The exercises and studies in this book are written to supplement and augment the numerous elementary method books available. The preliminary exercises stress the fundamentals of scales, chords, and intervals in the various keys. The importance of these fundamental exercises must be recognized as the foundation of fine playing. The etudes develop style, tone, and interpretation. Some of these studies are designed to be played by a group, or in a sectional rehearsal, if desired. Careful attention to correct fingerings, rhythms, and phrasing in these and other studies will result in musically satisfying performance. **Composing with Constraints** - Jorge Variago 2021-07-13

Composing with Constraints: 100 Practical Exercises in Music Composition provides an innovative approach to the instruction of the craft of music composition based on tailored exercises to help students develop their creativity. When composition is condensed to a series of logical steps, it can then be taught and learned more efficiently. With this approach in mind, Jorge Variago offers a variety of practical exercises to help student composers and instructors to create tangible work plans with high expectations and successful outcomes. Each chapter starts with a brief note on terminology and general recommendations for the instructor. The first five chapters offer a variety of exercises that range from analysis and style imitation to the use of probabilities. The chapter about pre-compositional approaches offers original techniques that a student composer can implement in order to start a new work. Based on lateral thinking, the last section of the book fosters creative connections with other disciplines such as math, visual arts, and architectural acoustics. The one hundred exercises contain a unique set of guidelines and constraints that place students in a specific compositional framework. These compositional boundaries encourage students to produce creative work within a given structure. Using the methodologies in this book, students will be able to create their own outlines for their compositions, making intelligent and educated compositional choices that balance reasoning with intuition.
