Last-Wicket Stand - Richard
Clarke 2020-07-27

Last Wicket Stand is an honest account of one man's search for meaning, purpose and reinvention, both for himself and the sport he loves. At the start of the 2020 season, English county cricket faced radical change. The Hundred

was coming, introducing new 'franchises' playing a new format in the hope of attracting much-needed new audiences. Its inception was controversial. Advocates argued only drastic action could halt the decline of cricket in the UK. Opponents feared it would undermine the very fabric of the much-loved county game. One devoted Essex fan set out to document the last summer before the big change. He toured the country in 2019 chronicling this often-

ignored sport, from the gentle lullaby of the County Championship to the bawdy singalong of T20 Finals Day. Richard Clarke was in his 50th year, at a personal crossroads and fearing his best days may be long gone. Change vs tradition, growth vs security, money vs meaning - these perennial struggles lie at the heart of this absorbing and revealing journey of redemption.

Look at More - Andy Stefanovich 2011-03-03
Why does real innovation elude so many companies, including those with the best technology, the cheapest resources, and even chief innovation officers? The problem is that they lack inspiration. Inspiration—as defined and outlined in this book—is a discipline (not to be

confused with the real but short-lived burst of energy that sometimes occurs after quarterly earnings reports or the arrival of a charismatic new leader). It is a systematic approach that, when applied consistently, brings long-term, sustainable results. Look At More teaches you how to harness inspiration by thinking differently—and to encourage others to do the same. Designed to be an individual and organizational hands-on guide, Look At More focuses on the front end of the Inspiration-Creativity-Innovation continuum. Using Stefanovich's proven LAMSTAIH approach (Look At More Stuff, Think About It Harder), leaders and employees can develop the practical skills, leadership behavior, and cultural mindset to consistently create ideas and drive innovation. Built on the principles of the five M's for unleashing creativity within an organization, Look At More explores: MOOD: The attitudes, feelings, and emotions that create the context for

inspiration and creativity
MINDSET: The intellectual foundation and baseline capacity each of us has for getting inspired and thinking differently
MECHANISMS: The tools and processes of creativity at work
MEASUREMENT: The qualitative and quantitative performance and the guidance for giving critical feedback
MOMENTUM: The active championing of celebrating inspiration and creativity to create a self-reinforcing cycle for growing innovation
Together the five M's can act as a diagnostic tool and a guide for inspiring individuals, empowering teams, and transforming organizations to become true models of innovation. For more information, please visit www.prophet.com/lookatmore

Digital Sisterhood - Ananda Kiamsha Madelyn Leeke
2013-09-23

Ananda Kiamsha Madelyn Leeke became a pioneer in the digital universe twenty-seven years ago, when she logged in to the LexisNexis research service as a first-year law student at Howard University School of Law. She was immediately smitten with what the World Wide Web could do. Later, while attending the UN Fourth World Conference on Women in Beijing, China, in 1995, Leeke found herself in an Internet café, where she experienced an interaction that changed her life. Over time,

through interactions and conversations both online and in-person, Leeke developed the concept of "digital sisterhood." Embracing this revolutionary concept led to a complete career reinvention that finally allowed her to embrace her enormous creative spirit. She found in her digital sisters true "sheroes" and virtual mentors. Her blogging and social media adventures highlight the lessons she learned in the process, the reasons she launched the Digital Sisterhood Network, and the experiences that caused her to adopt what she terms the "fierce living" commitments. In her memoir, Leeke details her journey, sharing experiences and insights helped her and her digital sisters use the Internet as a self-discovery tool and identifying leadership archetypes that shaped her role as a social media leader.

A Fool's Errand - Lonnie G. Bunch III
2019-09-24
Founding Director Lonnie Bunch's deeply personal tale of the triumphs and challenges of bringing the Smithsonian

National Museum of African American History and Culture to life. His story is by turns inspiring, funny, frustrating, quixotic, bittersweet, and above all, a compelling read. In its first four months of operation, the Smithsonian National Museum of African American History and Culture surpassed one million visits and quickly became a cherished, vital monument to the African American experience. And yet this accomplishment was never assured. In *A Fool's Errand*, founding director Lonnie Bunch tells his story of bringing his clear vision and leadership to realize this shared dream of many generations of Americans. Outlining the challenges of site choice, architect selection, building design, and the compilation of an unparalleled collection of African American artifacts, Bunch also delves into his personal struggles--especially the stress of a high-profile undertaking--and the triumph of establishing such an institution without mentors or

guidebooks to light the way. His memoir underscores his determination to create a museum that treats the black experience as an essential component of every American's identity. This inside account of how Bunch planned, managed, and executed the museum's mission informs and inspires not only readers working in museums, cultural institutions, and activist groups, but also those in the nonprofit and business worlds who wish to understand how to succeed--and do it spectacularly--in the face of major political, structural, and financial challenges.

