**In Mortal Combat** - John Toland 2016-05-31

A history of the Korean War with soldier's-eye views from both sides, by the Pulitzer Prize-winning author of *The Rising Sun and Infamy*. Pulitzer Prize-winning author John Toland reports on the Korean War in a revolutionary way in this thoroughly researched and riveting book. Toland pored over military archives and was the first person to gain access to previously undisclosed Chinese records, which allowed him to investigate Chairman Mao's direct involvement in the conflict. Toland supplements his captivating history with in-depth interviews with more than two hundred American soldiers, as well as North Korean, South Korean, and Chinese combatants, plus dozens of poignant photographs, bringing those who fought to vivid life and honoring the memory of those lost. *In Mortal Combat* is comprehensive in its discussion of events deemed controversial, such as American brutality against Korean civilians and allegations of American use of biological warfare. Toland tells the dramatic account of the Korean War from start to finish, from the appalling experience of its POWs to Mao's prediction of MacArthur's Inchon invasion. Toland's account of the "forgotten war" is a must-read for any history aficionado.

**The Ford Transit Story** - Giles Chapman 2011-10-01

'White Van Man' is a larger-than-life presence on Britain's road, but he's no fool. Given the choice, he inevitably opts for a Ford Transit...and indeed he has been doing so, more than for any other van, for the past 45-plus years. Why? Because the Transit better suits the needs of working drivers than anything else around. Once, vans were mean, narrow, slow and uncomfortable. But in the early 1960s, Ford pooled its European and American experience to create a van that not only did the job - no matter what its final specification, power or payload - but did it with broad-shouldered muscle and a driver-friendly environment. Ford has constantly refreshed the Transit, carefully improving every aspect of it, but has never diminished its totally fit-for-purpose character. And it remains a mainstay of Britain's motor industry, no matter what. Here, award-winning writer Giles Chapman tells the whole, amazing story.

*The Jackaroo* - Owen Genty 2006-01-01

Jackaroo; n. a male station hand. That is according to the "Australian Slang Dictionary" whereas the Macquarie Dictionary gives a more realistic version. "A jack of all trades". Certainly a jackaroo is far more than 'a male station hand', which will be evident as the reader moves through this recount of the writer's five years of 'Station Management Apprenticeship"', possibly a more precise definition of the word. ('Station' being a large sheep and/or cattle property/ranch). The origin of the word 'jackaroo' has been debated as long as the word has been in existence, but the most popular belief is that early English migrants, who worked on stations in the Australian Outback, were given the name of "Jack Raw", being raw to the ways of the Australian bush. One such English migrant, whose name was Jack Carew may have had an influence on the foundation of the word. There is also the more recent female counterpart, known as a jillaroo. It is however,

generally agreed that the word has no connection with the famed Australian icon, the kangaroo.

*Affective Health and Masculinities in South Africa* - Hans Reihling 2020-04-24

*Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
