Pharmacology for Pharmacy Technicians - Kathy Moscou 2009

Organized to provide an in-depth review of the ASHP content requirements for pharmacology and anatomy and physiology, *Pharmacology for Pharmacy Technicians*, 2nd Edition is comprehensive, yet approachable. It offers complete coverage of body systems structure to correspond to the way pharmacology is taught in most programs, as well as patient scenarios, anatomy and physiology refreshers, drug monographs with pill photos, and a number of learning aids. Overviews of anatomy and physiology at the beginning of each body system unit provide a basic understanding of anatomy and physiology to help you understand how drugs work in the body. Mini drug monographs in every body system and drug classification chapter contain valuable drug information and pill photos for quick reference. Summary drug tables with generic/brand name, usual dose and dosing schedule, and warning labels offer at-a-glance access to information about specific drugs. Helpful Tech Notes enhance your understanding of the practical knowledge needed in the pharmacy setting and help you relate new concepts to practical use. Tech Alerts offer critical reminders and warnings to help you learn to identify and avoid common pharmacy errors. Technician's Corner critical thinking exercises prepare you for on-the-job situations by providing a set of facts and asking you to reach a conclusion. Updated drug information ensures you are familiar with the latest drug approvals and therapeutic considerations. Additional learning resources on the companion Evolve website include: Certification practice exam to better prepare you for the PTCB or ExCPT exam. More recall exercises and games to help you retain complex information.

Canadian Pharmacy Exams - Pharmacy Technician Ospe Workbook 2019 - Fatima S. Marankan 2019-03-08

The regulation of pharmacy technicians in Canada has led to an expanded scope of practice. Despite some variations from jurisdiction to jurisdiction, the core nine competencies of pharmacy technicians practice identified by the National Association of Pharmacy Regulatory Authorities (NAPRA) remain consistent nationally. In order to become regulated (certified) a pharmacy technician must satisfy the requirements of the Pharmacy Examining Board of Canada (PEBC) by

completing successfully the Qualifying Exam divided in Part 1: MCQ (questions) and Part 2: OSPE (stations) to ensure pharmacy technicians have the necessary entry-level professional knowledge, skills and abilities to work effectively and safely within their scope of practice. The following core nine competencies of pharmacy technician practice, represent the keystones of the Qualifying Exam: 1. Ethical, Legal and Professional Responsibilities 2. Patient Care 3. Product Distribution 4. Practice Setting 5. Health Promotion 6. Knowledge and Research Application Pharmacy technicians and pharmacists work as a team to ensure optimal delivery of drug therapy. To that end, pharmacy technicians are primarily responsible for the technical aspects of a prescription whereas pharmacists focus on its clinical implications. Both groups assume responsibility for their own actions, contribute to the overall functioning of the pharmacy, and are accountable to the public. A candidate for OSPE Exam must be prepared to demonstrate practical skills in interactive and non-interactive stations. Stations are designed to evaluate several skills such as: - Gathering information from a Standardized Patient, Standardized Client or Standardized Health Professional to solve a drug-related problem -Gathering information from a Standardized Patient, Standardized Client or Standardized Health Professional to solve an ethical issue-Addressing the questions of a Standardized Patient, Standardized Client or Standardized Health Professional -Making a referral when appropriate-Screen and evaluate new prescriptions-Document information in a patient record-Check the accuracy of patient records-Check the accuracy of prepared medications-Update a patient record-Check the accuracy of prepared/compounded medications-Check the accuracy of compounding techniques-Compound a product Canadian Pharmacy Exams(TM) - Pharmacy Technician OSPE Workbook is designed as a self-study or group-study tool to help the student seeking pharmacy technician certification in Canada test his/her exam readiness, identify areas of strength and weakness. [Understanding Pharmacology for Pharmacy Technicians](#) - Mary Ann Stuhan 2012

Using language and organization aimed directly at pharmacy technicians, *Understanding Pharmacology for Pharmacy Technicians* offers more than 700 pages of practical applications, safety issues and error prevention, and illustrative cases that not only explain how but why. Throughout the book, anatomy and physiology are discussed in relation to various disorders and associated pharmacotherapies to give the pharmacy technician students a context for how drugs work. Students using this book will learn the therapeutic effects of prescription medications, nonprescription medications, and alternative therapies

commonly used to treat diseases affecting that system, and their adverse effects. An emphasis is placed on practical applications for the technician. What types of issues will technicians encounter at work? What is their role in patient education? How do they work with the pharmacist? Key features throughout the book: 77 case studies, including 249 case study questions More than 1,200 drugs discussed Pronunciations for difficult terms or words such as disease names Numerous figures and illustrations Alerts that point out areas of potential dangers or errors, including look-alike/sound-alike drugs. 335 practice points, including mention of any FDA-required patient medication guides, and any "special" drug storage and dispensing considerations, including beyond-use dating of open multi-use products. 110 commonly used and comprehensive drug tables. Chapter review questions The book's content is written to meet ASHP accreditation standards and, therefore, is one of the most comprehensive books on the market related to pharmacology for technicians.
