Pure - Julianna Baggott 2012-02-08
We know you are here, our brothers and sisters . . . Pressia barely remembers the Detonations or much about life during the Before. In her sleeping cabinet behind the rubble of an old barbershop where she lives with her grandfather, she thinks about what is lost-how the world went from amusement parks, movie theaters, birthday parties, fathers and mothers . . . to ash and dust, scars, permanent burns, and fused, damaged bodies. And now, at an age when everyone is required to turn themselves

over to the militia to either be trained as a soldier or, if they are too damaged and weak, to be used as live targets, Pressia can no longer pretend to be small. Pressia is on the run. Burn a Pure and Breathe the Ash . . . There are those who escaped the apocalypse unmarked. Pures. They are tucked safely inside the Dome that protects their healthy, superior bodies. Yet Partridge, whose father is one of the most influential men in the Dome, feels isolated and lonely. Different. He thinks about loss-maybe just because his family is broken; his father is emotionally distant; his brother killed himself; and his mother never made it inside their shelter. Or maybe it's his claustrophobia: his feeling that this Dome has become a swaddling of intensely rigid order. So when a slipped phrase suggests his mother might still be alive, Partridge risks his life to leave the Dome to find her. When Pressia meets Partridge, their worlds shatter all over again.

The Oxford Encyclopedia of the Bible and Gender Studies - Julia M. O'Brien 2014

As the first major encyclopedia of its kind, The Oxford Encyclopedia of the Bible and Gender Studies (OEBGS) is the go-to source for scholars and students undertaking original research in the field. Extending the work of nineteenth and twentieth century feminist scholarship and more recent queer studies, the Encyclopedia seeks to advance the scholarly conversation by systematically exploring the ways in which gender is constructed in the diverse texts, cultures, and readers that constitute the world of the Bible. With contributions from leading scholars in gender and biblical studies as well as contemporary gender theorists, classicists,

archaeologists, and ancient historians, this comprehensive reference work reflects the diverse and interdisciplinary nature of the field and traces both historical and modern conceptions of gender and sexuality in the Bible. The two-volume Encyclopedia contains more than 160 entries ranging in length from 1,000 to 10,000 words. Each entry includes bibliographic references and suggestions for further reading, as well as a topical outline and index to aid in research. The OEBGS builds upon the pioneering work of biblically focused gender theorists to help guide and encourage further gendered discussions of the Bible.

Environment and Tourism - Andrew Holden 2016-04-25

The global demand for tourism continues to increase as economic growth creates opportunities for its consumption as a lifestyle option across cultures. The spatial reach of recreational tourism into remoter environments reflects a desire to reconnect to nature that is

partially created by the global trend toward urbanisation. At the same time, anthropogenic created environmental problems have led us to re-evaluate our relationship to nature and the values that are held by the environment. This third edition of Environment and Tourism incorporates additional material on environmental philosophies and ontologies of nature and how these influence our understanding of tourism's relationship with the natural environment. In an epoch representing a critical juncture for the future well-being of the planet based on our relationship to nature, the text has been updated to reflect the growth in significance of the interaction between tourism and the natural environment as a part of this discourse. It communicates a range of key conceptual debates on the ethics and economics of the consuming nature for tourism and relates these to real world examples whilst evaluating environmental planning, and management responses. The book seeks to highlight the

relevance of the significance of tourism for nature within the framework of society, as a system of inter-connected places across space and time, exploring the relationship of the environments of where tourists come from with the ones that they travel to. The updated features include: new chapters on philosophies and constructs of the environment, environmental ethics, and tourist consumption an extensive range of international case studies used to illustrate the theoretical ideas presented boxes offering bite sized insights, and think points designed to encourage students to further engage with the topics discussed Environment and Tourism emphasises a holistic view of the tourism system and how it interacts with nature, illustrating the positive and negative effects of this relationship. It emphasises how ontologies of the environment influence the planning and management of tourism for natural resource conservation and human development. It is an invaluable tool for anyone studying Human

Geography, Tourism and Environmental Studies, as well as for policy makers and consultants working in the field of tourism development.

