efficacité, et pour qui l'action humaine n'a de valeur profonde et durable que si elle s'insère

dans la perspective du Tout de l'Univers et de la communauté de tous les hommes. Mais une telle attitude n'est autre que le stoïcisme lui-même, précisément sous la forme sous laquelle Epictète l'avait révélé à Marc Aurèle. Lorsque l'empereur s'efforce dans son livre de pratiquer trois disciplines fondamentales: voir la réalité telle qu'elle est, en se libérant de tout préjugé passionnel, accepter avec amour les événements tels qu'ils résultent du cours général de la Nature, agir au service de la communauté humaine, il ne fait rien d'autre que de s'exercer dans les trois parties de la philosophie telles qu'Epictète les avait définies. Les Pensées s'organisent autour de ce schéma ternaire. C'est pourquoi la présente introduction aux Pensées de Marc Aurèle pourra être lue en un certain sens comme une introduction au stoïcisme antique. N'y aurait-il pas finalement un stoïcisme éternel qui, à travers le temps et l'espace, serait l'une des attitudes possibles de la

conscience humaine? Pierre Hadot est depuis 1991 professeur honoraire au Collège de France. Ses recherches se sont concentrées tout d'abord sur les rapports entre hellénisme et christianisme, puis sur la mystique néoplatonicienne et la philosophie d'époque hellénistique. Elles se sont maintenant orientées vers une description générale du phénomène spirituel que représente la philosophie.

Citadelle - Antoine de Saint-Exupéry 2000

Ces notes, retrouvées en désordre, après la mort de l'auteur, résultent d'une réflexion personnelle qui tente d'esquisser une philosophie de vie, par-delà les conflits de l'homme. Rédigée à la première personne, cette oeuvre, qui évoque un prince du désert en quête de sagesse, utilise la parabole, la métaphore ou l'allégorie et prend, parfois, des résonances bibliques.

Art of the Caribbean - Rebecca Hinson 2017-11

Cienfuegos Architecture interprets the architecture of Cuba's sugar barons, which was influenced by Roman, French, and Moorish architecture. Carnival Masks explores the fantastic costumes of the Dominican celebration. Dominicans celebrate their African and Taínos heritages. Masked characters of carnival celebrate the past and present of the Dominican people.

Jíbaros celebrates the Puerto

Rican pioneers who provided food for all. Big Puerto Rican plantations chose to cultivate sugar, tobacco, and coffee exports. Poor, illiterate country farmers, jíbaros, cultivated produce and raised livestock to feed the people. Within the soul of the jíbaro is the rhythm of Africa, Europe, and the Americas. From the land it came. It is the beat of the jíbaro's heart. Independence illustrates how a society of slaves became the independent state of Haiti. Toussaint Louverture led the black army to win the island for France. Later Napoleon sent Leclerc to reinstate slavery. After Leclerc rid the island of Louverture, Jean-Jacques Dessalines led the black army to victory against the French, establishing the first free black state of former slaves, giving hope to every black slave of the world, that they, too, someday might be free. Francisco Oller reveals the paintings that helped define a national Puerto Rican identity. Oller painted the mountains, the valleys and plains, the fruits of the land,

plantains, coconuts, palm tree fruit, and pineapples. At a baquiné, jíbaros keep vigil all night, celebrating at the wake of the little angel. Francisco Oller painted best what he loved most, his island home, Puerto Rico. Citadelle La Ferrière tells the story of the largest fort of North America. The story is intertwined with the birth of a slave child, Henri Christophe. He was crowned King of the Kingdom of Haiti where he built the Citadelle La Ferrière to withstand the threat of French invasion that would bring slavery back to Haiti. This fortress is a testament to the black slaves who seized their liberty. Buried inside lies the slave child who rose up to become a king.

Citadelle la Ferrière -

Rebecca Hinson 2017-11-24
Citadelle La Ferrière and Sitadèl Laferyè tell the story of the largest fort of North America. The story is intertwined with the birth of a slave child, Henri Christophe. At seven years of age, he served a mason. Later he served a French soldier and an innkeeper from whom he would buy his freedom. He helped Toussaint Louverture defeat the English and the Spanish in battle, claiming the island for France. Later he helped Jean Jacques Dessalines rid the island of the French once and for all. He was crowned King of the Kingdom of Haiti where he built the Citadelle La Ferrière to withstand the threat of French invasion that would bring slavery back to Haiti. They say he often worked on the Citadelle through the night, accomplishing more in one night than all the other workers did all day. This fortress is a testament to the black slaves who seized their liberty. Buried inside lies the slave child who rose up to become a king.
