alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

Writing for an Endangered World - Lawrence BUELL 2009-06-30

The environmental imagination does not stop short at the edge of the woods. Nor should our understanding of it, as Lawrence Buell makes powerfully clear in his new book that aims to reshape the field of literature and environmental studies. Emphasizing the influence of the physical environment on individual and collective perception, his book thus provides the theoretical underpinnings for an ecocriticism now reaching full power, and does so in remarkably clear and concrete ways. *Writing for an Endangered World* offers a conception of the physical environment—whether built or natural—as simultaneously found and constructed, and treats imaginative representations of it as acts of

both discovery and invention. A number of the chapters develop this idea through parallel studies of figures identified with either "natural" or urban settings: John Muir and Jane Addams; Aldo Leopold and William Faulkner; Robinson Jeffers and Theodore Dreiser; Wendell Berry and Gwendolyn Brooks. Focusing on nineteenth- and twentieth-century writers, but ranging freely across national borders, his book reimagines city and country as a single complex landscape. Reviews of this book: Author of the widely influential *The Environmental Imagination*, Buell is a major figure in contemporary ecocriticism. Here, in broadening the scope of his earlier book, Buell blurs the usual distinction between natural and built environments. Exploring how a variety of texts imagine urban, rural, ocean, and desert places, he convincingly argues that literary imagination is powerfully shaped by—and shapes—a single, complex environment that is both found and constructed...Buell's book is important: it points ecocriticism in profoundly new and welcome directions. --W. Conlogue, Choice

The Psychopath Test - Jon Ronson 2011-05-12

In this madcap journey, a bestselling journalist investigates psychopaths and the industry of doctors, scientists, and everyone else who studies them. *The Psychopath Test* is a fascinating journey through the minds of madness. Jon Ronson's exploration of a potential hoax being played on the world's top neurologists takes him, unexpectedly, into the heart of the madness industry. An influential psychologist who is convinced that many important CEOs and politicians are, in fact, psychopaths teaches Ronson how to spot these high-flying individuals by looking out for little telltale verbal and nonverbal clues. And so Ronson, armed with his new psychopath-spotting abilities, enters the corridors of power. He spends time with a death-squad leader institutionalized for mortgage fraud in Coxsackie, New York; a legendary CEO whose psychopathy has been speculated about in the

press; and a patient in an asylum for the criminally insane who insists he's sane and certainly not a psychopath. Ronson not only solves the mystery of the hoax but also discovers, disturbingly, that sometimes the personalities at the helm of the madness industry are, with their drives and obsessions, as mad in their own way as those they study. And that relatively ordinary people are, more and more, defined by their maddest edges.

Saint Joseph - Leonardo Boff 2009-02-16

In *Saint Joseph* Leonardo Boff seeks to provide a vigorous critique and theological analysis of Saint Joseph and in so doing attempts to undo historical misconceptions, misunderstandings, and clichés that surround the figure of Joseph. The book provides a comprehensive view of the topic as it takes into account biblical references, including the apocrypha, church tradition, papal edicts, liturgical expressions, and various viewpoints proposed by theologians. Boff is also concerned with updating the figure of Saint Joseph; his first step in this direction is to provide a clear understanding of the life of Joseph as an artisan, husband, father, and educator. He then deals with the issue of the importance of Saint Joseph for current issues concerning family and fatherhood. Lastly, Boff argues that Saint Joseph helps us to understand new facets of the mystery of God, and the author does this through his argument concerning the order of hypostatic union, where, according to his argument, there is a relation between Jesus and the Son, Mary and the Holy Spirit, and Joseph and the Father. Boff seeks here to fill a gap in the theological literature, given that theologians have concentrated their efforts on Jesus and the Son and Christology, and Mary and the Holy Spirit and Mariology; but these same theologians have, by and large, given very little time to the figure of Saint Joseph and the Father and Josephology.

