Swans of the Kremlin - Christina Ezrahi 2012-11-30
Classical ballet was perhaps the most visible symbol of aristocratic culture and its isolation from the rest of Russian society under the tsars. In the wake of the

October Revolution, ballet, like all of the arts, fell under the auspices of the Soviet authorities. In light of these events, many feared that the imperial ballet troupes would be disbanded. Instead, the Soviets attempted to mold the former imperial ballet to suit their revolutionary cultural agenda and employ it to reeducate the masses. As Christina Ezrahi's groundbreaking study reveals, they were far from successful in this ambitious effort to gain complete control over art. *Swans of the Kremlin* offers a fascinating glimpse at the collision of art and politics during the volatile first fifty years of the Soviet period. Ezrahi shows how the producers and performers of Russia's two major troupes, the Mariinsky (later Kirov) and the Bolshoi, quietly but effectively resisted Soviet cultural hegemony during this period. Despite all controls put on them, they managed to maintain the classical forms and traditions of their rich artistic past and to further

develop their art form. These aesthetic and professional standards proved to be the power behind the ballet's worldwide appeal. The troupes soon became the showpiece of Soviet cultural achievement, as they captivated Western audiences during the Cold War period. Based on her extensive research into official archives, and personal interviews with many of the artists and staff, Ezrahi presents the first-ever account of the inner workings of these famed ballet troupes during the Soviet era. She follows their struggles in the postrevolutionary period, their peak during the golden age of the 1950s and 1960s, and concludes with their monumental productions staged to celebrate the fiftieth anniversary of the revolution in 1968.

Charlie Chaplin's Last Dance - Fabio Stassi
2014-04-03

'A day without laughter is a day wasted.' It is Christmas Day when Charlie Chaplin receives a visit from Death. The great actor is 82 years old, but not yet ready to face the final curtain. Desperate to see his teenage son grow up, the actor strikes a deal: if he manages to make Death laugh, he will win an extra year of life. As he awaits his final, fatal encounter, Chaplin composes an impassioned letter to his son, in which he attempts to tell him about his past, from his impoverished childhood in England (with an alcoholic father and a mother who went mad) to the heights of success on the silver screen in America, via stints in the circus and vaudeville, and odd jobs as a newspaper hawker, printer,

boxer and embalmer. As well as being the story of the evolution of a comic genius, this is the story of the evolution of cinema and how a beam of light on a white screen fired the imagination of an entire nation. As in his silent films, Charlie's adventures are simultaneously tragic and comic. The narrative flickers at a frenetic clip from false starts and early failures to eventual triumph in the magical moment when - before the eyes of a stupefied film crew - Charlie became the Tramp: with a little moustache, a shuffling slantwise walk, a cane and a dusty bowler hat, one of the most iconic figures of the golden age of cinema was born.

Introduction to Modern Dance

Techniques - Joshua Legg 2011

Bringing together all of the major modern dance techniques from the last 80 years, this engaging account is the first of its kind. The informative discussion starts by mapping the historical

development of modern dance: in the late 19th century, a new dance emerged—not yet known as modern dance—that rejected social strictures and ballet as well. With insight into the personalities and purposes of modern dance's vanguard—including Martha Graham, Lester Horton, José Limón, and Merce Cunningham—this compilation provides a comparative approach that will enable students to discern which technique best suits them and dispel the idea that there is a single, universal modern dance technique. There are also ideas for experimentation so that students can begin developing an aesthetic sense for not only what is pleasing to their artistic eye, but also for what technical ideas are exciting while their own body is in motion. Sample lessons are included for teachers to incorporate the text into courses.
