Here though, instead of proceeding in 'fiddle method' style from simpler to more complex tunes, regional repertoire and styles are explored. Grouped in sets for performance, the tunes from any one tradition can be of varying levels of difficulty. Less experienced players may find sets 5, 6 and 29, for example, quite approachable, as well as the first reel in set 14 and the second single jig in set 15. All tunes included on companion CD.

Urban Uprisings - Margit Mayer 2016-06-01

This book analyses the waves of protests, from spontaneous uprisings to well-organized forms of collective action, which have shaken European cities over the last decade. It shows how analysing these protests in connection with the structural context of neoliberal urbanism and its crises is more productive than standard explanations. Processes of neoliberalisation have caused deeply segregated urban landscapes defined by deepening social inequality, rising unemployment, racism, securitization of urban spaces and welfare state withdrawal, particularly from poor peripheral areas, where tensions between marginalized youth and police often manifest in public spaces. Challenging a conventional distinction made in research on protest, the book integrates a structural analysis of processes of large scale urban transformation with analyses of the relationship between 'riots' and social movement action in nine countries: France, Greece, England, Germany, Spain, Poland, Denmark, Sweden and Turkey.

THE SICILIAN - Ricky Delgado strikes a devil's bargain with a blood goddess: 'Build my temple and bring me the souls of damaged people, and you will see what rewards I give.' THE COURTESAN - Elizabeth makes her living from men's desire. With a flick of the switch in her head, she feels nothing: no pain, no hate, no sorrow, no joy. THE ARTIST - Anis takes to painting as an outlet for his rage. His artist's eye knows his subjects before they know themselves, and he paints them all, a gallery of broken people. Can they escape the deadly web of decadence and sin?

Technical Studies for the Cornet - Herbert L. Clarke

There are many books written for the Piano, Violin, etc., entirely devoted to Technic. This Work is especially written to enable the Student, by practice and application, to overcome any obstacle which may occur in musical passages written for the Cornet. By controlling the Wind Power to play these Exercises as written, in one breath, the Student will acquire ENDURANCE without strain or injury. Train the Muscles which control the Lips, to make them elastic and strong, as only a slight pressure is necessary, and not brute force. The highest as well as the lowest notes can be played with equal tone quality if practiced according to the instructions that precede each Study. Every Cornet Player should have reached a degree of excellence before attempting to play these Exercises. To become an Expert on the Cornet, one should be familiar with as many Cornet Methods as possible, and so gain the experience of each. Every Exercise in this Book is possible, and not so very difficult if practiced slowly at first, and not too long at a time. I have used them for my daily practice for years, and they have been the means of my reaching the highest notes after playing a two-hour Concert, also of preserving my lips so that they never tire, and what has been a help to

me is surely good for other Cornet Players. You cannot expect to attain the highest point of excellence without hard work and perseverance. Never be perfectly satisfied with yourself. Try to make some improvement each day, feeling that it is a pleasure to have conquered that which seemed an impossibility at first. Do not neglect to correct immediately the least fault you make. Bad habits are easily formed, but are difficult to remedy. There are few Celebrated Cornet Soloists, although thousands play the instrument. Most players abuse their practicing by not knowing the proper way, and neglecting to pay more attention to the elementary work. These Studies have been found to be excellent for Clarinet Players as well as Cornet Players. The Clarinet being a Wind Instrument also, all these Exercises will appeal to the Player of that Instrument by following the same instructions.
