care utilization, hospital behavior, and health care financing. Econometric analyses from the United States are also included as object lessons for Asian countries. One of the primary focuses of the authors is the reduction of both health care costs to organizations and health care utilization by consumers. Annotation copyrighted by Book News, Inc., Portland, OR

Doing Business in Asia - Gabriele Suder

2020-10-10

A focused look into the business and management practices across Asia, from an author team located across three Asian-Pacific countries and experience of leading organisations spanning over more than two decades.

East Asia: A Cultural, Social, and Political History, Volume II: From 1600 - Patricia Buckley Ebrey 2013-01-01

Written by top scholars in the field, EAST ASIA: A CULTURAL, SOCIAL, AND POLITICAL HISTORY, VOLUME II: FROM 1600, 3E delivers

a comprehensive cultural, political, economic, and intellectual history of East Asia, while focusing on the narratives and histories of China, Japan, and Korea in a larger, global context. Full color inserts on such topics as food, clothing, and art objects illustrate the rich artistic heritage of East Asia. A range of primary source documents spotlights women's independence, students-turned-soldiers, and other stirring issues, while intriguing biographical sketches throughout highlight the lives of popular figures and ordinary people alike. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Routledge Handbook of Memory and Reconciliation in East Asia - Mikyoung Kim 2018-05-29

Decades after the end of the World War II East Asia continues to struggle with lingering animosities and unresolved historical grievances

Downloaded from
omahafoodtruckassociation.org on by
guest

in domestic, bilateral and regional memory landscapes. China, Japan and the Korea share a history of inter- and intra-violence, self-other identity construction and diametrically opposed interpretations of the past. Routledge Handbook of Memory and Reconciliation in East Asia offers a complete overview of the challenges of national memory and ideological rivalry for reconciliation in the East Asian region. Chapters provide authoritative analyses of contentious issues such as comfort women, the Nanjing massacre, history textbook controversies, shared heritage sites, colonial rule, territorial disputes and restitution. By interweaving memory, human rights and reconciliation the contributors actively explore real prospects of redressing past wrongs and achieving peaceful coexistence at personal as well as governmental levels. Bringing together an international team of experts, this book is an essential read for students and scholars of East Asian studies, anthropology, gender studies, history,

international relations, law, political science, and sociology, and for those interested in memory and reconciliation issues.

Asia's Stock Markets from the Ground Up -
Herald van der Linde 2021-10-15

A summary of how stock markets work for those looking to invest. This book is a practical guide to Asia's stock markets for a general audience. It is for people who do not know much about financial markets but, for whatever reason, would like to learn more. They could be seasoned expatriate pilots, academics and other professionals, newcomers in the region as well as students or young men and women about to start in the finance industry. The idea is to cut through the alphabet soup of industry jargon to provide a clear understanding of how these markets work, how they differ from each other in size and depth, what unique features each stock market has and what drives all the different sectors in these markets - consumers, the internet, banks and technology. The book

Downloaded from

includes helpful history lessons and personal anecdotes drawn from the author's 30 years in the world of Asian investments.

Food Culture in Southeast Asia - Penny Van Esterik 2008

This richly informative overview encapsulates the diverse peoples and geographies that have produced such popular cuisines.

East Asia - Rhoads Murphey 2007

Throughout his distinguished career, Rhoads Murphey has advocated an appreciation of the rich and unique aspects of Asian history, making his text an unparalleled success. Spanning the histories of China, Japan, Korea, Vietnam, and parts of Southeast Asia, *East Asia: A New History* furthers students' knowledge by covering a breadth of topics, including everyday life, the environment, and women in Asian history. Book jacket.

