Innovations in Coffee Quality - Daneysa Kalschne  
2020

"Innovation in Coffee Quality presents recent contributions regarding the quality of the raw coffee material, the commercial coffees, and the sensory attributes of the coffee beverages. Modifications to industrial processes are proposed to use defective coffee beans.

Traditional methods of sensory evaluation of coffee are compared with new methods. Advanced sensory analysis such as Flash Profile and Temporal Dominance of Sensations have been applied to assess sensory properties of coffee, proving effective in identifying sensory attributes in cold coffee beverage, for example. Other sensory tests, such as SCA, are efficient to

evaluate the sensorial quality of coffee brews in the preparation of special coffees and blends of Arabica and Robusta species. From an industrial point of view, computer vision system is a remarkably interesting technique for future applications in coffee sector. Thus, methods employing image analysis obtained from smartphone with application of projection pursuit analysis to determine the quality of raw material, replacing traditional sensory testing are also described. This could also be an alternative method to evaluate the raw material online in coffee processes. A fast method based on the Vis-NIR spectrum and chemometrics for quality control of commercial roasted coffee is presented, in a less wasteful and more ecofriendly direction. Concerning to the health of coffee consumers, the new demands for conscious coffee consumption are discussed, and the beneficial effect of high-quality coffee due to the presence of antioxidant compounds in instant coffee is evaluated. In this way,

Innovations in coffee quality brings on innovative methods applied to monitoring the quality of coffee, being fundamental for new researchers and students who seek expressive advances in coffee science"--

**Fruit Trees and Useful Plants in Amazonian Life** - Patricia Shanley 2011

This publication is a testament to the potential of integrating traditional and scientific knowledge of both local communities and academic and development professionals alike. It also serves as a reminder to the scientific community that science should be shared with local people and not confined to journals and closed circles of technical experts. Scientists and forest-reliant communities are geographically and conceptually distant. Scientific findings are rarely shared with local people and locals are infrequently consulted regarding the species and landscapes they have known for generations. To bridge this divide, this book weaves together the voices of farmers and scientists; hunters and

policy makers; midwives and musicians. From Brazil nuts and Cat's claw to Copaiba and Titica, this book shares a wealth of information on a wide range of plant species that comes only from the close collaboration between local peoples and researchers.

**Reclaiming the Discarded** - Kathleen M. Millar 2018-02-06

In *Reclaiming the Discarded* Kathleen M. Millar offers an evocative ethnography of Jardim Gramacho, a sprawling garbage dump on the outskirts of Rio de Janeiro, where roughly two thousand self-employed workers known as catadores collect recyclable materials. While the figure of the scavenger sifting through garbage seems iconic of wageless life today, Millar shows how the work of reclaiming recyclables is more than a survival strategy or an informal labor practice. Rather, the stories of catadores show how this work is inseparable from conceptions of the good life and from human struggles to realize these visions within precarious conditions of urban poverty. By approaching the

work of catadores as highly generative, Millar calls into question the category of informality, common conceptions of garbage, and the continued normativity of wage labor. In so doing, she illuminates how waste lies at the heart of relations of inequality and projects of social transformation.

**Becoming Brazilians** - Marshall C. Eakin  
2017-07-25

This book traces the rise and decline of Gilberto Freyre's vision of racial and cultural mixture (mestiçagem - or race mixing) as the defining feature of Brazilian culture in the twentieth

century. Eakin traces how mestiçagem moved from a conversation among a small group of intellectuals to become the dominant feature of Brazilian national identity, demonstrating how diverse Brazilians embraced mestiçagem, via popular music, film and television, literature, soccer, and protest movements. The Freyrean vision of the unity of Brazilians built on mestiçagem begins a gradual decline in the 1980s with the emergence of an identity politics stressing racial differences and multiculturalism. The book combines intellectual history, sociological and anthropological field work, political science, and cultural studies for a wide-ranging analysis of how Brazilians - across social classes - became Brazilians.

