The Handbook of Contemporary Indigenous Architecture -

Elizabeth Grant 2018-06-26

This Handbook provides the first comprehensive international overview of significant contemporary Indigenous architecture, practice, and discourse, showcasing established and emerging Indigenous authors and practitioners from Australia, Aotearoa New Zealand, the Pacific Islands, Canada, USA and other countries. It captures the breadth and depth of contemporary work in the field, establishes the historical and present context of the work, and highlights important future directions for research and practice. The topics covered include Indigenous placemaking, identity, cultural regeneration and Indigenous knowledges. The book brings together eminent and emerging scholars and practitioners to discuss and compare major projects and design approaches, to reflect on the main issues and debates, while enhancing theoretical understandings of contemporary Indigenous architecture. The book is an indispensable resource for scholars, students, policy makers, and other professionals seeking to understand the ways in which Indigenous people have a built tradition or aspire to translate their cultures into the built environment. It is also an essential reference for academics and practitioners working in the field of the built environment, who need up-to-date knowledge of current practices and discourse on Indigenous peoples and their architecture.

Australian Architecture Now - Davina Jackson 2000

Having just completed the most significant five-year construction phase in the nation's history, Australian architecture has moved into the world spotlight. During the 1994-99 boom creative vigor was palpable, confidence surged and the entire continent became endowed with a new sense of architectural independence. Because it scans a diverse and momentary scene instead of recording a longer continuum of major achievements, *Australian Architecture Now* is an unusual history book. It presents two essays, 21 case studies of outstanding public and domestic projects, and in several brief chapters compares selected buildings according to similarities of either genre or style. Close examination reveals surprising evidence that Australian architecture more often reflects the personal styles and attitudes of its creators than the poetic ideal of a unique sense of place. Architects featured include Denton Corker Marshall, Harry Seidler, Gabriel Poole, Rex Addison, Peter Stutchbury, Cox Sanderson Ness, Nonda Katsalidis, Sean Godsell, Alexander Tzannes, and more.

Kozier & Erb's Fundamentals of Nursing Australian Edition - Audry Berman 2014-12-01

Kozier and Erb's *Fundamentals of Nursing* prepares students for practice

in a range of diverse clinical settings and help them understand what it means to be a competent professional nurse in the twenty-first century. This third Australian edition has once again undergone a rigorous review and writing process. Contemporary changes in the regulation of nursing are reflected in the chapters and the third edition continues to focus on the three core philosophies: Person-centred care, critical thinking and clinical reasoning and cultural safety. Students will develop the knowledge, critical thinking and clinical reasoning skills to deliver care for their patients in ways that signify respect, acceptance, empathy, connectedness, cultural sensitivity and genuine concern.