[Economic Integration, Democratization and National Security in East Asia](#) - Peter C. Y. Chow
2007-01-01

The book offers such significantly in-depth evidence of the tremendous complexities involved in PRC-ROC relations that scholars and policymakers alike will greatly appreciate its broader applicability to current comparative research on contemporary East Asia. Lisa Fischler, East Asia Integration Studies Professor Chow has put together an excellent collection of papers analyzing some of the most important political and economic issues in East Asia. The focus is on Taiwan, but several chapters deal separately with the United States, China, North Korea, Japan, and the EU. This is a very useful publication for those interested in contemporary East Asia. Thomas J. Bellows, The University of Texas at San Antonio, US and Editor, *American Journal of Chinese Studies* The US policy of supporting a democratic Taiwan while simultaneously engaging China is a delicate and complex balance, with outcomes critical to economic, security and strategic interests in Asia. At the same time, rising Taiwanese identity

Downloaded from
omahafoodtruckassociation.org *on by*
guest

amid the emerging power of China continues to change the paradigm. The contributors to this volume explore the political and economic dimensions of this complicated and pressing issue. Whether the US China relationship evolves as one of strategic partners or strategic competitors will significantly affect power relations between Washington, Beijing and Taipei. More generally, it will set the tone for peace, stability and prosperity in the Asia Pacific. Peter Chow examines the potential crisis, as well as mitigating influences, by investigating political, economic and security considerations affecting cross-Taiwan Strait relations. He presents broad coverage of recent changes of policy in Taiwan, China and the US, with special emphasis on the adjustments of American policy on Taiwanese identity amid its democratization. An overall evaluation of current US policies toward China based on realism and idealism illustrates the shifting US China Taiwan relations. This insightful treatment will be of

great interest to students and scholars of international relations, political economy, foreign relations, Asian studies, political science and economics. Civic leaders and representatives of interest groups involved with US China Taiwan relations will find the volume of great value in their work.

The Civil Sphere in East Asia - Jeffrey C. Alexander 2019-02-21

Examines a range of contemporary social and cultural conflicts in East Asia and the echoes they have throughout the world.

The Future Is Asian - Parag Khanna 2019-02-05

In the 19th century, the world was Europeanized. In the 20th century, it was Americanized. Now, in the 21st century, the world is being Asianized. The “Asian Century” is even bigger than you think. Far greater than just China, the new Asian system taking shape is a multi-civilizational order spanning Saudi Arabia to Japan, Russia to Australia, Turkey to Indonesia—linking five billion people through

Downloaded from
omahafoodtruckassociation.org on by
guest

trade, finance, infrastructure, and diplomatic networks that together represent 40 percent of global GDP. China has taken a lead in building the new Silk Roads across Asia, but it will not lead it alone. Rather, Asia is rapidly returning to the centuries-old patterns of commerce, conflict, and cultural exchange that thrived long before European colonialism and American dominance. Asians will determine their own future—and as they collectively assert their interests around the world, they will determine ours as well. There is no more important region of the world for us to better understand than Asia - and thus we cannot afford to keep getting Asia so wrong. Asia's complexity has led to common misdiagnoses: Western thinking on Asia conflates the entire region with China, predicts imminent World War III around every corner, and regularly forecasts debt-driven collapse for the region's major economies. But in reality, the region is experiencing a confident new wave of growth led by younger societies from India to

the Philippines, nationalist leaders have put aside territorial disputes in favor of integration, and today's infrastructure investments are the platform for the next generation of digital innovation. If the nineteenth century featured the Europeanization of the world, and the twentieth century its Americanization, then the twenty-first century is the time of Asianization. From investment portfolios and trade wars to Hollywood movies and university admissions, no aspect of life is immune from Asianization. With America's tech sector dependent on Asian talent and politicians praising Asia's glittering cities and efficient governments, Asia is permanently in our nation's consciousness. We know this will be the Asian century. Now we finally have an accurate picture of what it will look like.