Unbroken - Charles Papiernik 2004

Twentieth-century Jewish history is embodied in

this autobiography of a World War II Holocaust survivor who lives today in Argentina. Charles Papiernik was educated in a Polish shtetl, a small town. Breaking away from his ultra-orthodox Hasidic teachers, he became active in socialist youth movements in Warsaw and moved to Paris to join his brothers. In spite of being deported and spending time in concentration camps, including Auschwitz, he survived the war and immigrated to Montevideo, Uruguay, where he opened a business and prospered. After twenty-five years in Uruguay, political and economic turmoil prompted him to immigrate once again, this time to Buenos Aires, where, once again, his business acumen led to financial success. He eventually retired, devoting his energies to telling the public about the horrors of the Holocaust. One of the few South American Holocaust memoirs available in English, Papiernik's story is very different from the stereotypical image of Holocaust survivors in South America forced to live cheek by jowl with ex-Nazis. Papiernik took Uruguay and Argentina by storm and claims never to have encountered anti-Semitism.

And for seven years he’s been at large, free to savor the scents, the essences, of an unguarded world. But intruders have entered Dr. Lecter’s world, piercing his new identity, sensing the evil that surrounds him. For the multimillionaire Hannibal left maimed, for a corrupt Italian policeman, and for FBI agent Clarice Starling, who once stood before Lecter and who has never been the same, the final hunt for Hannibal Lecter has begun. All of them, in their separate ways, want to find Dr. Lecter. And all three will get their wish. But only one will live long enough to savor the reward. . . . Out of this incident during the early months of Spain's tragic civil war, Manuel Rivas weaves a colourful tapestry of stories and unforgettable characters to create a panorama of twentieth-century Spanish history. For it is not only the lives of Hercules the boxer and his friends that are tainted by the unending conflict, but also those of a young washerwoman who sees souls in the clouded river water and the stammering son of a judge who uncovers his father's hidden library. Narrative of the Incas - Juan de Betanzos 2010-06-28

One of the earliest chronicles of the Inca empire was written in the 1550s by Juan de Betanzos. Although scholars have long known of this work, only eighteen chapters were actually available until the 1980s when the remaining sixty-four chapters were discovered in the collection of the Fundación Bartolomé March in Palma de Mallorca, Spain. *Narrative of the Incas* presents the first complete English translation of the original manuscript of this key document. Although written by a Spaniard, it presents an authentic Inca worldview, drawn from the personal experiences and oral traditions told to Betanzos by his Inca wife, Doña Angelina, and other members of her aristocratic family who lived during the reigns of the last Inca rulers, Huayna Capac Huascar and Atahualpa. Betanzos wrote a history of the Inca empire that focuses on the major rulers and the contributions each one made to the growth of the empire and of Inca culture. Filled with new insights into Inca politics, marriage, laws, the calendar, warfare, and other matters, *Narrative of the Incas* is essential reading for everyone interested in this ancient civilization.

Leonardo da Vinci - Walter Isaacson
2017-10-17

The #1 New York Times bestseller from Walter Isaacson brings Leonardo da Vinci to life in this exciting new biography that is "a study in creativity: how to define it, how to achieve it...Most important, it is a powerful story of an exhilarating mind and life" (The New Yorker). Based on thousands of pages from Leonardo da Vinci's astonishing notebooks and new discoveries about his life and work, Walter Isaacson "deftly reveals an intimate Leonardo" (San Francisco Chronicle) in a narrative that connects his art to his science. He shows how Leonardo's genius was based on skills we can improve in ourselves, such as passionate curiosity, careful observation, and an imagination so playful that it flirted with fantasy. He produced the two most famous paintings in history, The Last Supper and the Mona Lisa. With a passion that sometimes became obsessive, he pursued innovative studies of anatomy, fossils, birds, the heart, flying machines, botany, geology, and weaponry. He explored the math of optics, showed how light rays strike the cornea, and produced illusions of changing perspectives in The Last Supper. His ability to stand at the crossroads of the humanities and the sciences, made iconic by his drawing of Vitruvian Man, made him history's most creative genius. In the "luminous" (Daily Beast) Leonardo da Vinci, Isaacson describes how Leonardo's delight at combining diverse passions remains the ultimate recipe for creativity. So, too, does his ease at being a bit of a misfit: illegitimate, gay, vegetarian, left-handed, easily distracted, and at times heretical. His life should remind us of the importance to be imaginative and, like talented rebels in any era, to think different. Here, da Vinci "comes to life in all his remarkable brilliance and oddity in Walter Isaacson's ambitious new biography...a vigorous, insightful portrait" (The Washington

Post).

