Shifting Cultivation Policies - Malcolm Cairns 2017-11-13

Shifting cultivation supports around 200 million people in the Asia-Pacific region alone. It is often regarded as a primitive and inefficient form of agriculture that destroys forests, causes soil erosion and robs lowland areas of water. These misconceptions and their policy implications need to be challenged. Swidden farming could support carbon sequestration and conservation of land, biodiversity and cultural heritage. This comprehensive analysis of past and present policy highlights successes and failures and emphasizes the importance of getting it right for the future. This book is enhanced with supplementary resources. The addendum chapters can be found at: www.cabi.org/openresources/91797

THE INDIAN LISTENER - All India Radio (AIR), New Delhi 1943-01-07

The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service, Bombay, started on 22 December, 1935 and was the successor to the Indian Radio Times in English, which was published beginning in July 16 of 1927. From 22 August, 1937 onwards, it was published by All India Radio, New Delhi. In 1950, it was turned into a weekly journal. Later, The Indian Listener became "Akashvani" in January 5, 1958. It was made a fortnightly again on July 1, 1983. It used to serve the listener as a Bradshaw of broadcasting, and give listener the useful information in an interesting manner about programmes, who writes them, take part in them and produce them along with photographs of performing artists. It also contains the information of major changes in the policy and service of the organisation. NAME OF THE JOURNAL: The Indian Listener LANGUAGE OF THE JOURNAL: English DATE, MONTH & YEAR OF PUBLICATION: 07-01-1943 PERIODICITY OF THE JOURNAL: Fortnightly NUMBER OF PAGES: 91 VOLUME NUMBER: Vol. VIII, No. 2 BROADCAST PROGRAMME SCHEDULE PUBLISHED (PAGE NOS): 10-14, 25-89 ARTICLE: 1. 1942 2. Cinderella's Sisters - Dorothy Ko 2007-12-17

Footbinding is widely condemned as perverse & as symbolic of male domination over women. This study offers a more complex explanation of a thousand year practice, contending that the binding of women's feet in China was sustained by the interests of both women and men.

Shotokan Karate- Easiest way to get Black Belt - Pradeep Kumar Yadav 2021-02-10

"FOREWORD" for this magnificent book is written by 6 Time World Boxing Champion, M.C. Mary Kom. The remarkable part of this Karate book is that it is fully colored adorned with high-resolution photographs and its coffee-table size makes it a memorable and unique book in the world. This book is precious and useful for those Karateka who need to take in Shotokan style Karate from White Belt to Black Belt with the aim of full devotion towards learning and rehearsing Karate. Each pursuer of this book will know much about the fundamentals of Shotokan Kata. What's more, this book incorporates a portrayal of the positions of some advanced movements of the Shotokan style that are performed by me only, so that every Karateka can see clear photos and catch on it quickly in a simple manner. This book is composed for everyone who is inspired by the Shotokan Karate and needs to look behind credible Shotokan Karate more profoundly. For those, keen on extending their insight and improving their capacities with the applications depicted and delineated in this book, I recommend perusing this book completely to get each stance exhibited by me along with its full description about that particular stance so that it may be learned very well by the Karateka straight forwardly.

Koh-i-Noor - William Dalrymple 2017-09-12

From the internationally acclaimed and bestselling historians William Dalrymple and Anita Anand, the first comprehensive and authoritative history of the Koh-i-Noor diamond, arguably the most celebrated jewel in the world. On March 29, 1849, the ten-year-old leader of the Sikh kingdom of the Punjab was ushered into the magnificent Mirrored Hall at the center of the British fort in Lahore, India. There, in a formal Act of Submission, the frightened but dignified child handed over to the British East India Company swathes of