[By More Than Providence](#) - Michael J. Green
2017-03-21

Soon after the American Revolution, certain of the founders began to recognize the strategic significance of Asia and the Pacific and the vast

Downloaded from
omahafoodtruckassociation.org *on by*
guest

material and cultural resources at stake there. Over the coming generations, the United States continued to ask how best to expand trade with the region and whether to partner with China, at the center of the continent, or Japan, looking toward the Pacific. Where should the United States draw its defensive line, and how should it export democratic principles? In a history that spans the eighteenth century to the present, Michael J. Green follows the development of U.S. strategic thinking toward East Asia, identifying recurring themes in American statecraft that reflect the nation's political philosophy and material realities. Drawing on archives, interviews, and his own experience in the Pentagon and White House, Green finds one overarching concern driving U.S. policy toward East Asia: a fear that a rival power might use the Pacific to isolate and threaten the United States and prevent the ocean from becoming a conduit for the westward free flow of trade, values, and forward defense. *By More Than Providence*

works through these problems from the perspective of history's major strategists and statesmen, from Thomas Jefferson to Alfred Thayer Mahan and Henry Kissinger. It records the fate of their ideas as they collided with the realities of the Far East and adds clarity to America's stakes in the region, especially when compared with those of Europe and the Middle East.

Important Helminth Infections in Southeast Asia - 2010-07-09

This thematic volume provides authoritative, up-to-date reviews pertaining to the epidemiology, public health significance and shifts therein, control (current activities, successes, setbacks), persisting challenges (e.g. sanitation, universal coverage of health services, health-related behavior) of the key parasitic diseases in Southeast Asia. The book also discusses the new tools and approaches for enhanced discovery and control of helminthic diseases. Informs and updates on all the latest developments in the

One Foot in South East Asia - Bill Pitcock

2015-07-02

To go backpacking around Asia on crutches only three weeks after having surgery to repair a smashed-up foot was, at the least, ill-advised, foolhardy, and a potential recipe for disaster, - if not just plain stupid. As it turns out, the trip proves to be one of Bill and Anita's best adventures ever and just the tonic they needed. Struggling to adapt to the heat, the discomfort, and the problems that come with the new-found disability, they meet a host of wonderful people and are reminded that the world really is filled with love, care and compassion. And while having lots of fun and making marvellous memories, Bill gradually discovers that it's more than just his foot that needed healing.

Redefining Asia Pacific Higher Education in Contexts of Globalization - Christopher S.

Collins 2015-10-19

The dynamic global contexts that currently are redefining Asia Pacific higher education include issues of cross-border education, capacity and national birthrate profiles, the pressures created within ranking/status systems, and complex shifts in the meanings of the public good as they are presented within societies trying to balance between the historic provision of public and private higher education. The chapters included in this edited volume provide a set of key analytical concepts and references that readers can employ to enrich their understandings of the content-focused chapters. With case studies from Hong Kong, Indonesia, Malaysia, Vietnam, Taiwan, and South Korea, the topics address issues pertinent to the region and the entire globe. Combined, the case studies provide a rich overview of the most pressing topics in the Asia Pacific and can serve as launch point for exploring the future of higher education and a rapidly changing world.

Central Asia - Reuel R. Hanks 2005-01-01

Covers the countries of Uzbekistan, Kazakhstan and Kyrgyzstan, giving information about their geography, history and economy; their institutions of religion, government and education; and their society and contemporary issues.

The Pattern of Asia - John E. Brush 1958

Television Histories in Asia - Jinna Tay

2017-12-21

This book presents an analysis of television histories across India, China, Taiwan, Singapore, Indonesia, Japan, Hong Kong, the Philippines, Malaysia and Bhutan. It offers a set of standard data on the history of television's cultural, industrial and political structures in each specific national context, allowing for cross-regional comparative analysis. Each chapter presents a case study on a salient aspect of contemporary television culture of the nation in question, such as analyses of ideology in television content in Japan and Singapore, and

transformations of industry structure vis-à-vis state versus market control in China and Taiwan. The book provides a comprehensive overview of TV histories in Asia as well as a survey of current issues and concerns in Asian television cultures and their social and political impact.

