**The Best Used Boat Notebook** - John Kretschmer 2007

'The Best Used Boat Notebook' covers a fascinating spectrum of boats. Thoroughly researched reviews include owner insights, a guide to common problems and suggestions on where to find parts, advice and support.

*Green Boating* - Misse Wester 2009

The coastal and archipelago areas in the Baltic Sea are popular destinations for a number of tourists. An important group of tourists is boaters, who visit the coastal areas during a short summer period. Boat owners are sometimes pictured as having a great interest for the nature and a willingness to do right. Pollution from pleasure boats such as discharges of oil and fuel, antifouling paints and cleaning agents have a negative impact on the coastal environment. Environmentally sound

alternatives exist to some extent, but are not very common. Sustainable alternatives for boaters are lacking behind. One of the underlying purposes of this study was to understand how we can help boat owners change their behaviour and decrease the negative impact on the marine environment. The survey among boaters has been conducted in Finland, Sweden and Denmark with a web based survey ordered by the Keep Sweden Tidy Foundation together with Keep the Archipelago Tidy Association in Finland and the Danish Outdoor Council. The research was performed by SIFO Research International.

Berserk in the Antarctic - David Mercy 2006

The true story of the author's journey to Antarctica in a 27-foot sailing boat. Joined by the boat's young Norwegian owner and an Argentinian newlywed, he set sail with little idea of the tumultuous storms, mishaps and emergencies that loomed on a Shackleton-style voyage to the world's coldest, most dangerous and inaccessible continent.

**Finding Pax** - Kaci Cronkhite 2018-09-18

'The boat appeared when I didn't expect or, frankly, need her. My bucket list was empty. Life was full...But sailing towards me was a boat that would stir the waters, waking decades of loss, revealing history untold, and restoring a legacy that was lost in the wind. For her and for me, I had to wade into that water. I had to go, to search, to find.' Having fallen hopelessly in love with a 1930s Danish spidsgatter, a beautifully constructed 25 ft wooden double-ender, Kaci embarks on an international search to unravel the mystery of the boat's past, and discovers the many lives Pax touched since she first hit the water in 1936. Kaci Cronkhite's seven year search for Pax's history is an elegant little gem, taking the reader aboard not only for sublime, wind-filled sails but also to eavesdrop the conversations and relationships that are built as she learns more about Pax's past, whilst hugely enjoying her present. Finding Pax is a story of discovery and reconnection like no other. The writing is poetic, spare, and full of wisdom: 'In sailing, in weather, in life and death, answers are not endings and questions are not to be feared. The unknowns keep us moving forward.'

*Twenty Small Sailboats to Take You Anywhere* - John Vigor 1999

John Vigor turns the spotlight on twenty seaworthy sailboats that are at home on the ocean in all weather. These are old fiberglass boats, mostly of traditional design and strong construction. All are small, from 20 feet to 32 feet overall, but all have crossed oceans, and all are cheap.

Choosing the right boat to take you across an ocean or around the world can be confusing and exasperating, particularly with a tight budget.

Vigor sets out to remedy that in this book. He compares the designs and handling characteristics of 20 different boats whose secondhand market prices start at about \$3,000. Interviews with experienced owners (featuring valuable tips about handling each boat in heavy weather) are interspersed with line drawings of hulls, sail plans, and accommodations. Vigor has unearthed the known weaknesses of each boat and explains how to deal with them. He rates their comparative seaworthiness, their speed, and the number of people they can carry in comfort. If you have ever dreamed the dream this book can help you turn it into reality.