the richest land in India and the single most valuable object in the subcontinent: the celebrated Koh-i-Noor diamond, otherwise known as the Mountain of Light. To celebrate the acquisition, the British East India Company commissioned a history of the diamond woven together from the gossip of the Delhi Bazaars. From that moment forward, the Koh-i-Noor became the most famous and mythological diamond in history, with thousands of people coming to see it at the 1851 Great Exhibition and still more thousands repeating the largely fictitious account of its passage through history. Using original eyewitness accounts and chronicles never before translated into English, Dalrymple and Anand trace the true history of the diamond and disperse the myths and fantastic tales that have long surrounded this awe-inspiring jewel. The resulting history of south and central Asia tells a true tale of greed, conquest, murder, torture, colonialism, and appropriation that shaped a continent and the Koh-i-Noor itself.

Saving Us - Katharine Hayhoe 2021-09-21

United Nations Champion of the Earth, climate scientist, and evangelical Christian Katharine Hayhoe changes the debate on how we can save our future in this nationally bestselling “optimistic view on why collective action is still possible—and how it can be realized” (The New York Times). Called “one of the nation’s most effective communicators on climate change” by The New York Times, Katharine Hayhoe knows how to navigate all sides of the conversation on our changing planet. A Canadian climate scientist living in Texas, she negotiates distrust of data, indifference to imminent threats, and resistance to proposed solutions with ease. Over the past fifteen years Hayhoe has found that the most important thing we can do to address climate change is talk about it—and she wants to teach you how. In *Saving Us*, Hayhoe argues that when it comes to changing hearts and minds, facts are only one part of the equation. We need to find shared values in order to connect our unique identities to collective action. This is not another doomsday narrative about a planet on fire. It is a multilayered look at science, faith, and human psychology, from an icon in her field—recently named chief scientist at The Nature Conservancy. Drawing on interdisciplinary research and personal stories, Hayhoe shows that small conversations can have astonishing results. *Saving Us* leaves us with the tools to open a dialogue with your loved ones about how we all can play a role in pushing forward for change.

Working towards the Monarchy - Serhat Ünaldi 2016-05-31

In the twilight years of Thailand's ailing King Bhumibol, battles between royalists and their red shirt opponents are increasing, and the tectonic shifts that lie beneath Thailand's decade-old political crisis have become increasingly apparent. Serhat Ünaldi's *Working towards the Monarchy* sheds new light on recent developments with its bold analysis of urban space in downtown Bangkok: buildings, the author finds, are abstractions of the complexities that shape Thailand's transformation. Most criticism of the political role of the Thai monarchy—its deep involvement in Thailand's uneven capitalist development, Bhumibol's endorsement of military coups and his silent acquiescence to political violence—has focused on the role of individuals: the king, the royal family, or privy councilors. Ünaldi departs from such limited intentionalist approaches to show instead just how deeply enmeshed the monarchy is in Thai society as a whole. He demonstrates how and why Thais from all walks of life drew on royal charisma to advance their individual aims, in effect "working towards the monarchy." Ünaldi's sociological analysis of urban space reveals how buildings and spaces have been constructed for political and economic ends, particularly to shore up the monarchy. For several decades the architecture in central Bangkok has helped protect the charisma of the monarchy, which dominates landholdings and investments in the area. Because the sacred aura of the royal family legitimized capitalist expansion and consumerism, it was defended and enhanced by those Bangkokians who profited from it. Yet politically and geographically marginalized Thais failed to benefit from this royalist-led capitalist development and eventually found a new leader, business tycoon-cum-politician Thaksin Shinawatra. When Thaksin's followers turned against royal charisma and attacked the architecture that represented and supported it, movement away from royal charismatic authority became a real possibility for the first time. By combining sociology, political science, architecture, and anthropology, *Working towards the Monarchy* offers a unique interdisciplinary approach. It will interest scholars and generalists alike, particularly those involved in the comparative study of monarchies.