The Asia-Pacific, Regionalism and the Global System - Christopher M. Dent 2012

'Dent and Dosch have put together a superb volume that explores new dimensions of the world events for the past five decades and takes the processes of decrypting regionalism, global system, and world society to a new height. the contributors have enhanced our understanding of how regionalism has been changing, when a world society will be created, and why East Asia's centrality matters in this unfolding drama. Policy-makers, academics, and mass media opinion makers will find the book useful, provocative, and refreshing.' - Eul-Soo Pang, Institute of Southeast Asian Studies, Singapore

Manichaeism in Central Asia and China - S. N. C. L. Lieu 1998

The discovery of genuine Manichaean texts from sites like Turfan and Tun-huang since the beginning of the century has greatly increased our knowledge of the teaching of Manichaeism and of its amazing geographical spread in pre-Islamic times. This volume brings together the contributions by a leading authority on the subject including a long survey article on the history of the discovery of the texts from Central Asia as well as articles focusing on some of these texts and on the incredible history of adaptation and survival of the sect in China proper. The studies include many Chinese texts on Manichaeism made available for the first time in their original scripts and in translation. The volume also contains the first ever working catalogue of all Manichaean texts (in western as well as oriental languages) published up to 1997. *Taking in a Game* - Joseph A. Reaves 2002-01-01
The author follows the exportation of baseball to

Asia, revealing its deepening roots in Korea, the Philippines, mainland China, and Taiwan. Winner of the Jerry Malloy Book Prize.

Religion and Politics in South Asia - Ali Riaz
2020-12-30

This revised edition of Religion and Politics in South Asia presents a comprehensive analysis of the interaction of religion and politics in Afghanistan, Bangladesh, India, the Maldives, Nepal, Pakistan, and Sri Lanka. The book highlights that in recent decades, religion, religio-political parties, and religious rhetoric have become dominant features of the political scenes in all seven countries. By presenting each country's political system and the socio-economic environment within which the interactions of religion and politics are taking place, chapters explore various factors that affect both the lives of people in the region and global politics. Designed in an easy-to-follow structure, the book includes sections on the history and politics, major religions and religious

composition of the population, legal and constitutional provisions regarding religion, religious freedom and the treatment of minorities, the political landscape, and religio-political parties and groups within the countries. In doing so, the book addresses concerns including the effects of religio-political interactions on political stability, human rights, and the implications for internal and external security situations. A timely contribution written by experts in their field, this book is a useful guide to religion and politics and will be of interest to undergraduate and graduate students in South Asian politics, Asian politics, religion and politics, history, and international studies. *Routledge Handbook of Families in Asia* - Stella R. Quah 2020-06-30

Research on the family has expanded considerably across Asia but studies tend to be fragmented, focusing on narrow issues within limited areas (cities, towns, small communities) and may not be accessible to international

readers. These limitations make it difficult for researchers, students, policy makers, and practitioners to obtain the information they need. The Routledge Handbook of Families in Asia fills that gap by providing a current and comprehensive analysis of Asian families by a wide range of experts in a single publication. The thirty-two chapters of this comparative and multi-disciplinary volume are organized into nine major themes: conceptual approaches, methodological issues, family life in the context of culture, family relationships across the family life cycle, issues of work and income, stress and conflict, family diversity, family policy and laws, and environmental setting of homes. Each chapter examines family life across Asian countries, studying cultural similarities and differences and exploring how families are changing and what trends are likely to develop in the future. To provide a fruitful learning experience for the reader, each chapter offers examples, relevant data, and a comprehensive

Downloaded from
omahafoodtruckassociation.org on by
guest

list of references. Offering a complete interdisciplinary overview of families in Asia, the Handbook will be of interest to students, academics, policy makers and practitioners across the disciplines of Asian Studies, Sociology, Demography, Social Work, Law, Social Policy, Anthropology, Geography, Public Health and Architecture.

The Rise of China and International Security - Kevin J. Cooney 2008-08-29

This edited volume offers diverse and comprehensive views of China's rise and its implications to the East Asian region and beyond. The economic growth of China, initially started in the late-1970s with domestic and rural reforms, has been increasingly driven by China's industrialization and integration into the regional and global markets. The growth and integration of China, however, has exposed China's closest neighbours and even more remote countries to its various (previously internal) problems, and the lagging political

openness of China has often negatively impacted on cooperation with other countries in dealing with these problems (i.e. trans-border pollutions, epidemics, illegal migrations, organized crimes, financial management, etc.). This book integrates geopolitical and domestic political analysis of China with a broad set of transnational security issues, and includes a diversity of regional views. In doing so, it explores further than the dichotomous debate between the American realists and liberals, adding finesse to the often simplified discussions on how to deal with the rising China. This book will be of interest to students of Asian Politics, Security Studies and International Relations.

