21st Century Boys: The Perfect Edition, Vol. 1 - Naoki Urasawa 2021-06-15

A deluxe bind-up edition of Naoki Urasawa's award-winning epic of doomsday cults, giant robots and a group of friends trying to save the world from destruction! Humanity, having faced extinction at the end of the 20th century, would not have entered the new millennium if it

This is the story of a group of boys who try to save the world. The war is over. The Friend is dead. Finally free from the threat of extinction, peace has come to the people of Tokyo once again. But the mystery surrounding the Friend still remains. Nobody knows who the Friend was or where they came from, and the only clue is hidden deep in the Kenji's memories. The time has come to open Pandora's box and see what lies inside.

Planting Parliaments in Eurasia, 1850-1950 - Ivan Sablin 2021-05-31

Parliaments are often seen as Western European and North American institutions and their establishment in other parts of the world as a derivative and mostly defective process. This book challenges such Eurocentric visions by retracing the evolution of modern institutions of collective decision-making in Eurasia. Breaching

the divide between different area studies, the book provides nine case studies covering the area between the eastern edge of Asia and Eastern Europe, including the former Russian, Ottoman, Qing, and Japanese Empires as well as their successor states. In particular, it explores the appeals to concepts of parliamentarism, deliberative decision-making, and constitutionalism; historical practices related to parliamentarism; and political mythologies across Eurasia. It focuses on the historical and "reestablished" institutions of decision-making, which consciously hark back to indigenous traditions and adapt them to the changing circumstances in imperial and postimperial contexts. Thereby, the book explains how representative institutions were needed for the establishment of modernized empires or postimperial states but at the same time offered a connection to the past.

Semiotics of Animals in Culture - Gianfranco Marrone 2018-02-28

To place animals within the realm of nature, means inserting them among the articulations of culture and the social. Semiotics has never avoided this chiasmus, choosing to deal from the outset with the problem of the languages of

animals following the old admonition of Montaigne: it is not that animals do not talk, it is us who do not understand them. Recent research in the field of the anthropology of nature and sociology of sciences and techniques allow to think about the Zoosemiotic issue in a different way. Instead of transplanting the language structures - gestures, LIS, etc. - for a semiotic study of the forms of the human and social meaning, it seems more apt to look at their discourse, and as such, the actual interactions, communicative and scientific as well as practical and functional, between humans and non-humans. This book aims to investigate precisely this hypothesis, known here as Zoosemiotics 2.0, working on several fronts and levels: · Anthropology · Languages of the image and visual representations, from art history to cinema · Old and new media. From literature to comics, from cartoons to TV documentaries but also advertising, music, Web and social networks. All those cultural products

that talk about the role of human and non-human in society implicitly proposing (and in some way imposing) a form of articulation of such a relationship. · Food and feeding rites · Animalist, vegetarian and vegan movements · Philosophy: metaphysics, ethics, aesthetics