D. 2018-11-17 Applying intellect, insight, and intuition to promote school-wide transformation for educators through interpersonal reflection and hands-on tools. This is no one-size-fits-all approach to education that provides a formula or a practical how-to guide. The truths found in this book are about applying research-based best practices to the processes that lie outside of academia. Readers will find themselves getting out their pens and highlighters to write in the margins and apply personal reflection to the teachings. The three Is—intellect, insight, and intuition—are tools for educators to find personal growth and development inside the structure of the school system so that they can promote school-wide transformation. When educators stop fighting the

system and instead look inward for the answers, they will begin to see the improved student achievement and involvement they crave. Readers will walk away with: — greater self-awareness that will improve the classroom and educational landscape around them, — improved self-appreciation that will fuel empathy in the classroom and workplace, — clarity about the origin and influence of their beliefs that will help them combat negative beliefs and take advantage of positive beliefs, and — better decision-making skills developed through a contemplative approach.

The Customer Copernicus -

Charlie Dawson 2021-05-17

Some companies are great for customers - not only do they care but they change whole markets to work better for the customers they serve. Think of Amazon, easyJet and Sky. They make things easier and improve what really matters - obvious, surely? They have also enjoyed huge business success, growing and making plenty of money. The Customer Copernicus answers the question that follows - if it's obvious and attractive why is it so rare? And then it answers a second question, because Tesco, O2 and Wells Fargo were like this once. Why, having mastered it, would you ever stop? Because all three did, and two ended up in court. The Customer Copernicus explains how to become and how to stay customer-led. Essential reading for leaders and teams who want their organisations to stay competitive by developing a

more purposeful and innovative culture.

Race Across the World - John Smailes 2018-10-24

In 1968, ninety-eight competitors stormed out of London on the world's greatest automotive adventure, the London to Sydney Marathon, the most ambitious and epic car race ever staged. Four weeks later they arrived in Sydney-or at least half of them did. The others lay in ruin along its 10,000-mile route. Unimaginable now in either concept or execution, the marathon captured the rapt attention of the countries through which it passed, and of the world, as it created front-page news. It was more than a car race, more than a rally, more than the trials that opened up outback Australia only a decade before: it was the world's most gruelling test of driver and vehicle. For Australians, the race became a focal point of the rivalry

between local car-manufacturing giants Holden and Ford, as the Monaro Coupe and the iconic Falcon GT went head to head. Neither was to win, but the story of their duel is motor-sporting legend. John Smailes was a young journalist at the time, covering the race for the Sydney Daily Telegraph. Fifty years after this extraordinary race was run, John's dramatic, compelling and utterly fascinating story-drawing on his own first-hand, eyewitness account and enhanced by in-depth interviews over the intervening years with all the race's key participants-brings the marathon vividly to life.

Mods, Minis, and Madmen -

D. Richard Truman 2010-12-06

A nostalgic romp through the sixties that changed everyones lives forever, Mods, Minis, and Madmen presents a story of remarkable achievement during the twentieth centurys most significant cultural reboot. It celebrates a wondrous age drugged by the can-do attitude of youth. Revolutionary London was the birthplace of the boutique, and Mary Quant introduced the mini-skirt named after a car. John Stephen introduced heart-

racing male boutiques on Kings Road that soon carved out a global niche. Lesley Hornby also known as Twiggy, the Cockney dolly birdstrutted her popsicle legs while touting mini-fashions. East Londoner Vidal Sassoon gave new life to tousled hair with a look that is still with us today. And of course, British sounds, led by the Beatles, hammered the charts in every country able to tune in. The lyrics spoke to us and seemed to sympathize with our turmoil, revealing an honest understanding of life as it would be, up to the age of sixty-four. It was a booster shot that pumped up everyone living in the sixties, and their tales would be told decades later. Mods, Minis, and Madmen is the tale of a writer and his disciples from the New World arriving in the old, just as the explosion was about to take place.