Politics of Ethnic Classification in Vietnam - Masako Itō 2013

Officially, the Socialist Republic of Vietnam has a total of 54 ethnic groups, including the majority Kinh and

53 ethnic minority groups. This book examines the history of the ethnic group determination process, highlighting some of the challenges the official policies pose to both the state and the affected peoples. Vietnam has proudly embraced its multiethnic identity, seeking the equality of all ethnic groups in the interests of national unity. Yet, among other things, it appears that the total number of ethnic categories was rather arbitrarily determined initially, and then fiercely defended by influential politicians and academics. Furthermore, the extensive field surveys reveal that ethnic policies are frequently manipulated at the regional and local levels in pursuit of economic interests, and not infrequently, to the detriment of those they were intended to benefit. (Series: Kyoto Area Studies on Asia - Vol. 23) *** Professor Ito has succeeded admirably in juxtaposing her study of official documents, interviews with officials and academics, and the results of her own excellent first-hand field work to demonstrate why ethnic classification in Vietnam has been far more a political than a scientific project. Her book deserves to be read not only by those interested in Vietnam but also by others interested in the politics of ethnicity more generally. - *Pacific Affairs*, Vol. 87, No. 4, December 2014

The Daily Stoic - Ryan Holiday 2016-10-18

From the team that brought you *The Obstacle Is the Way* and *Ego Is the Enemy*, a beautiful daily devotional of Stoic meditations—an instant Wall Street Journal and USA Today Bestseller. Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. *The Daily Stoic* offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.

Lonely Planet's Best in Travel 2020 - Lonely Planet 2019-10-22

This annual bestseller ranks the hottest countries, regions and cities for 2020, and reveals how well-planned, sustainable travel can be a force for good. Drawing on the knowledge and passion of Lonely Planet's staff, authors and online community, we present a year's worth of inspiration to take you out of the

ordinary and into the unforgettable.

The Economist - 2005

Understanding Morphology - Martin Haspelmath 2013-10-28

This new edition of *Understanding Morphology* has been fully revised in line with the latest research. It now includes 'big picture' questions to highlight central themes in morphology, as well as research exercises for each chapter. *Understanding Morphology* presents an introduction to the study of word structure that starts at the very beginning. Assuming no knowledge of the field of morphology on the part of the reader, the book presents a broad range of morphological phenomena from a wide variety of languages. Starting with the core areas of inflection and derivation, the book presents the interfaces between morphology and syntax and between morphology and phonology. The synchronic study of word structure is covered, as are the phenomena of diachronic change, such as analogy and grammaticalization. Theories are presented clearly in accessible language with the main purpose of shedding light on the data, rather than as a goal in themselves. The authors consistently draw on the best research available, thus utilizing and discussing both functionalist and generative theoretical approaches. Each chapter includes a summary, suggestions for further reading, and exercises. As such this is the ideal book for both beginning students of linguistics, or anyone in a related discipline looking for a first introduction to morphology.

Educating the Student Body - Committee on Physical Activity and Physical Education in the School Environment 2013-11-13

Physical inactivity is a key determinant of health across the lifespan. A lack of activity increases the risk of heart disease, colon and breast cancer, diabetes mellitus, hypertension, osteoporosis, anxiety and depression and others diseases. Emerging literature has suggested that in terms of mortality, the global population health burden of physical inactivity approaches that of cigarette smoking. The prevalence and substantial disease risk associated with physical inactivity has been described as a pandemic. The prevalence, health impact, and evidence of changeability all have resulted in calls for action to increase physical activity across the lifespan. In response to the need to find ways to make physical activity a health priority for youth, the Institute of Medicine's Committee on Physical Activity and Physical Education in the School Environment was formed. Its purpose was to review the current status of physical activity and physical education in the school environment, including before, during, and after school, and examine the influences of physical activity and physical education on the short and long term physical, cognitive and brain, and psychosocial health and development of children and adolescents. *Educating the Student Body* makes recommendations about approaches for strengthening and improving programs and policies for physical activity and physical education in the school environment. This report lays out a set of guiding principles to guide its work on these tasks. These included: recognizing the benefits of instilling life-long physical activity habits in children; the value of using systems thinking in improving physical activity and physical education in the school environment; the recognition of current disparities in opportunities and the need to achieve equity in physical activity and physical education; the importance of considering all types of school environments; the need to take into consideration the diversity of students as recommendations are developed. This report will be of interest to local and national policymakers, school officials, teachers, and the education community, researchers, professional organizations, and parents interested in physical activity, physical education, and health for school-aged children and adolescents.

