*In The Time Of The Americans* - David Fromkin  
2013-01-23

Coming of age during World War I and attaining their finest hour in World War II and the Cold War, these men -- FDR, Truman, Eisenhower, Marshall, MacArthur -- transformed America from an isolated frontier nation into a global superpower. As he tells their stories, Fromkin, author of *A Peace to End All Peace*, shows how this generation not only made America great but largely succeeded in making it a force for good.

Full of first-hand, never before investigated, and elsewhere unavailable information, *Animation: A World History* encompasses the history of animation production on every continent over the span of three centuries. Take part in the turmoil of the 1950s through 90s as American animation began to lose its momentum and the advent of television created a global interest in the art form. Japanese Sports - Allen Guttman 2001-06-01

In this first synthetic, comprehensive survey of Japanese sports in English, the authors are attentive to the complex and fascinating interaction of traditional and modern elements. In the course of tracing the emergence and development of sumo, the martial arts, and other traditional sports from their origins to the present, they demonstrate that some cherished "ancient" traditions were, in fact, invented less than a century ago. They also register their

skepticism about the use of the samurai tradition to explain Japan's success in sports. Special attention is given to Meiji-era Japan's frequently ambivalent adoption and adaptation of European and American sports--a particularly telling example of Japan's love-hate relationship with the West. The book goes on to describe the history of physical education in the school system, the emergence of amateur and professional leagues, the involvement of business and the media in sports promotion, and Japan's participation in the Olympics. explores the convergence of literacy, creativity, social development, and personal identity in one of New York City's largest high schools. Since 2004, students at Martin Luther King, Jr., High School in Manhattan have been creating manga—Japanese comic books. They write the stories, design the characters, and publish their works in print and on the Internet. These students—African-American and Latino teenagers—are more than interested in the art and medium of manga. They have become completely engrossed in Japanese language, culture, and society. Manga High is highlighted by reproductions and content analysis of students' original art and writing. An appendix includes guidelines for educators on starting a comic book club.

**American Soccer** - Gregory G. Reck 2015-01-24

This narrative of U.S. soccer's history and present-day status addresses the issues of socioeconomics. Emphasizing the differences between social classes in U.S. soccer past and present, as well as those between American soccer and international football, this work analyzes the role of class in American soccer's failure to carve out a more prominent place in the sports landscape. Contemporary soccer is explored from its beginnings in informal Parks

and Recreation leagues to the development of formal club programs, and university, professional, and U.S. national teams. In recent decades, Hispanic leagues formed primarily by Mexican and Central American immigrants have reinforced the theme of a class-based, exclusionary space in U.S. soccer. A personal perspective based on the authors' experience coaching soccer at the informal level broadens the book's appeal.

The Art of WALL-E - Tim Hauser 2016-02-02  
Pixar Animation Studios, the innovators behind Toy Story, Finding Nemo, and Ratatouille, created this genre-defying film with an intriguing and unorthodox question in mind: What if mankind had to leave Earth, and somebody forgot to turn off the last robot? WALL-E (Waste Allocation Load Lifter-Earth Class) is this last, soulful robot. When his lonely work is interrupted by the arrival of the sleek probe-droid EVE, a rollicking adventure across the galaxy ensues. The Art of WALL-E features

the myriad pieces of concept art on which this fantastic, futuristic film was built, including storyboards, full-color pastels, digital and pencil sketches, character studies, color scripts, and more. Astute text-featuring quotes from the director, artists, animators, and production team-unearths the filmmakers' historical inspirations and recounts the creative process in intimate detail. This richly illustrated portal into the artistic spirit of Pixar reveals a studio confidently pushing the limits of animation.

Sport and Body Politics in Japan - Wolfram Manzenreiter 2013-08-15

There is more to Japanese sport than sumo, karate and baseball. This study of social sport in Japan pursues a comprehensive approach towards sport as a distinctive cultural sphere at the intersection of body culture, political economy, and cultural globalization. Bridging the gap between Bourdieu and Foucault, it explains the significance of the body as a field of action and a topic of discourse in molding

subject and society in modern Japan. More specifically, it provides answers to questions such as how and to what purposes are politics of the body articulated in Japan, particularly in the realm of sport? What is the agenda of state actors that develop politics aiming at the body, and to what degree are political and societal objectives impacted by commercial and non-political actors? How are political decisions on the allocation of resources made, and what are their consequences for sporting opportunities and practices of the body in general? Without neglecting the significance of sport spectatorship, this study takes a particular angle by looking at sport as a field of practice, pain and pleasure.