African Star Over Asia - Runoko Rashidi
2012-11-30

China and Southeast Asia - Gungwu Wang
1999

All this is not surprising, even understandable. But the danger of exaggeration to the point

*Downloaded from

where efforts to predict what China and the Chinese will do become merely alarmist, and the predictions become self-fulfilling, has to be guarded against.

Southeast Asia and the Cold War - Albert Lau
2012

The origins and the key defining moments of the Cold War in Southeast Asia have been widely debated. This book focuses on an area that has received less attention, the impact and legacy of the Cold War on the various countries in the region, as well as on the region itself. The book contributes to the historiography of the Cold War in Southeast Asia by examining not only how the conflict shaped the milieu in which national and regional change unfolded but also how the context influenced the course and tenor of the Cold War in the region. It goes on to look at the usefulness or limitations of using the Cold War as an interpretative framework for understanding change in Southeast Asia. Chapters discuss how the Cold War had a varied

but notable impact on the countries in Southeast Asia, not only on the mainland countries belonging to what the British Foreign Office called the "upper arc", but also on those situated on its maritime "lower arc". The book is an important contribution to the fields of Asian Studies and International Relations.

Illustrating Asia - John A. Lent 2001-11-30
Illustrations used for story-telling and mirth-making have enlivened Asian walls, scrolls, books, public and private places, and artifacts for millennia. Often playful and humorous, Asian pictorial stories lent conspicuous elements to contemporary comic art, particularly with their use of narrative nuance, humor, satire, and dialogue. *Illustrating Asia* is a fascinating book on a subject that is of wide and topical interest. All of the articles consider cartoon and/or comic art in the historical and social setting of seven South, Southeast, and East Asian countries: India, Taiwan, Malaysia, Indonesia, Sri Lanka, China, and Japan. The contributors treat comic

Downloaded from
omahafoodtruckassociation.org *on by*
guest

and narrative art—including comic books, comic strips, picture books, and humor and fan magazines—in both historical and socio-cultural perspectives, as well as portrayals of ancient Chinese philosophy, gender, and the enemy in cartoons and comics. Contributors: Laine Berman, John A. Lent, Fusami Ogi, Rei Okamoto, Ronald Provencher, Aruna Rao, Kuiyi Shen, Shimizu Isao, Shu-chu Wei, Yingjin Zhang. From Dominoes to Dynamos - John Bresnan 1994 The demise of America's Cold War-era foreign policy, has transformed Southeast Asia's relationship with the United States. No longer seen in the political context of communist containment, the countries of Southeast Asia - Thailand, Indonesia, Malaysia, Singapore, the Philippines, and Vietnam - are becoming increasingly powerful players in the world economy. Their unparalleled economic growth will dramatically affect the U.S. economy and its relations to other regional powers such as Japan and China. How well the United States responds

to this challenge and to the opportunity to forge new relationships in the region will significantly shape the success or failure of our performance as a global superpower. In From Dominoes to Dynamos, John Bresnan, an expert on U.S.-Asian relations, details the steps the United States should take to define a new role in the area. He examines shifting American interests - from strategic to economic - in the region, and surveys the history of an area that includes both historic allies, such as the Philippines, and adversaries, including Vietnam. The book includes a detailed analysis of current economic trends, as well as recommendations for coping with Japan's growing influence in the Southeast Asian economy and a clear analysis of the direction U.S. foreign policy must take to maintain its position as a leading player in the region.