Registries for Evaluating Patient Outcomes - Agency for Healthcare Research and Quality/AHRQ 2014-04-01

This User's Guide is intended to support the design, implementation, analysis, interpretation, and quality evaluation of registries created to increase understanding of patient outcomes. For the purposes of this guide, a patient registry is an organized system that uses observational study methods to collect uniform data (clinical and other) to evaluate specified outcomes for a population defined by a particular disease, condition, or exposure, and that serves one or more predetermined scientific, clinical, or policy purposes. A registry database is a file (or files) derived from the registry. Although registries can serve many purposes, this guide focuses on registries created for one or more of the following purposes: to describe the natural history of disease, to determine clinical effectiveness or cost-effectiveness of health care products and services, to measure or monitor safety and harm, and/or to measure quality of care. Registries are classified according to how their populations are defined. For example, product registries include patients who have been exposed to biopharmaceutical products or medical devices. Health services registries consist of patients who have had a common procedure, clinical encounter, or hospitalization. Disease or condition registries are defined by patients having the same diagnosis, such as cystic fibrosis or heart failure. The User's Guide was created by researchers affiliated with AHRQ's Effective Health Care Program, particularly those who participated in AHRQ's DEcIDE (Developing Evidence to Inform Decisions About Effectiveness) program. Chapters were subject to multiple internal and external independent reviews.

Parenting Matters - National Academies of Sciences, Engineering, and Medicine 2016-11-21

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Caodaism - Serguei A. Blagov 2001

Contents: Preface; Ideological and Historical Roots; Emergence of Caodaism; Caodaism Doctrine and Canon; Caodaism Spiritism and Millenarism; Caodaist Hierarchy and Rituals; Caodaism:1927-1930; Caodaism: 1930-1940; Foreign Mission; Caodaism: 1940-1955; Caodaism: 1955-1975; Tay Ninh Church; Caodaist Sectarianism; Caodaism in Post-1975 Vietnam; Epilogue; Bibliography; Index.

Continental Marine - 2001

Sources of Vietnamese Tradition - George Edson Dutton 2012

Sources of Vietnamese Tradition provides an essential guide to two thousand years of Vietnamese history and a comprehensive overview of the society and state of Vietnam. Strategic selections illuminate key figures, issues, and events while building a thematic portrait of the country's developing territory, politics, culture, and relations with neighbors. The volume showcases Vietnam's remarkable independence in the face of Chinese and other external pressures and respects the complexity of the Vietnamese experience both past and present. The anthology begins with selections that cover more than a millennium of Chinese dominance over Vietnam (111 B.C.E.--939 C.E.) and follows with texts that illuminate four centuries of independence ensured by the Ly, Tran, and Ho dynasties (1009--1407). The earlier cultivation of Buddhism and Southeast Asian political practices by the monarchy gave way to two centuries of Confucian influence and bureaucratic governance (1407--1600), based on Chinese models, and three centuries of political competition between the north and the south, resolving in the latter's favor (1600--1885). Concluding with

the colonial era and the modern age, the volume recounts the ravages of war and the creation of a united, independent Vietnam in 1975. Each chapter features readings that reveal the views, customs, outside influences on, and religious and philosophical beliefs of a rapidly changing people and culture. Descriptions of land, society, economy, and governance underscore the role of the past in the formation of contemporary Vietnam and its relationships with neighboring countries and the West.