Imagining the Global - Fabienne Darling-Wolf  
2014-12-22

Based on a series of case studies of globally distributed media and their reception in different parts of the world, *Imagining the Global* reflects on what contemporary global

culture can teach us about transnational cultural dynamics in the 21st century. A focused multisited cultural analysis that reflects on the symbiotic relationship between the local, the national, and the global, it also explores how individuals' consumption of global media shapes their imagination of both faraway places and their own local lives. Chosen for their continuing influence, historical relationships, and different geopolitical positions, the case sites of France, Japan, and the United States provide opportunities to move beyond common dichotomies between East and West, or United States and "the rest." From a theoretical point of view, *Imagining the Global* endeavors to answer the question of how one locale can help us understand another locale. Drawing from a wealth of primary sources—several years of fieldwork; extensive participant observation; more than 80 formal interviews with some 160 media consumers (and occasionally producers) in France, Japan, and the United States; and

analyses of media in different languages—author Fabienne Darling-Wolf considers how global culture intersects with other significant identity factors, including gender, race, class, and geography. *Imagining the Global* investigates who gets to participate in and who gets excluded from global media representation, as well as how and why the distinction matters.

August Macke and Franz Marc - Volker Adolphs 2014-10

The friendship between Franz Marc (1880-1916) and August Macke (1887-1914) was of vital importance to both painters. Their close bond lasted four years and came to an abrupt end with the death of Macke shortly after the outbreak of World War I. This catalogue brings together paintings, watercolors, drawings, handcrafts, objects and documents from these two artists, demonstrating the extent to which they influenced one another in their work. While Macke, seven years younger than Marc, took a sensual and spontaneous approach to the visual world, his friend possessed an elevated, theoretical vision, seeking the spiritual unity of existence through the image. Despite conceptual, cultural and political differences, a deep mutual affection characterized their joint undertakings, such as the exhibitions of the *Blaue Reiter* or their conversations on Fauvism, Cubism, Futurism and the work of their contemporaries.

Once upon a time, one had to read Japanese in order to enjoy manga. Today manga has become a global phenomenon, attracting audiences in North America, Europe, Africa, and Australia. The style has become so popular, in fact, that in the US and UK publishers are appropriating the manga style in a variety of print material, resulting in the birth of harlequin mangas which combine popular romance fiction titles with manga aesthetics. Comic publishers such as Dark Horse and DC Comics are translating Japanese "classics", like Akira, into English. And of course it wasn't long before Shakespeare received the manga treatment. So what is manga? Manga roughly translates as "whimsical pictures" and its long history can be traced all the way back to picture books of eighteenth century Japan. Today, it comes in two basic forms: anthology magazines (such as Shukan Shonen Jampu) that contain several serials and manga 'books' (tankobon) that collect long-running serials from the anthologies and reprint

them in one volume. The anthologies contain several serials, generally appear weekly and are so thick, up to 800 pages, that they are colloquially known as phone books. Sold at newspaper stands and in convenience stores, they often attract crowds of people who gather to read their favorite magazine. Containing sections addressing the manga industry on an international scale, the different genres, formats and artists, as well the fans themselves, Manga: An Anthology of Global and Cultural Perspectives is an important collection of essays by an international cast of scholars, experts, and fans, and provides a one-stop resource for all those who want to learn more about manga, as well as for anybody teaching a course on the subject.

Sport studies and sports history have witnessed a recent substantial increase in publications. However, the relationship between literature and sport has been little explored. *Sport, Literature, Society* looks at a wide variety of case studies ranging from Japan to England, from India to Australia and covers sports as diverse as cycling, football, wrestling and boxing. It concentrates on historical perspectives. The contributors are all academics of international reputation and include historians of sport and literary scholars. Literature may shape our perceptions and reactions to sport as much as sport may inform our reading. As mimetic practice, as aesthetic object, as imaginative release, sport is analogous to literature and the other arts; at the same time, it can become the subject of literary, visual or musical elaborations. Literature often conceptualises the place and role of sport in culture and society. Indeed, sport inhabits literature in ways that have not been adequately

studied. Sport studies have investigated the relationships between sport and society, education, gender, nation, and class. To look again at these relationships through the prism of literature enables us to change our focus and to assess the centrality of sport in culture. This book was published as a special issue of the *International Journal of the History of Sport*. *JoJo's Bizarre Adventure: Part 3--Stardust Crusaders* - Hirohiko Araki 2006-09-05 Violent, strange saga spanning four continents and four generations. Araki's ideas are stretched increasingly thin, but there is still plenty of action and new concepts to sustain the interest of demanding Shounen Jump readers. Each part of Jojo can be read more or less independently, and has its own atmosphere and storytelling/art style.