**The Brazilian-American Alliance, 1937-1945**  
- Frank D. McCann Jr. 2015-03-08

Getúlio Dornelles Vargas established his dictatorship in Brazil in 1937, and from 1938 through 1940 American diplomats and military planners were preoccupied with the possibility

that Brazil might ally herself with Nazi Germany. Such an alliance would have made fortress America vulnerable and closed the South Atlantic to Allied shipping. Fortunately for America, Brazil eventually joined the Allies and American engineers turned Northeast Brazil into a vast springboard for supplies for the war fronts. Frank D. McCann has used previously inaccessible Brazilian archival material to discuss the events during the Vargas regime which brought about a close alliance between Brazil and the United States and resulted in Brazil's economic, political, and military dependence on her powerful North American ally. He shows that until 1940 the drive for closer union came largely from Brazil, which wanted to offset the shifting alliances of the Spanish-speaking countries and escape from British economic domination. American interest in Brazil increased during the 1930's as the U.S. turned to Latin America to recoup losses in foreign trade and as Washington began to fear

that Nazism and Fascism would spread to South America. By 1940 the nature of Brazil's relationship with the United States made it impossible for Brazil to remain neutral. Frank McCann's analysis of Brazil's decision to join the Allies affords a view of the diplomatic uses of economic and military aid, which became a feature of diplomacy in the postwar years. It also provides insights into the military's influence on foreign policy, and into the functioning of Vargas' Estado Nôvo. Originally published in 1974. **Pois não** - Antônio Roberto Monteiro Simões  
2010-01-01

Spanish speakers can learn Brazilian Portuguese much more rapidly than any other language, and thousands of students have used Antônio Simões's text/workbook *Com licença: Brazilian Portuguese for Spanish Speakers* to make the transition between the two languages.

Recognizing the need for a text that incorporates current cultural references and the latest language pedagogy, Simões now offers *Pois não: Brazilian Portuguese Course for Spanish Speakers*, with Basic Reference Grammar. *Pois não* contrasts Portuguese and Spanish, which accomplishes two main goals. It teaches the equivalent of one year of college Portuguese in one semester, three times a week, to Spanish speakers who also have a solid understanding of English. Additionally, the book serves as a basic reference guide to Brazilian Portuguese for the

same audience. *Pois não* can be used by students in the classroom or by independent learners. Users of the book may focus on the drills alone, concentrate on both the explanations and drills, or use the book as a reference for consultation only. Answers to all of the exercises are included in the book. A CD containing recordings by native Brazilian speakers of dialogues that appear in the book is included.

**Protecting Personal Information** - Andrea Monti  
2019-05-30

The concept of privacy has long been confused and incoherent. The right to privacy has been applied promiscuously to an alarmingly wide-ranging assortment of issues including free speech, political consent, abortion, contraception, sexual preference, noise, discrimination, and pornography. The conventional definition of privacy, and attempts to evolve a 'privacy-as-a-fence' approach, are unable to deal effectively with the technological advances that have significantly altered the way

information is collected, stored, and communicated. Social media such as Facebook pose searching questions about the use and protection of personal information and reveal the limits of conceiving the right to privacy as synonymous with data protection. The recent European Union's GDPR seeks to enforce greater protection of personal information, but the overlap with privacy has further obscured its core meaning. This book traces these troubling developments, and seeks to reveal the essential nature of privacy and, critically, what privacy is not.

*Narcoland* - Anabel Hernandez 2013-09-10

The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, *Narcoland* has been a publishing and political sensation in Mexico. definitive history of the drug cartels, *Narcoland* takes readers to the front lines of the “war on drugs,” which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names - not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico’s government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of

Newspapers and News Publishers noted, “Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels.”

**Modernity in Black and White** - Rafael Cardoso  
2020-11-30

*Modernity in Black and White* provides a groundbreaking account of modern art and modernism in Brazil. Departing from previous accounts, mostly restricted to the elite arenas of literature, fine art and architecture, the book situates cultural debates within the wider currents of Brazilian life. From the rise of the first favelas, in the 1890s and 1900s, to the creation of samba and modern carnival, over the 1910s and 1920s, and tracking the expansion of mass media and graphic design, into the 1930s and 1940s, it foregrounds aspects of urban popular culture that have been systematically

overlooked. Against this backdrop, Cardoso provides a radical re-reading of Antropofagia and other modernist currents, locating them within a broader field of cultural modernization. Combining extensive research with close readings of a range of visual cultural production, the volume brings to light a vast archive of art and images, all but unknown outside Brazil.