The Literature of Reconstruction - Wolfgang Funk 2017-03-23

Winner of the 2016 ESSE Junior Scholar Book Award in Literatures in the English Language
The Literature of Reconstruction argues for the term and concept of 'postmillennial reconstruction' to fill the gap left by the decline of postmodernism and deconstruction as useful cultural and literary categories. Wolfgang Funk shows how this notion emerges from the theoretical and philosophical development that led to the demise of postmodernism by relating it to the idea of 'authenticity': immediate experience that eludes direct representation. In addition, he provides a clear formal framework with which to identify and classify the features of 'reconstructive literature' by updating the

narratological category of 'metafiction', originally established in the 1980s. Based on Werner Wolf's observation of a 'metareferential turn' in contemporary arts and media, he illustrates how the specific use of metareference results in a renegotiation of the specific patterns of literary communication and claims that this renegotiation can be profitably described with the concept of 'reconstruction'. To substantiate this claim, in the second half of the book Funk discusses narrative texts that illustrate this transition from postmodern deconstruction to postmillennial reconstruction. The analyses take in distinguished and prize-winning writers such as Dave Eggers, Julian Barnes, Jennifer Egan and Jasper Fforde. The broad scope of authors, featuring writers from the US as well as the UK, underlines the fact that the reconstructive tendencies and strategies Funk diagnoses are of universal significance for the intellectual and cultural self-image of the global North.

Applied studies scholarship has triggered a not-so-quiet revolution in the discipline of ethnomusicology. The current generation of applied ethnomusicologists has moved toward participatory action research, involving themselves in musical communities and working directly on their behalf. The essays in *The Oxford Handbook of Applied Ethnomusicology*, edited by Svanibor Pettan and Jeff Todd Titon, theorize applied ethnomusicology, offer histories, and detail practical examples with the goal of stimulating further development in the field. The essays in the book, all newly commissioned for the volume, reflect scholarship

and data gleaned from eleven countries by over twenty contributors. Themes and locations of the research discussed encompass all world continents. The authors present case studies encompassing multiple places; other that discuss circumstances within a geopolitical unit, either near or far. Many of the authors consider marginalized peoples and communities; others argue for participatory action research. All are united in their interest in overarching themes such as conflict, education, archives, and the status of indigenous peoples and immigrants. A volume that at once defines its field, advances it, and even acts as a large-scale applied ethnomusicology project in the way it connects ideas and methodology, *The Oxford Handbook of Applied Ethnomusicology* is a seminal contribution to the study of ethnomusicology, theoretical and applied.

Essence of Mind - Jes Bertelsen 2013-06-04
This handbook to spirituality gathers together Danish meditation teacher Jes Bertelsen's advice on training the mind through wordless prayer and meditation to realize the essence of consciousness. Bertelsen has been teaching philosophy and meditation since the early 1970s; in 1989, he met the Tibetan lama Tulku Urgyen

Rinpoche, who authorized Jes Bertelsen to teach Dzogchen, and to do so using his own judgment as to the most appropriate way to assimilate these teachings into Western culture. Bertelsen's teachings are based on an experiential investigation of the nature of consciousness, using comparative analysis of Eastern and Western spiritual teachings and consciousness practices on a foundation of modern psychological, philosophical, and scientific approaches. *Essence of Mind* outlines the author's experience and approach to Dzogchen, the natural primordial state of human consciousness that is timeless, pure, and untouched by suffering. The book is divided into three parts. The first part describes different methods for pointing out the essence of consciousness and the techniques related to them. The second part seeks to outline the key principles of a training system suited to Western students that can lead to realization. The final section outlines the significance of continuous

exercises, and describes the way spiritual practice slowly permeates daily life, dreams, sleep, and eventually death. Through the mind-training process, the practitioner approaches an almost ecstatic state of completion, a luminous, blissful wakefulness in which the consciousness is also fully relaxed, not clinging to bliss or desiring ecstasy, but transparent and open. Bertelsen emphasizes that while more advanced forms of spiritual training can only take place in a face-to-face, deeply engaged mutual process between teacher and student, books are useful as sources of inspiration, in particular to help review one's insights and refresh one's practice. Essence of Mind systematizes the experiences

that occur along the spiritual path and helps students to refine, correct, and clarify their efforts; it is the author's hope that many students in the West will be able to benefit from his comparative approach to Dzogchen.
