The site initially began as the passion project of a retired HVAC technician. The site quickly gained popularity, building a strong community of aspiring HVAC technicians. Currently, it is managed by a team of ex-HVAC technicians with decades of experience in the industry. Head over to HVACTraining101.Com to learn more. We began by writing about how to become certified as an HVAC technician. With rules and certifications varying for each state, it was a challenging task.

We had a few friends in other states help us out, but for some states, we had to dig really deep to find the information needed. Our audience at the time was very happy with the information we provided. At this point, we started getting many questions about EPA 608 certification. Once you get the education and experience needed to become a technician, prospective employers will ask for certification to handle refrigerants. When we started writing about how to become certified, viewers again requested we write a study guide to help them prepare for the 608 exams. The study guides out there were dense and had much more information than was needed to pass the test. This inspired us to embark on a journey to write the simplest study guide for the EPA 608 exam, which would still cover all the necessary information. We hope we have achieved our intended objective. The journey to becoming an HVAC technician can be long and arduous. We congratulate you on taking this

path and wish you the best in cracking the EPA 608 exam.

Do you need some help with the practical aspect of the test? Are you sure that you really know how to apply all the knowledge you have learned? Throughout this book, you will examine case studies to help you apply concepts and ideas in real-world scenarios. While the names are fictional, many of these cases are based on real companies and the challenges they face. As you read these case studies, keep a notebook handy and make notes about what you see, any red flags for consideration, and how you might handle the responsibility if you were in charge. They are placed between the tests because we believe in the intermittent learning and practicing approach. You will also find the template of the most important documents you
