**Across the Void** - S.K. Vaughn 2019-07-02

A visceral space thriller—perfect for fans of Arrival and The Martian—following the sole survivor of a catastrophic accident in space that leaves her drifting in the void with only the voice of her estranged husband, a NASA scientist, to guide her back to Earth. Commander Maryam “May” Knox awakes from a medically induced coma alone, adrift in space on a rapidly failing ship, with little to no memory of who she is

or why she’s there. Slowly, she pieces together that she’s the captain of the ship, Hawking II; that she was bound for Europa—one of Jupiter’s moons—on a research mission; and that she’s the only survivor of either an accident—or worse, a deliberate massacre—that has decimated her entire crew. With resources running low, and her physical strength severely compromised, May must rely on someone back home to help her. The problem is: everyone thinks she’s dead. Back on Earth, it’s been weeks since Hawking II has communicated with NASA, and Dr. Stephen Knox is on bereavement leave to deal with the apparent death of his estranged wife, whose decision to participate in the Europa mission strained their marriage past the point of no return. But when he gets word that NASA has received a transmission from May, Stephen comes rushing to her aid. What he doesn’t know is that not everyone wants May to make it back alive. Even more terrifying: she might not be alone on that ship. Featuring a twisting and suspenseful plot and compelling characters, Across the Void is a moving and evocative thriller that you won’t be able to put down.

Renato Salvi - Bruno Marchand 2011

Architect Renato Salvi from the Canton of Jura is active in a field that includes public structures, residential buildings, and civil engineering structures along the A16 Autobahn. He has been involved with works on the "Transjurane" Autobahn for more than twenty years. Salvi, an ETH graduate, has had his own office in Delémont since 1998. Building in peripheral locations is characteristic of the office. Despite what are often limited means, an attempt is made to bring out the best from the location and develop constructive solutions that correspond with local know-how and culture. The vocabulary thus developed is sculptural, with particular attention to the quality of the captured light. From inside, views focus on the landscape, and from outside, a strong expression is intended.

**Lala Pipo** - Hideo Okuda 2008-07-22

"This sleazy novel is not recommendable for ladies and gentlemen." So reads the jacket of the Japanese edition of this collection of six dark, interrelated, tragicomic chapters dealing with themes of desire, inadequacy, and failure, using the underbelly of sex as its canvas. As misheard by one of the characters, "a lot of people," is "Lala Pipo." Lala Pipo is an ingenious tapestry of absurdity, whose cast of unlikable characters cross the line of good taste that even those who have crossed the line cannot help but notice. Each act pushes the envelope past the one preceding it. It's like an episode of Seinfeld directed by Bob Guccione, all the story elements cleverly weaving together, taking the

reader from shock to gut-busting hilarity with each tale. The main difference: these losers are X-rated.

**Chess Explained** - Reinaldo Vera 2008-01-01

Chess Explained books provide an understanding of an opening and the middlegames to which it leads, enabling you to find the right moves and plans in your own games. It is as if you were sitting at the board with a chess coach answering your questions about the plans for both sides, the ideas behind particular moves, and what specific knowledge you need to have. The Nimzo-Indian is one of the most important of all chess openings, and popular at all levels of play. Together with the Queen's Indian (also covered in this series), the Nimzo has provided the backbone of the opening repertoire of a large portion of the world's top players over the last 80 years. It is considered a fully reliable defence, and provides winning chances for both sides as it leads to structures of great strategic variety and complexity. Key battlegrounds in the Nimzo include the blockade, IQP positions, the handling of unbalanced pawn-structures, and the struggle between bishop and knight. All these topics are covered in depth in this book, and an understanding of them will prove valuable in a much broader context than just the Nimzo-Indian.