The Music of Central Asia - Theodore Levin
2016-12-05

The Music of Central Asia surveys the rich and
Downloaded from
omahafoodtruckassociation.org *on by*
guest

diverse musical life of a region that was once at the center of the trans-Eurasian Silk Road trade and that has now reemerged as a crucial arena of global geopolitics. This beautiful and informative volume offers a resource for Central Asians to learn about the musical heritage of their region and a detailed introduction to this heritage for readers and listeners worldwide. The Music of Central Asia balances "insider" and "outsider" perspectives with contributions by 27 authors from 14 countries. A companion website provides access to some 175 audio and video examples, listening guides and study questions, and transliterations and translations of the performed texts. The generously illustrated text is supplemented with boxes and side bars, musician profiles, and an illustrated glossary of musical instruments. The Music of Central Asia targets a broad, non-specialist readership, while specialists will find it an indispensable resource. The book is divided into four parts: an overview of the region's music and musical instruments;

sections on "The Nomadic World" and "The World of Sedentary-Dwellers," which explore music and musical life in the context of Central Asia's two great axes of civilization; and "Central Asia in the Age of Globalization," whose focus is the future of the past, or how musical heritage is being revitalized and reimagined in the contested cultural landscape of contemporary Central Asia. The Music of Central Asia can be read systematically to build comprehensive knowledge about interlinked topics—or used as a handy reference on specific musical styles, repertoires, and traditions. For instructors, the book's 35 chapters offer ample material for a semester-long course, while groups of chapters can serve as a module in courses devoted to broader topics in music, history, and culture.

Rethinking Security in East Asia - J. J. Suh
2004

Is East Asia heading towards war? This text makes a case for a new theoretical approach (called 'analytical eclecticism' by the authors) to

the study of Asian security.

Modern Art in Africa, Asia and Latin

America - Elaine O'Brien 2012-08-07

Shedding fresh light on modern art beyond the West, this text introduces readers to artists, art movements, debates and theoretical positions of the modern era that continue to shape contemporary art worldwide. Area histories of modern art are repositioned and interconnected towards a global art historiography. Provides a much-needed corrective to the Eurocentric historiography of modern art, offering a more worldly and expanded view than any existing modern art survey Brings together a selection of major essays and historical documents from a wide range of sources Section introductions, critical essays, and documents provide the relevant contextual and historiographical material, link the selections together, and guide the reader through the key theoretical positions and debates Offers a useful tool for students and scholars with little or no prior knowledge of non-

Western modernisms Includes many contrasting voices in its documents and essays, encouraging reader response and lively classroom discussion Includes a selection of major essays and historical documents addressing not only painting and sculpture but photography, film and architecture as well.

Islam and Asia - Chiara Formichi 2020-05-07

An accessible, transregional exploration of how Islam and Asia have shaped each other's histories, societies and cultures from the seventh century to today.

The Pulse of Asia - Ellsworth Huntington 1907

Conflict and Conversion - Tara Alberts
2013-10

Explores how Catholic missionaries, merchants, and adventurers brought their faith to the strategically and commercially crucial region of Southeast Asia in the sixteenth and seventeenth centuries.

Reflections on Asia - Mahathir bin Mohamad

2002

Stephen Roach on the Next Asia - Stephen S. Roach 2010-10-05

As Morgan Stanley's chief Asia specialist, getting Asia right is Stephen Roach's personal obsession, and this in-depth compilation represents more than 70 of Roach's key research efforts not just on Asia, but also on how the region fits into the broad context of increasingly globalized financial markets. The book argues that the "Asia factor" is not a static concept, but rather one that is constantly changing and evolving. Broken down into five parts—Asia's critical role in globalization; the coming rebalancing of the Chinese economy; a new pan-regional framework for integration and competition; and a frank discussion of the biggest risk to this remarkable transformation—this book will help readers understand and profit from the world's most dynamic region.

asia

Meltdown - Mark Clifford 2000

Analyzes Asia's financial meltdown and its impact on the world, tracing the boom-bust cycle of the Asian economies, critiquing the continent's development strategies and speculating on the future of the region

Gender in Modern East Asia - Barbara Molony, Janet Theiss, Hyaewool Choi 2016-03-29