**The Books That Devoured My Father** - Afonso Cruz 2019-11-30

Vivaldo Bonfim was a bored book-keeper whose main escape from the tedium of his work was provided by novels. In the office, he tended to read rather than work, and, one day, became so immersed in a book that he got lost and disappeared completely. That, at least, is the version given to Vivaldo's son, Elias, by his grandmother. One day, Elias sets off, like a modern-day Telemachus, in search of the father he never knew. His journey takes him through the plots of many classic novels, replete with murders, all-consuming passions, wild beasts and other literary perils. The Book that Devoured my Father is, at once, a celebration of filial love, friendship and literature.

Power of Habit contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author “Sharp, provocative, and useful.”—Jim Collins “Few [books] become essential manuals for business and living. The Power of Habit is an exception. Charles Duhigg not only explains how habits are formed but how to kick bad ones and hang on to the good.”—Financial Times “A flat-out great read.”—David Allen, bestselling author of Getting Things Done: The Art of Stress-Free Productivity “You’ll never look at yourself, your organization, or your world quite the same way.”—Daniel H. Pink, bestselling author of Drive and A Whole New Mind “Entertaining . . . enjoyable . . . fascinating . . . a serious look at the science of habit formation and

change.”—The New York Times Book Review

*Diversity, Natural History, and Geographic Distribution of Snakes in the Caatinga, Northeastern Brazil* - Thaís B. Guedes 2014

The present study is a synthesis on snake diversity and distribution in the Caatinga region of northeastern Brazil, providing an updated species list and data on natural history and geographic distribution. Our study is based on the careful revision of 7,102 voucher specimens, housed in 17 herpetological collections, complemented by data on taxonomic literature. We recorded a total of 112 snake species in the Caatinga, belonging to nine families: Anomalepididae, Leptotyphlopidae, Typhlopidae, Aniliidae, Boidae, Viperidae, Elapidae, Colubridae, and Dipsadidae. Our list includes at

least 13 never recorded species for this region, as well as distribution records for all species known from the Caatinga (including expansion and new records of distribution). The snake assemblage of the Caatinga is complex, sharing species with other continental open areas (38.4%), forested areas (27.7%), and both open and forested areas (32.1%). The richest areas were isolated plateaus, followed by contact areas, semi-arid caatinga, and sandy dunes of the São Francisco River. We identified 22 Caatinga endemic species with the sandy dunes of São Francisco River showing the highest endemism level (12 species, with six endemic species restricted to the area) followed by semi-arid caatinga, and isolated plateaus (eight endemic species each, and six and three endemic species with restricted distribution to each area, respectively). Most species show relatively restricted ranges in parts of the Caatinga. The snake assemblage in Caatinga includes mainly terrestrial species (38.4%),

followed by fossorial/cryptozoic (26.8%), arboreal/semi-arboreal (26.8%), and aquatic/semi-aquatic (7.1%) species. Vertebrates are the most important dietary item (80.4%), with 56.6% of species being generalist consumers of this kind of prey; 24.4% are frog-eaters, 7.8% prey on caecilians/amphisbaenians, 6.7% lizard-eaters, 3.3% mammal-eaters, and 1.1% are fish-eaters. Only 18.7% of the snakes eat invertebrate prey, as arthropods, annelids, and mollusks. In relation to time of activity, 35.7% of snakes are both diurnal and nocturnal, 33.0% are strictly nocturnal, and 30.4% are diurnal. The data provided herein increase the list of Caatinga snake species from 50 to 112, and includes detailed maps and information on geographic distribution. The Caatinga snake assemblage shows high richness and endemism levels, and our results highlight the usefulness of basic natural history data and revision of voucher specimens as baseline information for biogeographic studies and conservation

strategies.

**Sugarcane** - Eleanore Webb 2014-01-01

Sugarcane is a C4, perennial, sucrose-storing grass belonging to the genus *Saccharum* (Arceneaux, 1965) that originated in Asia, and it is a cultivated crop in tropical and subtropical countries throughout the world. Among the countries cultivating sugarcane, Brazil is the largest producer. Sugarcane has been harvested for human and animal consumption for centuries, and in recent decades, it has been used for fuel production by juice fermentation (first-generation ethanol). The primary sugarcane by-products are molasses, used as ruminant feed and as a sugar substitute, and bagasse, a source of fibres for animal diets and bioelectricity. This book discusses the production, consumption and agricultural management systems of sugarcane.