The Metal of the Dead - Concha Espina 2003

"The human dimension in the novel revolves around the romantic entanglements of three youthful women whose different personalities reflect their regional provenance in a somewhat stereotypical manner: Aurora is a sweet blond woman from Spain's northern highlands, Rosario is a professional newspaper reporter from Madrid, and Casilda is a dark-haired and passionate Andalusian beauty."--BOOK JACKET.

Sustainable Poetry - Leonard M. Scigaj
2021-12-15

Focusing on the work of A.R. Ammons, Wendell Berry, W.S. Merwin, and Gary Snyder, author Leonard Scigaj shows that just as a sustainable society does not depreciate its resource base, so a sustainable poetry does not restrict interest to language. Over the past thirty years many poets have shown an increasing sensitivity to ecological thinking. But critics trained in poststructuralist language theory often fail to explore the substance of ecopoetry. Scigaj is the first to define ecopoetry as separate and distinct from nature or environmental poetry, marked by its concern with balancing the interests of human beings with the needs of nature. Just as science learned that the earth was not the center of the universe, ecopoetry insists on the recognition that humans are not at the center of the natural world.

Narcoland - Anabel Hernandez 2013-09-10

The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, Narcoland has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, Narcoland takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names - not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and

business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels."

The Mystery of the Talking Skull - Robert Arthur 1992-01-01

An old trunk involves the three investigators with dangerous criminals seeking a cache of stolen money.

The Count of Monte Cristo - Alexander Dumas 2019-06-27

The Count of Monte Cristo is an adventure novel by French author Alexandre Dumas. It is one of the author's most popular works, along with The Three Musketeers. Like many of his novels, it is expanded from plot outlines suggested by his collaborating ghostwriter Auguste Maquet. The story takes place in France, Italy and islands in the Mediterranean during the historical events of 1815-1838. It begins from just before the Hundred Days period (when Napoleon returned to power after his exile) and spans through to the reign of Louis-Philippe of France. The historical setting is a fundamental element of the book. An adventure story primarily concerned with themes of hope, justice, vengeance, mercy and forgiveness, it focuses on a man who is wrongfully imprisoned, escapes from jail, acquires a fortune and sets about getting revenge on those responsible for his imprisonment. However, his plans have devastating consequences for the innocent as well as the guilty. In addition, it is a story that involves romance, loyalty, betrayal and selfishness, shown throughout the story as characters slowly reveal their true inner nature.

The book is considered a literary classic today. According to Luc Sante, "The Count of Monte Cristo has become a fixture of Western civilization's literature, as inescapable and immediately identifiable as Mickey Mouse, Noah's flood, and the story of Little Red Riding Hood."

On Heroes and Tombs - Ernesto R. Sabato 2017

Godine first published this towering work of Latin American literature in 1981, to a front page New York Times review. Now reissued in softcover with a new introduction, the book, often mentioned in the same breath as Borges, was praised by Camus and writers as various as Thomas Mann, Graham Greene, Pablo Neruda, Salman Rushdie, and Colm Tóibín. Sabato was an important political figure as well as a novelist, exposing the state terrorism of Argentina's "dirty war" while writing about everything from metaphysics to tango. On Heroes and Tombs is his masterpiece. In his obituary in 2011, the New York Times wrote, "In 1972, the Chilean poet Pablo Neruda listed Mr. Sabato among the Latin American writers who displayed 'greater vitality and imagination than anything since the great Russian novels' of the 19th century. On Heroes and Tombs, the story of a young man trying to find his way in life in Buenos Aires, is considered his most important work of fiction. But many people also know Mr. Sabato for his work in helping Argentina heal when democracy was restored in 1983 after seven years of military dictatorship." This book is woven around a violent crime: the scion of a prominent Argentinian family, Alejandra, shoots her father and burns herself alive over his corpse. The story shifts between perspectives to reveal the lives of those closest to her, telling of Martin, her troubled lover; Bruno, a writer who loved her mother; and Fernando, her father, who believes himself hunted by a secret, international organization of the blind. Exploring the tumult of Buenos Aires in the 1950s, Heroes illuminates its characters against burning churches and corporate greed. An examination of Argentinian history and culture, it reveals the country at every level, leading its reader into a world of passion, philosophy, and paranoia that still persists. Book jacket.
